Note on Citations in this Chronology

Citations appear at the end of each entry in the Long-Form Version of this *Chronology* (vols. 2-5) and refer to a variety of sources available to the Committees. These sources are noted in the corresponding entries in the Summary Version (vol. 1) only by the witness' name or by the document description or its exhibit number. The sources include:

1. JHICI. Refers to the unpublished transcripts, titled Joint Hearings on the Iran-Contra Investigation, that were issued daily to the Committees while the Iran-Contra Hearings were being held in May through August 1987. All page references given as "[Witness] Testim., JHICI" are to these volumes which are stored in the Committees' archives in Washington, D.C. These transcripts have recently been published by the Committees in a thirteen volume set titled *Iran-Contra Investigation: Joint Hearings Before the Senate Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition and the House Select Committee to Investigate Covert Arms Transactions with Iran*, 100th Cong., 1st Sess. (Washington, D.C.: U.S. Government Printing Office, 1987-88). A table converting unpublished transcript (JHICI) page numbers to published transcript (referred to in the *Iran-Contra Report* as *Hearings* volumes) page numbers is included at the end of volume I of this Appendix.

2. Executive Session, JHICI. Refers to sworn hearing testimony of John Poindexter or Oliver North taken in closed session because of the classified nature of the testimony. (These witnesses also testified in sessions open to the public.) The transcripts of the closed sessions were publicly released after classified portions of the testimony were redacted. Citations to Executive Session testimony refer to the unpublished transcripts described in the preceding paragraph. These transcripts are available in the Committees' archives in Washington, D.C.

3. Dep. A sworn deposition taken in the presence of one or more Members of the Committees and/or counsel for the Committees, and counsel for the deponent. These deposition transcripts have been published as Appendix B to the *Iran-Contra Report*.

4. Int. An unsworn interview conducted by one or more Committee Members and/or Committee counsel, with counsel for the interviewee present if the interviewee wished.

5. Ex. An exhibit used during the Iran-Contra Hearings ("JHICI Ex.____") or during a deposition ("[Witness] Dep. Ex.____").

6. PROF Notes. Messages generated on a computer system used by the National Security Council staff.

7. Document letter and number codes. Source and document file codes for materials that have been assigned a Senate letter code and stamped page number. These materials are stored in the Committees' archives in Washington, D.C.

8. Iran-Contra Report. *Report of the Congressional Committees Investigating the Iran-Contra Affair With Supplemental, Minority, and Additional Views* (Washington, D.C.: U.S. Government Printing Office, Nov. 17, 1987).

9. Tower Report. *Report of the President's Special Review Board* (Washington, D.C.: U.S. Government Printing Office, Feb. 26, 1987).

10. HFAC, HPSCI, or SSCI. Testimony or statements made by witnesses before the House Foreign Affairs Committee, the House Permanent Select Committee on Intelligence, or the Senate Select Committee on Intelligence.

11. CRS. A numbered report issued by the Congressional Research Service of the Library of Congress.

Preface

This *Testimonial Chronology* records the events of the Iran-Contra Affair as recounted by the witnesses who testified before the Congressional Committees, and as disclosed in contemporaneous documents that the Committees gathered. It was prepared by the staff of the Senate Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition as an Appendix to the *Report of the Congressional Committees Investigating the Iran-Contra Affair* ("Iran-Contra Report"). Although this *Testimonial Chronology* is published by the Senate Select Committee, it is based on the evidence gathered by the two Select Committees during their joint investigation.

This *Testimonial Chronology* aims to be thorough, without passing judgment or making editorial comment on the evidence it records. It is intended to serve as a research aid, pulling together the myriad events and disparate threads of the Iran-Contra Affair in the words of the participants themselves. Accordingly, where the evidence contains multiple or differing versions of the same events, the various accounts are summarized or quoted. In every instance, the Committee has attempted to provide an accurate, objective and succinct summary of what the witnesses and the documents actually said—and not how the Committees viewed this evidence. The Committees' subjective views and conclusions are set forth in their *Iran-Contra Report*.

This *Testimonial Chronology*, while comprehensive, is not all-inclusive. The two Congressional Committees gathered hundreds of thousands of documents and took numerous depositions, not all of which could be included here. The primary source material for this *Testimonial Chronology* is the testimony of the witnesses who appeared at the Joint Hearings. Deposition testimony also has been included where the deposition transcripts were released prior to the publication of the *Iran-Contra Report*, or where the deposition transcripts discuss events referred to in the *Iran-Contra Report* or in this *Testimonial Chronology*. The documents quoted or cited were introduced as exhibits during the Joint Hearings or otherwise relied upon in the *Iran-Contra Report*.

Transcript text quoted in this *Testimonial Chronology* is edited only by the use of ellipses (. . .) or by material added in brackets where necessary for clarification or completeness. Such editing has been minimal. Likewise, [sic] has been used sparingly, in recognition of the fact that witnesses gave their testimony orally, not in writing. With this in mind, [sic] has been utilized to note that a quotation which might otherwise appear mistaken is recorded accurately here. Also, where a document or testimony has been quoted inaccurately in

other testimony, the accurate text is added parenthetically after the [sic].

The Summary Version of this *Testimonial Chronology* serves as an extended Table of Contents for the Long-Form Version. The Summary Version identifies topic headings in the order in which they appear in the Long-Form Version, and notes the specific witnesses whose testimony is included under each topic, as well as the documents quoted or cited.

Chronology entries are designated by nine-digit index numbers in the left margin before each entry. This number gives the date of each event. For example, 85/11/15-100 means November 15, 1985 (or mid-November 1985). The last three digits after the hyphen (100) were solely for computer sorting purposes; they need not detain the reader.

The dates used are those furnished by the witnesses or the documents; however, certain major topics (e.g., the "diversion") are grouped together for convenience.

Before this *Testimonial Chronology* was released, it was submitted by the Senate Select Committee to the White House for review by a Declassification Committee composed of representatives from the various executive departments. This is the same Declassification Committee which functioned throughout the Congressional investigation of the Iran-Contra Affair. The Senate Select Committee expresses its gratitude to the members of the Declassification Committee, and in particular, to Brenda Reger of the NSC staff, for their diligent work in reviewing this *Testimonial Chronology* and helping the Senate Select Committee insure that all critical evidence was disclosed with due regard for considerations of national security and U.S. foreign relations.

This *Testimonial Chronology* is largely the work of Isabel McGinty, Esq., an Assistant Counsel on the Senate Select Committee staff. Ms. McGinty spent enormous hours—including long days, long nights and weekends—throughout the past year to compile this *Testimonial Chronology* and prepare it for publication. Although the task was extremely difficult and painstaking, Ms. McGinty saw it through to completion, long after the *Iran-Contra Report* had been issued and other staff members had departed for their homes. The Senate Select Committee expresses special gratitude to Isabel McGinty for her dedicated service in producing these volumes.

It is the Senate Select Committee's hope that this *Testimonial Chronology* will contribute to the public's understanding of the complex events which made up the Iran-Contra Affair.

PREFACE

"Chairman INOUE. The hearing will please

come to order.

"... I think we should remind ourselves that this panel here is not convened to determine the guilt or innocence of anyone. This is not a court of law, and we are not here to determine the culpability, criminal culpability of anyone involved.

"However, if we are to file a final report to the people of the United States, we would have to have available to us the best factual chronology of what did occur, and the problem we have is that the testimony to date has been confusing and contradictory, and I believe that is an understatement."

from the U.S. Army. One year earlier, after he had publicly opposed President Carter's plan to withdraw U.S. troops from Korea, he had been "reassigned to a considerably quieter post." (Singlaub Testim, JHICI, 5/20/87, at 183.)

78/05/31-010 SINGLAUB AND NORTH:

Sen. Cohen's remarks to Lt. Col. North:

"Mr. COHEN. . . . [L]ong after the sheer force of your personality has faded from this room, and that may be a very long time indeed, and long after these cameras that are here today are clicked off, I think the American people are going to be left to deal with the policy implications of what has occurred and what has been said in this room.

"

"Finally, I want to just recall the words of General Singlaub. I know he is somebody that you admire. He has appeared before this committee. I think we are all satisfied of his dedication and patriotism. He retired from the Army because he was upset. He was upset because President Carter had declared a unilateral withdrawal of troops from South Korea.

"Now, a number of us were also upset about it. I recall that Senator Nunn, myself and several others, we went to South Korea, met with the troops, met with the leadership of South Korea; we came back, went to the White House, sat down with President Carter and pleaded with him not to carry forward that plan to unilaterally withdraw troops from South Korea.

"And in some small measure, perhaps, we were successful, because he withdr[e]w that plan. But General Singlaub didn't have that option. He was faced with the prospect of having criticized the Commander-in-Chief and he couldn't do that and remain in uniform, so he resigned.

"After his retirement, he said the following. He said, 'This Administration doesn't want to hear anything that is contrary to the decisions they have already made. That is a bad thing. It is the first symptom of a totalitarian regime when you start rejecting any legitimate criticism, any advice from the loyal opposition.'

"Well, if General Singlaub is right, and we have to ask what it means to reject not the voice of the loyal opposition, but the voice of the majority in Congress and the country. Because I think that has been clear by--on the part of a number of us. Democracy demands not only that the rights of the minority be protected, but that the rules of the majority be respected. That is true even if you and I believe the majority is wrong.

"We have to respect the rule of law until we can change the law itself, because otherwise the rule of law will be reduced to the law of rule. I think that is one of the central lessons of this hearing.

"I thank you very much for your testimony." (North Testim., JHICI, 7/13/87, at 160, 162-64.)

NORTH ACCOUNT:

"Mr. LIMAN. Well, did you understand, Colonel North, that if the President wants to follow the law that Congress passed and that he signed on covert operations, he can sign a finding and let the CIA do it, and if he wants to do it without signing a finding, he can let the NSC do it? Is that what you are saying?

On July 12, 1983, the President directs the DoD to provide enhanced support for the CIA in its efforts to assist the Contras. The following day, the CIA sends a "wish list" to the DoD requesting \$28 million in equipment "free-of-charge." The CIA plan involves stockpiling goods in case Congress should cut off aid. Saigon. Mr. Rodriguez, a Cuban born intelligence officer of great courage and experience, was instrumental in implementing this concept. EARLY 1984

MINING OF NICARAGUAN HARBORS

SUMMARY:

The Iran-Contra Report summarizes the event:

"In early April, the country learned that the U.S. Government was involved in the mining of Nicaraguan harbors. U.S. Government presence in Nicaragua had become 'embarrassingly overt.' As McFarlane testified: 'The disclosure that harbors had been mined in Nicaragua was received very badly. . . .'

"Some in Congress believed that the

Administration had misrepresented the activities it conducted under the September 1983 Finding.

Senator Barry Goldwater, Senate Intelligence

Committee Chairman, charged that his Committee

Members had been deceived at the very moment they were being asked to vote to support Contra aid.

'[I]t is indefensible on the part of the

Administration to ask us to back its foreign

policy when we don't even know what is going on,' he declared.

"After initial assertions by Director Casey and the National Security Adviser that full and detailed disclosure had been provided to Congress, the Administration decided to end the escalating battle and offered a truce. On April 26, Director Casey 'apologize[d] profoundly,' conceding inadequate disclosure. But the 'apology' could not heal the 'fracture' between Congress and the Administration that the mining had created. "Mr. BROOKS. Mr. Calero, were you involved in any way in the CIA project to mine the Nicaraguan harbors in 1984?

"Mr. CALERO. Well, our involvement--one of our men, I believe it was Commandante Bermudez, took a trip down the Nicaraguan coast and stayed for three or four days out in the ocean at one point. That was back in 1983, and given the period of the mining, so, yes, I mean, we had--

"Mr. BROOKS. And I note that you were quoted in The New York Times in April, April 20, 1984, saying we claimed there are no Americans involved, not one United States citizen is involved in the mining.

"Mr. CALERO. Yes, I was referring to the actual placing of the mines, and I still say it to this day. No American citizen was involved.

"Mr. BROOKS. Who did place them?

"I briefed the House Foreign Affairs and Foreign -- Senate Foreign Relations Committee. I think I briefed both Armed Services committees on it.

"In April of 1986, when that was signed, it just blew up all over town. The word 'neutralize' is in there. The word 'neutralize' in there, as I explained to everybody, did not mean assassination. "Mr. MCFARLANE. That is correct.

"Mr. LIMAN. Now, did you speak to the Director of Central Intelligence about this?

"Mr. MCFARLANE. All of the Cabinet officers involved, Secretary of State and Defense, the Director of Central Intelligence, and I believe the Chairman of the Joint Chiefs and people in the White House, myself, Chief of Staff, the Director of Legislative Affairs would gather to consider, ostensibly to consider the prospect for Congressional change in attitude to support the supplemental money, the \$14 million.

"And all of us discussed the matter and concluded that that was virtually a zero probability, and no amount of wringing our hands was going to change that.

Earlier, on March 27, 1984, DCI Casey had written a memo indicating that Country 6 officials had been approached for Contra aid and that their initial reaction had been favorable.

But Clarridge testified on August 4, 1987 that neither Casey's memorandum nor the cable traffic (in some cases captioned, "[Country 6] Assistance to the Nicaraguan Project") represented CIA efforts to solicit Contra assistance from Country 6. (See 84/03/27-200 through -206.)

"Mr. Clarridge. I think that is put a little too strongly. I think within the agency, and that really involved myself and the Director and in the interagency group, there was still the hope that the President would be able to pull it off and that the Congress would vote the money. The effort, as I recall it, from, if you want to say from late spring through the summer, was focused on that particular effort.

"Now, there was discussion about, you know, where could you possibly get other funds from, and there were frankly not very many good ideas.

"Mr. Eggleston. Mr. Clarridge, you will recall in your deposition, you were asked a series of questions about a trip you took [redacted] --

make further contact. "Because this was something new and different," Owen goes to discuss it with North, whom he had met "about a year before." North discusses with Owen the Contras' lack of funds.

After Owen speaks with North (and while Owen is still working for Gray), he puts together "several different proposals . . . at a time when no one quite knew where the money for the contras was going to come from." One proposal involves "setting up proprietary companies . . . to purchase goods overseas and provide assistance to the contras." Another proposal involves setting up a non-profit organization to raise funds for humanitarian and non-lethal assistance.

Gray and Co. rejects the Contras' offer; North and Owen decide otherwise: "a decision was made that I [sc. Owen] would go down to Central America and visit both Costa Rica and Honduras, and come back with a report laying out what the probable needs would be for the contras during the next period of months." "Secretary SHULTZ. Yes.

"Mr. BELNICK. . . . [A]nd you opposed going to Country Number One for contra assistance, am I correct, as well?

"Secretary SHULTZ. Yes, I did.

"Mr. BELNICK. And by April 18th of 1984, according to the chronology [see 86/04/18-100], you had made clear to Bud McFarlane, who was then the National Security Adviser, that you were opposed to approaching Country One for contra assistance, correct?

"Secretary SHULTZ. Yes.

"Mr. BELNICK. You had also said and expressed your position that in no event would you agree to the United States Government serving as an intermediary or a conduit for aid to the contras from any third country source; is that correct?

"Secretary SHULTZ. That's correct, and I

questioned--without being a lawyer, I questioned the legality of any such arrangement.

"Mr. BELNICK. Now, after expressing that position--those positions, rather--did you then learn in May 1984 from our embassy in Country Number One that Mr. Teicher of the National Security Council staff had, in fact, approached Country Number One for a contribution to the Nicaraguan opposition and had said that the United States Government would serve as a conduit for any such contribution?

"Secretary SHULTZ. Yes. We had that from the ambassador, Ambassador Sam Lewis. [See 84/05/09-100.]

"Mr. BELNICK. Prior to then, did you have any information from the National Security Adviser or staff that a member of that staff was going to make this approach, the same approach that you had expressed opposition to?

"Secretary SHULTZ. No, I didn't.

"Mr. BELNICK. I understand that after you learned from our embassy of the information, that you saw Mr. McFarlane at the White House at the beginning of May and confronted him with what you had learned, correct?

"Secretary SHULTZ. That's right. I objected to it. [See 84/05/11-100.]

think my notes to this effect are that he said that Mr. Teicher was there, was not operating on instructions, he was there on his own hook.

"Mr. BELNICK. Subsequently, did you hear otherwise as to whether Mr. Teicher was there on his own hook?

"Secretary SHULTZ. Mr. Teicher, as I am remembering it, this is all something that can be looked up in these records, but as I remember, Mr. Teicher went to Ambassador Lewis and said that he wanted Ambassador Lewis to know that he was there under instructions.

"Mr. BELNICK. And that what he had said was the result of strict instructions he had received?

"Secretary SHULTZ. Right. That is what Teicher told Ambassador Lewis. [See 84/05/23-100.]

"Mr. BELNICK. I gather, then, Mr. McFarlane did not tell you at the time, after he told you that Teicher was there on his own hook, that he had both asked Mr. Teicher to make the approach to country number 1 and that after you had expressed opposition to any such approach by April 18, Mr. McFarlane had sent Mr. Teicher back to the official of country number 1 with further instructions to make another approach. I take it you were not informed of that?

"Secretary SHULTZ. No, I wasn't." (Shultz Testim., JHIC1, 7/23/87, at 31-34. See 84/05/23-100.)

Contras:

McFarlane meets with a Country 2 official and "make[s] clear it looked as though we were heading for a defeat regarding Congressional support for the contras, that it was almost inevitable that the Administration would fail in getting any support for the contras and, because of that, it would represent a substantial loss for the President.

"Well, that was the extent of it. He weighed that, he agreed. He said he would like to think about it and did so, and within a matter of days, two or three days, contacted me and made clear that he intended to provide a contribution of \$1 million per month, ostensibly from private funds that would be devoted to -- as a humanitarian gesture -- to sustenance of the contras through

the end of the year.

"I should stress, I described it as it happened, and while there is no solicitation, cry for solicitation, in fact it was unmistakable in his own mind that my concern and my view of this impending loss would represent a significant setback for the President, and if anyone with any gumption could manage without being led or asked, then a contribution would have been welcome." (McFarlane Testim., JHICI, 5/11/87, at 34-35 [date - spring or summer 1984]; see id., 5/12/87, at 4 [date - May 1984]. But see id., 5/13/87, at 100 [Sen. Inouye's question gives date as "in July of 1984"; McFarlane's answer does not address date.].)

After McFarlane learns of the Country 2 contribution, he returns to his office and tells his deputy, John Poindexter, about it. He also contacts North and "ask[s] him to be in touch with the contra leaders and to find out where the bank account was kept. And within a matter of days, as I recall, Lieutenant Colonel North came back and provided the name of the bank, its address and the contras' account number for the bank in Miami, Florida, an American Bank, and I provided that 3 by 5 card to the country, or to the person of Country 2, and that was the last that I heard of it." (McFarlane Testim., JHICI, 5/11/87, at 37-38.)

McFarlane "communicated [the news of Country 2's contribution] to the Vice President personally," he believes, "within a day or so." At the end of a weekly breakfast with the Secretaries of State and Defense, McFarlane "drew them aside . . . and told them that [the money] had been provided for through the end of the year; and neither gentleman pressed the matter further." everything, but we will keep on trying, the President will keep on pressing. We will keep on soliciting funds, and sort of a consolation pep talk situation.

"Mr. BARBADORO. They told you that the President wasn't going to give up on the Contras, he was going to keep fighting for support for you, is that right?

"Mr. CALERO. Yes, that the President would support himself, yes.

"Mr. BARBADORO. Did anyone at that meeting suggest to you that they might be able to raise funds for you from private or foreign government sources?

"Mr. CALERO. Not to my recollection that anybody committed himself to do that, but as I say, it was a pep talk. It was something that gave us hope.

"Mr. BARBADORO. You saw Colonel North again that summer, did you not?

"Mr. CALERO. Oh, yes, yes.

"Mr. BARBADORO. What happened at your next meeting with Colonel North?

"Mr. CALERO. Well, we went into a lot of detail of the situation, I would say, and he was also very encouraging. I saw in him a very dedicated man and I identified him as my liaison with the United States Government.

"Mr. BARBADORO. Well, Mr. Calero, did Colonel North suggest to you at this second meeting that he might be able to raise some funds from foreign sources for you?

WSPG MEETING: THIRD-COUNTRY FUNDING FOR

THE CONTRAS

On June 25, 1984, the National Security Planning Group meets to consider options for funding the Contras. In attendance are the President, Vice President, Shultz, Weinberger, Casey, Meese, and McFarlane. Casey urges the President to seek third-country aid. Shultz responds that White House Chief of Staff James Baker has told him that if the U.S. Government should act as a conduit for third-country funding to the Contras, that would be an "impeachable offense." Casey responds that it is permissible if the plan calls for direct contributions from third countries to the Contras. Meese recalls that there was an opinion by Attorney General William French Smith that provided authority for such a plan, but also notes that if an opinion were sought, Justice Department lawyers should be given guidance on what the opinion should say.

The meeting ends without any firm conclusion. McFarlane advises that no one do anything without the necessary Justice Department opinion.

MEETING

SHULTZ ACCOUNT, Part 1:

"Mr. BELNICK. I would turn your attention now, Mr. Secretary, to an NSPG . . . meeting which took place on June 25, 1984. . . .

"

"Mr. BELNICK. . . . The subject of that meeting was the situation in Central America and specifically insofar as we have accepted the discussion whether to obtain third-country support for the contras. Am I correct that your position at that meeting on June 25, 1984 was that you did not believe it would be lawful at that time to seek third-country assistance for the Nicaraguan Opposition?

"Secretary SHULTZ. That is correct. What I must have had in mind is that there would be ways of doing it that would be unlawful, and I perhaps would--I am not sure about this--but in my mind,

the proposal that I had seen was for us to be essentially a conduit.

"Mr. BELNICK. Did you have a view then as to the wisdom of the policy of approaching third countries for assistance at that time, June, 1984?

"Secretary SHULTZ. I am a very strong supporter of the idea of helping those people in Nicaragua who are ready to fight for the freedom and independence of their country to do so. And I am convinced that it is very much in the interest of the United States and of the new democracies in Central America to provide that kind of help, and I hope and pray that when we come to act on this matter, we will continue to do what was put into place last year. So I have always been a very strong supporter.

"My feeling always has been that in the end, to provide that kind of support that really will do the job, it will be necessary to do it with the support of the Congress. I felt, and feel today, that the Nicaraguan Democratic Resistance is a genuine force and that somehow they would hold themselves together, and as Tony Motley put it, they could rustle up their own money somehow, at least enough to keep going.

"But our major concern should be to conduct ourselves so that we maximize the chance of persuading the Congress to come back on board and give support. And I felt that if we, if we actively solicited third countries, we would be cutting against those objectives in our arguments with the Congress, and beyond that it seemed to me that since this is a matter of vital interest to

the United States, we couldn't, we didn't want to get ourselves in the position where we have to rely on what we can persuade other people to do to serve our vital interests. We have to step up to those ourselves. That was my thinking.

"Mr. BELNICK. On the legal side, did you conclude and express the view at the NSPG meeting that you ought to get an opinion from the Attorney General as to whether the United States could help the contras with assistance from third countries?

"Secretary SHULTZ. Yes. There was a back-and-forth argument about the subject of legality, and I am always a little hesitant to express myself on those subjects surrounded by lawyers, as I am here and everywhere.

"Mr. BELNICK. Sir, there is never enough.

"Secretary SHULTZ. But I have noticed in my--I have noticed in my experience in the government that when you go to an official, professional lawyer--

"Mr. BELNICK. Uh-oh.

"Secretary SHULTZ. --who is holding office and you say 'I want an opinion, I want you to write it down and sign your name to it', that that gets their attention. It is better than a casual, you know, 'I guess it is okay' kind of thing.

"So I said, 'Well, let's have a formal opinion, and then we will know what we can do and can't do.'"

"Secretary SHULTZ. No, I don't recall the sort of back and forth of discussion particularly. It was quite a while ago.

"Mr. BELNICK. Would you look at page 4, please, of the [classified] excerpts of that meeting and tell me whether it refreshes your recollection . . . of the comments that Mr. Meese made about going to the Attorney General for an opinion.

"Secretary SHULTZ. I don't remember that, but I see that he is saying we want to tell the Justice Department we want a proper and legal basis, so I don't have any objection to that. But I don't remember that.

"Mr. BELNICK. Do you recall that Mr. Meese also indicated that if you went to the Department of Justice for an opinion, it would be important to tell the Department of Justice where you wanted to come out?

"Secretary SHULTZ. No, I don't recall that he said that. Maybe you can get that implication from that sentence, but I don't think that--I don't remember that at all.

"Mr. BELNICK. . . . And at the end of the June 1984 meeting, as I understand it, Mr.

McFarlane proposed that things be held in abeyance and that there be no authority for anyone to seek third country support for the contras pending receipt of an opinion from the Attorney General?

"Secretary SHULTZ. I believe that is right.

"Mr. BELNICK. While Mr. McFarlane so proposed at that time, Mr. Secretary, did he inform you that at the same time, or thereabouts, that he, Mr. McFarlane, had met with an official of Country No. 2 and obtained a contribution of one million dollars per month for the contra cause?

"Secretary SHULTZ. No, he didn't.

"Mr. BELNICK. And is it the fact, sir, that the same information was withheld from the State Department when the Under Secretary of State, Mr. Armacost, asked Mr. McFarlane on August 7, 1984, how the contras were being funded?

"Secretary SHULTZ. We were having a discussion of that fact among a group of people, and I have some notes on that that say[] who; but Mr. Armacost did raise the question where are they getting the money; and Mr. McFarlane said he didn't know. But they seemed to have money coming in at a rate of about a million dollar[s] a month. [See 84/08/07-100.]

On June 26, 1984, Director Casey meets with Attorney General William French Smith along with members of the DoJ and CIA legal staff. In a memorandum recording the meeting, CIA General Counsel Stanley Sporkin reports that in response to Director Casey's question about the "legal limits" of funding options, the Attorney General stated "that he saw no legal concern if the United States Government discussed this matter with other nations so long as it was made clear that they would be using their own funds to support the Contras and no U.S. appropriated funds would be used for this purpose. The Attorney General also said that any nation agreeing to supply aid could not look to the United States to repay that commitment in the future. "Mr. George. Gut instinct, I know Bill Casey.

If Casey sent Second to North, someone else talked Casey into it. I don't know -- why am I

conjecturing -- I can't believe that Bill Casey

sent Second to North because if he did he had to

send him in the summer of 1984, I think as I put

it back together historically. Bill Casey knew

the problems with Second. The problem -- the

problem is that when who[ever] it was told Ollie

North that he had one little task, all Ollie had

to do was get money or make sure money was

obtained, obtain arms, make sure arms are sent to

Central America, get somebody to give private

support to the benefactors. Those who charged

North with that activity were grossly unfair and

who would walk into Ollie North's life first in

North testified that by the time of Boland's enactment in October 1984, "Secord had been engaged and money had begun to flow to the Nicaraguan resistance from outside sources." North's description of Secord's role and Contra funding continued:

"Mr. JENKINS. And those outside sources

"I gave that account number to Mr. McFarlane and shortly thereafter money started to flow. And I can't say for certain even today that there is a direct connection, but I certainly assumed there was and it flowed to that account. And then General Secord began providing the kind of support which is now so evident.

"Now, I take it it is your testimony that you didn't know about General Secord's role in any of this until the Honduran [sic] meeting in December of 1985; is that correct?

"Mr. MCFARLANE. That is correct, Senator Sarbanes, and I think that the statement is also reinforced by the facts that are on the public record.

"Specifically, in 1984 to my knowledge, there was no meeting or deliberate plan developed to plan for the contingency of a congressional cutoff.

"The reason why you wouldn't need to do that was because as we have learned separately a country, a second, third country had volunteered to support and continue to sustain the needs of the contras.

-- when we reached the point that the CIA was restricted as to what they could do in terms of supporting the contras and because the contras didn't have a -- any sort of logistics organization of their own, Colonel North, to carry out his general responsibilities, had to figure out a way to privately arrange a logistics organization.

"I don't recall being involved in the decision to use General Secord, but when I learned of it, I had no problem with it. I was an admirer of General Secord's, thought he was a very competent, capable officer, and also didn't see any problem with it because he was doing this as a private individual.

I am sure Colonel North will have a better recollection of the exact details there. But I understand from the reports that Colonel North made to me that generally the way it worked is that General Secord either had or set up several companies that essentially ran the logistics organization for the democratic resistance going all the way from procuring arms from third countries with funds that were available from whatever source, private or third party, and then transporting those arms and supplies from their third-country location to the

"A. No, I don't. In fact, the way this route sheet is marked I can't recall whether I saw it. The only way that you can be sure that I have read a memo is if my initials are on it someplace.

"Q. Why don't we get into that now? During the period that you were the Deputy could you give me an estimate of how many pages a day of reading you did?

"A. Hundreds. I don't know the number -- a very large amount.

"Q. Do you speed read?

"A. No. I'm a slow reader.

"Q. And after you became National Security Advisor did the reading increase or decrease?

"A. Decreased.

"Q. Because you had a Deputy who could do it?

"A. Yes, for a period of time. But, of course, then I operated from the middle of May until the first of, I guess, the end of September without a Deputy. But still it seems to me my staff filtered out the stuff, as I had done for Mr. McFarlane.

"Q. Now if you filtered out the material for McFarlane, who would have filtered out a report like this for McFarlane?

"A. This must have had some time urgency. It looks like the President was getting ready to [go] someplace in the afternoon. What I was going to say is that the check mark means that a copy of it was sent to me. Whether I saw the copy before Mr. McFarlane did would be highly questionable.

you so that you'd understand that some things really required action and you should read and other material[] was just to tell you that something had been sent but it was not a matter that required your paying any attention to it?

"A. That's correct. I had several categories -- urgent items that were in a red folder, action items that were less urgent but that I had to take some sort of action on, and then information items. Chances are, just looking at this document, that because it was going in to Mr. McFarlane at the same time it was going in to me, it probably went into my information folder.

"Q. You see, in this memorandum Oliver North is recommending that a private donor be approached to fund the purchase of a helicopter for the FDN; correct?

"A. Um-hum.

"Q. And he talks about the fact that the only helicopter that the FDN had on its northern front had been shot down.

"A. Um-hum.

"Q. And if the notation there was put on at the time, Mr. McFarlane indicated that he thought it wasn't legal to approach a private donor.

"A. I don't know what Mr. McFarlane was thinking. I mean, I see what he wrote, but I don't know the background.

"Q. But you have no recollection of the memo and you have no recollection of Mr. McFarlane expressing a view against solicitation of funds? Is that what it comes down to?

What I've said before is that my impression was that he was sensitive about solicitation on any sort of a broad scale.

"Q. What does that mean?

"A. Well, for example, he didn't want, for example, State Department going out and soliciting funds from third countries.

"Q. But this was Oliver North. He's not State Department.

"A. Yeah, that's true. Again, I don't recall it. I don't recall having any discussion with Mr. McFarlane about it. I don't know what his rationale was for saying that. I frankly wouldn't see anything wrong with it.

"Q. And I think I know the answer. Is it a fact that you don't recall whether this was ever elevated to the President of the United States?

"A. I'm sorry. I just don't know."

American people and that we assure the contras of continuing administration support--to help them hold body and so[ul] together--until the time when Congress would again agree to support them.

"Congressional restrictions made it impractical for either the Defense Department or the Central Intelligence Agency to function even as a liaison with the contras. The State Department has always been disinclined to be associated with a covert action.

"But the President had made clear that he wanted a job done. The net result was that the job fell to the national security council staff.

I think it is fair to say that this occurrence was not an example of a[n] NS[C] staff eagerly grabbing power from other departments and agencies. In the case of the contra operations, it was the NSC was the agency of last resort. And it was not the right agency, as subsequent history clearly revealed.

"To carry out the President's wishes, I relied on two staff officers, Donald Fortier, now deceased, Director of the Political Military Affairs Division, and one of his deputies, Lieutenant Colonel Oliver North, whose existing responsibilities included Latin American and military affairs.

"I told Mr. Fortier, who had long, long experience in legislative relations, to oversee the effort to gain Congressional support.

"I told Colonel North two things. The first was to be a visible sign of the President's strong personal support, to show the contras that they

CONTRAS

GENERAL

DATE

would not be forgotten or abandoned, even though we could not provide them with financial support.

"The second, more specific responsibility I gave Colonel North was to help the contras in their efforts to become a real political movement, genuinely respecting democratic principles and human rights.

"I did make a special point of stressing to my staff that we were to operate at all times within the law, and that in particular we were not to solicit, encourage, coerce or otherwise broker financial contributions to the contras. I took this to be the Congress'[] foremost concern, from having worked with many people involved in the drafting of legislation in the months before.

"In this instance, as in all others, the rule of law had to govern national policy, as well as our actions in support of it.

"The aspect of Administration support that has attracted the most attention is the question of funding for the contras from private sources. At the time--as today--there was, in my judgment, no need to find additional funds. The support needed to sustain them in the short run--1985--was coming from the foreign government that had made a contribution in mid-1984 and then doubled it in 1985."

"Mr. NORTH. That's correct.

"Mr. LIMAN. Whose words are 'the body and soul'?

"Mr. NORTH. As they were relayed to me, they were the words of the President.

"Mr. NORTH. And more. To keep them together as a viable political opposition, to keep them alive in the field, to bridge the time between the time when we would have no money and the time when the Congress would vote again, to keep the effort alive, because the President committed publicly to go back, in his words, again and again and again to support the Nicaraguan resistance.

"And I not only do [sic] that, but I went down and talked, as you now know from my notebooks, with the heads of states of Central America and other countries, in an effort to do just exactly that.

". . . .

"Mr. LIMAN. And did you understand that that direction was emanating from the President of the United States himself?

"Mr. NORTH. I did.

"Mr. LIMAN. Is it fair to say, Colonel, that you were confronted with a dilemma?

"Mr. NORTH. When?

"Mr. LIMAN. I will explain what it is. And you will either confirm it or not. On the one hand, you were told to keep the contras alive, including as a fighting force, to run what you called a full service covert operation.

"Mr. NORTH. I didn't call it that.

"Mr. LIMAN. Well, to provide them covert support, including covert support assisting them militarily. And, on the other hand, you had the Boland Amendment there. Did that present a problem for you, sir?

"Mr. NORTH. Is the question did the Boland Amendment create a problem?

"Mr. LIMAN. No, did you find that you were in a conflictive position, sir?

"Mr. NORTH. No. We sought means by which we could comply with Boland and still keep the Nicaraguan Resistance in the field politically

McFARLANE ACCOUNT:

"Mr. RUDMAN. . . . [T]he Tower Commission indicated that the President said he was not aware of the involvement of his NSC staff in the resupply effort to the contras.

"To the best of your knowledge, is that correct?

"Mr. McFARLANE. I think it is correct and I don't want to contribute as I think I did contribute in my earlier testimony to the fact that the President was witness[] of everything Ollie did when clearly he was not.

"I briefed the President on what I thought Ollie was doing, but I don't want to lift the blame from my own shoulders. I did tell Ollie I want the movement to become more credible in the sense of political leadership and I had no illusions whatsoever that Ollie was down there doing everything he could manage to help the contras.

"But my judgment, and it is my judgment and error if it is, was that no one single human being could undertake the sufficient scale of activity to be in conflict with the law which I saw to be foremostly a prohibition on raising money and in no sense was I aware of those activities.

KEEPING BODY AND SOUL TOGETHER: MCFARLANE'S

INSTRUCTIONS TO NORTH

MCFARLANE ACCOUNT:

"MR. FOLEY. Mr. McFarlane, did you give Colonel North a direct instruction from the President that he should keep the contras together, body and soul, as a viable fighting force?

"MR. MCFARLANE. I did, and I explained what I believed that meant, that it was to spend his time trying to turn them into a credible political organization by incorporating acknowledged leaders within Nicaragua into the military leadership and also working with him to come up with a platform so that they would be seen by Congressmen as a political movement of real substance interested in negotiation; and he did that. And I think if anything is missing from the past six days, it is to acknowledge the enormous diplomacy of Colonel North in being able to pull off what was an extremely solid platform and peace proposals.

"MR. FOLEY. Was the instruction also to assist the contras in a military way to keep them as a viable military fighting force in the field?

"MR. MCFARLANE. No, sir.

"MR. FOLEY. Did you receive these

instructions from the President personally?

"MR. MCFARLANE. Clearly the President wanted the contras to survive and stated so to me many times, and I translated that expressed wish of the President to Colonel North and others on my staff.

He also, the President, expressed this to the Secretary of State and Defense, Director Casey. It was no secret.

"Mr. FOLEY. So he, the President, told you that he wanted to see this result occur, and you translated that into a direction directed to Colonel North, is that correct?

"Mr. MCFARLANE. That is correct.

"Mr. FOLEY. The President didn't say[,] 'Tell Colonel North that I want him to do this'?

"Mr. MCFARLANE. No, sir.

"Mr. FOLEY. When did the President make this general statement to you that you felt necessary to pass on to Colonel North? Do you remember the timeframe?

"Mr. MCFARLANE. Well, sir, it must have been in the days leading to Boland II. The President was often commenting upon his concern over the results of congressional restrictions over time, but became particularly worried about it as the time of the total cutoff of funding in October of 1984 or '85--no, '84--came about and was hopeful that they would survive until we could persuade the Congress to turn it back on.

"Mr. FOLEY. Did you ever have any discussion with the President about third-country funding for the contras?

"Mr. MCFARLANE. Only when I reported the results of what had been offered by Country Two." (McFarlane Testim., JHICI, 7/14/87, at 245-48. See id., 5/11/87, at 14, 47-48 [McFarlane's instructions to North].)

NORTH'S CONTRA ROLE: "SWITCHING POINT"
AND "KINGPIN"; AND PRESIDENT'S AWARENESS
POINDEXTER DEPOSITION ACCOUNT:

"A. . . . Colonel North kept very close contact with the contra leadership, not only in terms of their logistics but also in terms of getting organized as a more effective political entity. He met with the democratic leadership often and I think was largely responsible for getting them to organize the United Nicaraguan Opposition Organization, getting them to focus on what their objectives were. The leaders, Adolfo Calero, Arturo Cruz, and Adolfo Robelo -- and sometimes you will see in my notes a shorthand AAA, and that refers to those three leaders. He maintained very close contact with them. Colonel North maintained close contact with Secord.

"So my view of the operation was that Colonel North was the switching point that made the whole system work. You know, what he got involved with directly or somebody else did is a little fuzzy in my mind, but clearly I viewed Ollie as the kingpin to the Central America opposition once the CIA was restricted.

"Q. How much did the President know of this?

"A. Well, that's a little hard to tell for me. I think the President was clearly aware that Colonel North was the primary staff officer on the NSC for the democratic resistance.

"Colonel North would have participated in probably several meetings with the President. Certainly when the AAA came up to meet with the

President, Colonel North would be in those meetings. He would be in any NSC and maybe some of the NSPG meetings that were held on Central America, so the President would see his face on any event associated with Central America.

"Colonel North would -- once in a while -- would go up to the 9:30 meetings if he had something to report about Central America.

"Q. But you described him at page 60 [of the 5/2/87 deposition] where you said that the contras didn't have any sort of logistics organization of their own and Colonel North had to figure out a way to privately arrange a logistics organization. And a little further on you described him

"Q. Or were you present when Colonel North's role was described?

"A. I don't recall that.

"Q. You said that he was the action officer on Central America and that was something which the President had been told, I assume, or knew.

"A. Yes. The President knew that Colonel North was the action officer on Central America.

"Q. But did he know, so far as you can say, that North was filling this vacuum that had been left by the CIA dropping out?

"A. Well, I don't think -- you see, in the President's mind he wouldn't know the details of what CIA was doing, what Defense was doing, what State was doing, and what we were doing. He knew the job was getting done. The exact way we were getting it done was something that would not have been particularly relevant to him.

"Q. Is it fair to say that because of the Congressional restrictions that the NSC ended up with an operational role that was not normally the role of the NSC? Is that fair?

It was a matter of trying to demonstrate simply by the presence of a White House person, someone close enough to the President to achieve simply by dint of that proximity, credibility with the contra leaders and to make clear that you are going to have to make do money-wise on someone else. But the President, whose political influence is not insignificant, is going to make your cause a very high priority cause for himself, second or third on this foreign policy agenda.

"Colonel North testified that I gave him general authority to conduct covert operations involving widespread military and paramilitary activities based upon the position that the Boland Amendment did not apply to the NSC staff. He also stated that he kept me advised of all of his activities. Colonel North did report to me from time to time on a few, but certainly not all, of the activities that went beyond mere political support for the contras.

"The committee has seen those memoranda, all six of them. One, for example, involved his request for permission to ask a private U.S. donor to provide a helicopter to the contras. I specifically disapproved this proposal and noted

"Mr. POINDEXTER. Not in writing or in what I think you are referring to as in an official way, but I think his opinion was that the Boland Amendment didn't apply. Don't forget, Senator, my feeling about this was reinforced by the Intelligence Oversight Board.

"Mr. RUDMAN. But I must point out, and I won't go to the page of the deposition, but I will characterize it, you testified that without going over it word for word, that you knew there was an opinion, you knew the existence of it, but you hadn't read it yourself?

"Mr. POINDEXTER. No, that is correct. [sic] But I knew the results of it. If I had read it, I am not sure it would have added anything.

"Mr. RUDMAN. Here you have this highly contentious piece of legislation, fought over for a long time in the Congress, high emotion. Means a lot to the President, opposed vigorously by very powerful Members of the House and the Senate who believed that it covered the NSC if it was involved in intelligence activity.

"I want to understand how you can make a statement that you made here today, 'We were on strong legal grounds on Boland.' You are not going to tell the committee--you don't think that Mr. Sciaroni's opinion or Commander Thompson's oral opinion would be what you would call strong legal grounds, are you?

"It was from the Intelligence Oversight Board, a group of three very eminent people with legal training and understanding, and I thought that that was a valuable piece of information to use.

"It happened--I mean, I had concluded personally some time before that that I didn't think it applied--you know, the Boland Amendment, in my view, was an anti-appropriation law that affected how the U.S. Government could spend appropriated funds.

"Mr. RUDMAN. Well--

"Mr. POINDEXTER. And the policy to support the contras was very clear, and if we could find another way to do it outside of appropriated funds, I didn't see any problem with it. McFARLANE ACCOUNT:

"Mr. LIMAN. Now, in your statement, . . . referring to the fact that congressional policy on Iran, on the contras had changed, as can be seen from these charts, and that the Administration's policy remained constant, you wrote, 'People simply cannot carry out policy under the conditions I have described. If you try to make them do so, you will produce conflicting allegiances, lack of communication and blurring of essential lines of authority and responsibility.' [McFarlane Testim., JHICI, 5/11/87, at 17.]

"Were you referring to this conflict between the policy on the contras set in their appropriations and authorization bills and the policy of the Administration?

"Mr. McFARLANE. Well, I was referring to ambiguities, both within the Executive Branch, and between the Congress, and the Executive Branch, and in the formal area, whenever the nominal direction is under the hand of one agency, which by Presidential order it was, and that was the State Department, and, two participating agencies, Defense and CIA, are foreclosed in law from participating in the interviews, and the State Department is basically indifferent about it--although I would have to say, Mr. Abrams was not indifferent about it--then you have people that by default receive a responsibility, the NSC staff, but they don't have the authority that needs to go with any mission that is assigned.

"Separately, the matter of evolution in the legal framework is an extremely difficult [sic] to

manage in any fashion that preserves credibility vis-a-vis not only in this case Nicaragua[] and our friends in Central America, but more and more any ally anywhere.

"I think since the time of the War Powers Resolution is the extent to which a country can count upon the ability of the United States to fulfill its commitments is diminished. [Sic.] And when the Congress goes from, in this case, full funding to restricted funding, to no funding, to quadrupling the funding, in the space of five years, it is extremely unsettling to friends and allies, because it implies that the Executive Branch does not have the ability to fulfill commitments that it makes.

"Mr. LIMAN. All right.

"When you said that it, referring to people, that it will produce conflicting allegiances, what were the different allegiances that you saw in conflict?

"Mr. MCFARLANE. Well, I think any member of the RIG, for example, who was subordinate to the Chairman of the RIG, the Assistant Secretary of State, recognizing that the State Department was disinclined to promote the policy, and the other two agencies were unable to by law, that the people either looked to the NSC, whose representative happened to be subordinate to all of them, and his ability to coordinate with them as a very junior officer and to whom they should be accountable, is blurred. NORTH ACCOUNT:

"Mr. NIELDS. Is it correct to say that following the enactment of the Boland Amendment our support for the war in Nicaragua did not end and that you were the person in the United States Government who managed it?

"Mr. NORTH. Starting in the spring of 1984, well before the Boland Amendment proscription of no appropriated funds made available to the DOD or CIA, et cetera, I was already engaged in supporting the Nicaraguan resistance and the democratic outcome in Nicaragua.

"I did so as a part of a covert operation that was carried out starting as early as the spring of '84 when we ran out of money, where people started to look in Nicaragua and Honduras and Guatemala and El Salvador and Costa Rica for some sign of what the Americans were really going to do, and that that help began much earlier than the most rigorous of the Boland proscriptions and, yes, it was carried out covertly and it was carried out in such a way as to ensure that the heads of state and the political leadership in Nicaragua, in Central America, recognized the United States was going to meet the commitments of the President's foreign policy, and the President's foreign policy was that we are going to achieve a democratic

outcome in Nicaragua and that our support for the Nicaraguan Freedom Fighters was going to continue, and that I was given the job of holding them together in body and in soul, and it slowly transitioned into a more difficult task as time went on and as the CIA had to withdraw further and further from that support, until finally we got to the point in October when I was the only person left talking to them.

"Mr. NIELDS. You are talking about now October of 1984?

"Mr. NORTH. Yes, sir.

"Mr. NIELDS. That was my question. Following October of 1984, was the U.S. Government support for the war in Nicaragua managed by you?

"That was the only question.

"Mr. NORTH. The U.S. contact with the Nicaraguan resistance was me, and I turned to others to help carry out that activity.

"Mr. NIELDS. Did you manage it?

"Mr. NORTH. I tried. In terms of coalescing the activities that went on, yes.

"Mr. NIELDS. Now, you said you were given the job. Who gave it to you?

"Mr. NORTH. I guess it fell to me by default. Mr. McFarlane was the one who originally tasked me to go make contact with the resistance, assure them of our unflagging support. I made a trip in the spring of 1984 to that effect and basically it just persisted thereafter.

"Mr. NIELDS. Maybe it would be most useful to get into specifics of the areas of your support.

endeavor to raise money from sources other than the U.S. Treasury.

"Mr. NORTH. That's correct. Boland proscriptions did not allow us to do so and so we sought a means of complying with those Boland proscriptions by going elsewhere for those monies.

"Mr. NIELDS. And you went to foreign countries?

"Mr. NORTH. I did not physically go to those foreign countries.

"Mr. NIELDS. Representatives of --

"Mr. NORTH. Representatives of foreign countries and I had discussions about those matters, yes.

" . . .

"Mr. NIELDS. And you asked them for money for the contras?

"Mr. NORTH. Well, I want to be a little bit more specific about that. I don't recall going hat in hand to anybody asking for money.

"I do recall sitting and talking about how grateful this country would be if the issue that they had discussed with others were indeed brought to fruition.

"For example, a representative of Country Three and I met and we talked about an issue that had been raised with him beforehand by others outside of the Government. And I told him I thought that was a dandy idea and I told him where he could send the money and he did so." (North Testim., JHICI, 7/7/87, at 193-97.)

"Mr. NORTH. Congressman Boland, I will take issue again with the word 'direct.' I certainly solicited from them help. If I didn't solicit money, I sought help, and I did seek a lot of that, and they provided it.

"My understanding of the Boland proscription was that funds could not be expended for those purposes, and I don't know that any of those people engaged ever expended a nickel on behalf of the programs that I sought their help for." (North Testim., JHICI, 7/14/87, at 132-33.)

Looking back, would you say that it would have been better when you were in the position of National Security Adviser if you, when you faced these questions, when some of the red lights went off, when you saw North doing some of these things, when you say the Boland amendment and you saw different interpretations of it, and you saw three different versions of the Boland amendment, when you saw Congress giving aid or not giving aid, would it have not been better to call in legal counsel and say, look, give us a legal opinion exactly what can we do in this area, exactly what should we do, and then once you got that opinion, maybe gone out and sat down with your staff and said, this is what we can do, and what we can't do.

"Again, it is hindsight, but one of the recommendations of the Tower Commission was that they upgrade the National Security Adviser legal staff and legal adviser. Would you agree with that recommendation?

"Mr. MCFARLANE. I do, Mr. DeWine. I think you point out one of a dozen places where I went wrong. I guess I do feel, though, that there is

even a better testimony to my error in the fact that, as I guess I said in the opening statement, I felt that this was a very important issue, that is showing the Russians that we can deal with this phenomenon, but we didn't choose the right instrument to do it.

"Succinctly put, where I went wrong was not having the guts to stand up and tell the President that. To tell you the truth, probably the reason I didn't is because if I had done that, Bill Casey, Jean[el] Kirkpatrick and Cap Weinberger would have said I was some kind[] of a commie.

"My solution should have been that we are going to make clear that we are prepared to keep Soviet support for a totalitarian regime in this hemisphere out.

"It has been ironic under this Administration, where the President is a man of courage, decisiveness and action, that when you try to get the Defense Department to do something, they give a lot of reasons why they can't do it. A lot were good reasons, some weren't, but it was my mistake, really."

"Second, I did not view, nor did my superiors view that the National Security Council staff was covered by Boland.

"There were people who were concerned about that, and we sought and obtained legal advice to the effect that it was not; not the least of those was Director Casey.

"Mr. VAN CLEVE. Did you ever get any kind of written legal opinion from Director Casey on that point?

"Mr. NORTH. I don't recall. We may have. If I did, it would have been left in my files, I suppose.

"A. It is conceivable. It doesn't jump right out at me.

"Q. Well, let me see what you do recall, and for a time frame let me just state certain facts, that in October of 1984 the full prohibition of Boland was adopted, first in the continuing resolution on the appropriations, then in the Intelligence Authorization Act. In August of 1985 an amendment was adopted which permitted exchanges of intelligence, and then in December of 1985 the provision came in that permitted the solicitation of third country funding and also during that period you had the adoption of the \$27 million humanitarian aid provisions.

authorized third country solicitation for humanitarian aid by the State Department. Did you participate in the discussions of legislative strategy that led to seeking from Congress permission for the solicitation of humanitarian aid?

"A. I conceivably could have participated in conversations, although that was not my major area of responsibility during that time period. As I think I've testified before, Mr. McFarlane, with his experience on the Hill and also because he was the National Security Advisor, took the responsibility in our front office for legislative action and relations with the Congress.

"And one of the other deputies, Mr. Fortier -- see I was the principal deputy at the time, and there were some other deputies. Mr. Fortier, who had been on the House Foreign Affairs Committee staff, did most of the staff work for Mr.

McFarlane on legislative strategy, so I was probably in rooms during discussions of the issues but I really didn't contribute very much and didn't really get involved in the action." (Poindexter, Senate Dep., 6/17/87, at 246-47.)

point. Very frankly, we were willing to take some risks in order to keep the contras alive, as I said, until we could eventually win the legislative battle.

"So, for all intents and purposes, Colonel North largely took over the -- much of the activity that CIA had been doing prior to their being prohibited from carrying activity [sic] because of the Boland Amendment.

"When I say 'carrying out all activity,' obviously, one person can't do everything that [redacted] CIA people were doing.

"One other point here; I think this is important. I don't mean to be pejorative or critical of Colonel North, because I have the highest regard for him. But Colonel North did have a tendency to be a little bit expansive in describing things. As you read through the PROF's notes, he uses the word 'our' and 'we.' I am not trying to distance myself from that, but I think you are going to need to be very careful, if I can offer advice, in analyzing exactly what he did or what somebody else was doing and he was reporting it as we and our. At least, that's the filter that I used as I read Colonel North's reports." (Poindexter, Senate Dep., 5/2/87, at 51-52.)

CASTILLO ACCOUNT:

Castillo testified that the CIA rejected certain activities, though permitted under Boland, because of the political fallout. He illustrated his assertion:

"At one point, we had a bad problem with . . . Mountain Leprosy in the Southern Front. This is a terribly debilitating disease, and I had asked our Office of Medical Services for assistance in locating a serum. It is only fabricated in France and Brazil, and it couldn't be found, so I called Colonel North and I asked him if through his contacts he might not be able to get some of this serum. It is very expensive, and it is only manufactured in limited quantities.

"In any case, he was able to get and somehow transport to [redacted] I think it was[] 1500 ampules or doses. The agency disapproved the transport of this serum . . . "[C/CATF.] It was my understanding that intelligence could not be passed to the contras, period. There was one point that was a matter of discussion in the law and that was whether or not we could pass defense intelligence to the resistance forces. We met with the intelligence committees, particularly the House Intelligence Committee, debated that issue and finally came down to the fact that it probably was not something that was politically wise to do but under extenuating circumstances we probably could.

"Mr. Carome. Was it permissible for you to pass intelligence information to Colonel North and for him to then pass information on to the contras?

"[C/CATF.] No, I would not think so.

When I was told that it was to be used in the context of his White House job, I think it is important to say here that he was the central figure for the Administration on Central American policy during the period in question, and there were unique circumstances that created that circumstance. CIA ACTIVITY UNDER THE BOLAND AMENDMENTS
GEORGE ACCOUNT:

"Mr. George. Beginning the first of October, 1984, we accepted the absolute total and complete cut off of any support whatsoever to the contras, and I believe there are a series of cables from my office, from the Latin American office, from the Central American Task Force. 'All future contact with those entities are [sic] until further notice to be solely -- repeat solely -- for the purpose of collecting positive and or counter-intelligence information of interest to the United States Government.'

"Mr. Boland. Thank you. That is a rather positive direction. Let me ask you: this committee has received evidence indicating that [redacted] was a[n] integral part of the operation to supply contra units in the field with weapons and ammunition, in the so-called Second Supply Operation. When did you first become aware of [redacted] activities and from what source?

"Mr. George. There was great concern as the amendment was modified over the years as to what we were allowed to do and I think we were very cautious and very careful to read --

"Mr. Boland. Was there really any great concern in that period, from October 1984 to October of 1986 with respect to the kind of activities [redacted] was engaged in in [redacted]?

"Mr. Boland. Well, when did you first become aware of [redacted] activities and from what source?

"Mr. George. I first became aware of the fact that [redacted] had a radio and was transmitting independent information to Oliver North in late October 1986. I became aware in the summer that [redacted] had possible -- had one or two direct contacts by telephone with the private benefactors in [redacted].

"Mr. Boland. How did you learn this information?

"Mr. George. I learned the information about his contacts with the people in [redacted] from [redacted] who had just returned from a trip to Central America where he had found out either directly from [redacted] or from [redacted] associates.

"Mr. Boland. I take it [redacted] informed you?

November of 1984, Lieutenant Colonel North tasked General Paul Gorman, who was the Commander of the Southern Command at the time, with furnishing information of the location and status of Sandinista Hind helicopters to Colonel North for his passage to the contras.

"To your knowledge, did General Gorman make his superiors in DOD aware of this request?

"Secretary WEINBERGER. I didn't know [o]f it and Mr. North has no authority whatever to task anyone.

"Mr. BOLAND. The evidence was presented to this committee--Exhibit 31 in the testimony of Mr. McFarlane when he was here.

"Let me ask, given the disparity of their rank, between general and lieutenant colonel, would you attribute General Gorman's compliance with North's request to that 'White House mystique' that you mentioned last Friday?

"Secretary WEINBERGER. Well, if there was, indeed, compliance with it, yes. There are a number of people who feel that when the White House calls, that everything has to be done, but in accordance with that call. But I found this very shortly after I came to the Department and right after that time, I issued very strict instructions--which, to the best of my knowledge, have been followed--that any calls or requests for tasking of the military had to be referred to my office, to the Deputy Secretary, if I was away, and that they would be acted on only when we were--confirmed that this was indeed something that was desired by officials and not just by some

NORTH'S CONTRA ACTIVITIES: LOCATING HINDS
C/CATF ACCOUNT, Part 1:

"Mr. Carome, Robert Owen has testified to
this committee that in mid-November '84 North gave
him intelligence including maps to take to contra
leaders for use in a possible operation to take
out Hind helicopters. [See 84/11/15-000.] Owen
said that North told him that these maps had come
from across the river and that that meant either
the Pentagon or the CIA.

"My question is were you aware at the time
that Oliver North was seeking to obtain
intelligence relating to the Hind helicopters and
seeking to pass that intelligence to the contra
leadership?

"[C/CATF.] Let me take the question in two
parts. During the time that the Hind helicopters
were delivered to Central America and Nicaragua, I
was very much aware that not only North but
everybody in the United States government and
Congress and the press was trying to seek
information on exactly what was delivered. There
was first a thought that they were MIG-21s which
called into place serious political questions and
questions as to whether or not they were in fact
Hind-21s. There was an intense exchange that took
place within the Administration, particularly with
the White House and particularly with North, about

| | | | |

whether or not they were Hind-21s. There were also discussions about what options were to exercise contingency plans or to exercise markers which had been laid down by the Administration. [Sic.]

"So in that context, yes, I was very much aware that Oliver North, others at the highest levels of the government were deeply and intensely interested in following this matter and were seeking intelligence from multiple sources.

"The second question: Was I aware that Oliver North was seeking intelligence on that issue to pass to the Nicaraguan resistance. There were meetings that I attended in the Department of State under the chairmanship of Ambassador Motley where the whole issue of how to deal with the MIG-21s was discussed. One particular issue discussed was whether or not CIA could exercise a particular contingency plan which had been laid out prior to the Boland Amendment. I said we could not and repeated the law. I was aware that Oliver North was interested in exercising sort of an option like that or looking at options. I cannot recall a specific awareness that he was looking for intelligence to take out the Hind-24s and was seeking for intelligence to pass to the contras on that subject.

"It is possible that two or three years ago I was aware of it but I don't recall specific knowledge of that."

NORTH'S CONTRA ACTIVITIES: LOCATING HINDS
C/CATF ACCOUNT, Part 2:

[Continuing from preceding entry:]

"Mr. Carome. Would you please turn to [C/CATF] Exhibit 1. Exhibit 1 is a memorandum dated November 7, 1984 from Oliver North to Robert McFarlane. It indicates that North was trying to get intelligence information to Calero to take out the Hinds. In the middle of page 1 it states that Mr. North had on the evening of November 5th called Bob Vickers, NIO for Latin America, and General Paul Gorman and asked them for all we had on the location of the Hinds. Were you familiar that such a request had been made on November 5th?"

"[C/CATF.] I could have been. I don't recall specifically.

"Mr. Carome. Turn to the middle of page 2 -- at the beginning of the last paragraph it states, the meeting with Calero was terminated by 5 p.m. and then after the CPPG [Crisis Pre-Planning Group] meeting I again called [redacted] and asked for any further updates on the Hinds and on new information on the MIGs.

"Does that refresh your recollection that Colonel North was speaking directly to you and asking you for intelligence information on taking out the Hinds at that time?

"[C/CATF.] As I told you, it does not bring back specific memories but I know that we talked about the MIGs until about a year ago or the deliveries. [Redacted.] It was an intense discussion and in his capacity as the focal point

for the NSC and the White House on this subject, I talked to Ollie a lot about those things. I don't remember the details of those discussions in passing information to him, but I undoubtedly did do that.

"Mr. Carome. When you did that did you do anything to make sure that that information was not being passed on to the contra leadership?

"[C/CATF.] I didn't pass it to the contra leadership. At that time I had been in my job for 6 weeks or thereabouts and had no reason I don't [sic] think to believe that Oliver North would have been doing that at that point in time, and frankly wouldn't have probably said Ollie, don't you pass this to the contras, because I am not sure I had developed much of an understanding.

"Mr. Carome. But you knew that would have been illegal if that had occurred?

"[C/CATF.] I would have known that I couldn't have passed the intelligence to the contras, and as you will hear throughout this testimony, I couldn't do with Ollie something that I couldn't have done myself directly and that was my guiding light in dealing with Ollie for the next 2.5 years.

"As I would talk to him racing through my mind would be could I do this myself. So the answer is I would have known I couldn't have done that, and it would not have been proper for me. Whether or not it was legal for Ollie to do it, at that point in time I don't think the thought crossed my mind. It does, as you'll hear my testimony, at a later date."

C/CATF ACCOUNT:

"Mr. McClure. . . I want to return for a moment to a very early exhibit. If you will return to your book, [C/CATF] No. 1 that is a November 7, 1984, memorandum from Oliver North to Robert C. McFarlane.

"The second page of that memorandum, near the bottom of the page, it says, 'I asked [redacted] if he was aware of the source of the resistance funding. He told me, no, that CIA had been trying to determine this,' et cetera.

"You see that statement?

". . . .

"[C/CATF.] Yes, I see it. I was on page 3.

"Mr. McClure. Do you recognize that this is not your memorandum, it is that of Mr. North? Do you recall Colonel North asking you if you were aware of the source of the resistance funding?

"[C/CATF.] No, but I believe this is a good point in time for me to put something on the record that is not on the record. The reason it is not on the record is frankly, the first three times I testified to the Senate, to the Tower Commission, and after that, to -- I don't remember, a couple of other times, I forgot it. Then I remembered it and I just didn't put it on the record. I'm going to do it today.

don't remember the time, I would have put it later than this, there were a series of events, and I don't recall them -- I was trying to figure out what was happening, and I began to wonder whether or not Oliver North were not involved in something. I took it to my supervisor, my supervisor took it to Clair George, he took it to Director Casey, Director Casey convened a meeting between Clair George, the division chief and myself and Oliver North, and confronted him. He said, 'Ollie, are you operating in Central America?' And Ollie said, 'No, I'm not operating in Central America.'

"I was obliged to kind of lay out my concerns. Ollie backed out of the meeting. It was about 10 minutes. It was a terribly sort of awkward meeting. We left that meeting. Ollie went his way, I went back and Clair George and I sort of talked about it a minute and that is where I, along with Clair, decided that we were going to stay within the bounds of the law, how we would handle the problem if it was a problem, and it might have been this time or precipitated this memo. That was the first time that I really began to understand this.

"That has never been put on the record anywhere before today that I know of. I forgot the thing and didn't put it on the record in my deposition because it didn't come out and it didn't fit into the conversation at that time, but it does now. I want it on the record. I think it begins to set some of the backdrop as I develop the nutcracker that I was in.

"Mr. McClure. The second part of that sentence after he told me no, it says that 'CIA had been trying to determine this.' Do you know of any other efforts other than the one you referred to?

"[C/CATF.] We were trying to figure out what was happening. We were trying to find out [redacted] what was going on. We were doing calculations. We were then fully collecting intelligence because one of the key intelligence questions confronting the Central American task force was, can the resistance survive and how long. keep what your plans and operations were relating to the contra[s] secret from people in the NSC and in the White House?

"Mr. POINDEXTER. Yes, I did.

"Mr. POINDEXTER. Yes, that is correct.

There is a section on Central America, and it says there, as one of your recommendations, 'continue active negotiations, but agree on no treaty and agree to work out some way to support the contras either directly or indirectly, withhold true objectives from staffs.'

"Now, why was it that you wanted to withhold what your true objectives were from your staffs?

"Mr. POINDEXTER. Well, it is a little hard for me now--it is almost three years hence--to recall exactly what I had in mind, but just based on my general feelings on the subject, what I probably meant was that we had to make an effort to get a treaty. But my personal view, and that is what these are, my personal views to Mr. McFarlane, was that a treaty was very dangerous because I did not personally believe that even if the Sandinistas agreed to a treaty that they would ever live up to it.

"Mr. LIMAN. But the official policy being told to the Congress and the American people was that we were trying to get a treaty, correct?

"Mr. LIMAN. But your personal view was that a treaty wouldn't be effective, correct?

"Mr. POINDEXTER. That is correct.

"Mr. LIMAN. And, therefore, . . . your personal recommendations to Mr. McFarlane [were] that you should continue the active negotiations, but agree on no treaty and agree to work out some way to support the contras but not tell the staff?

"Mr. BECKLER. . . . A clearer reading of it is there were lots of thoughts on lots of different ideas at a point in time where there seemed to be a little time to have some sort of change between two individuals.

"I think that would be a fairer characterization; right, Mr. Liman?

"Mr. LIMAN. I accept your characterization.

"It was ideas you were expressing to your colleague?

"Mr. POINDEXTER. That is right. Musings I would call them.

SINGLAUB'S CONTRA ACTIVITIES: SOLICITATION OF
COUNTRY 3

NORTH ACCOUNT:

North testified with regard, generally, to Singlaub's meeting with Country 3 officials:

"I get the sense that somehow or other, we have tried to create the impression that Oliver North picked up his hat and wandered around Washington and foreign capitals begging for money. I didn't do that. I didn't have to do it."

"Others were more willing to put up the money than the Congress, because they saw well what was happening to us in Central America and the devastating consequences of a contra wipeout and an American walkaway and write-off to what was going to happen to this country and to democracy elsewhere in the world.

"I didn't have to wander around and beg.

There were other countries in the world and other people in this country who were more willing to help the Nicaraguan resistance survive and cause democracy to prosper in Central America than this body here, and that is an important factor in all of what you do, counsel, and in what this committee is going to do. It has got to be part of your assessment as to why is it that other countries in the world were willing to step up and help in a desperate cause when we were not willing to do so ourselves?

"That has got to be something that is debated not just by pulling people before this group and hammering at them and haranguing them and reducing it to pettiness. It has got to be something that the American people come to understand how desperately important it was, not just to us, not just to Ollie North, and not just to President Ronald Reagan. It was important to these other people who put forth that money, and I didn't beg them. They offered.

"And that is important, sir."

Walker had been approached several months ago, prior to initiating the current financial arrangement for the FDN. delivery of arms from one unnamed country?

"Mr. MCFARLANE. Yes, I do.

"Mr. LIMAN. And do you recall that Colonel North told you that the problem was that the exporting country thought that the arms were going to the country that had provided the end user certificates and didn't realize that the arms were going to the contras?

"Mr. MCFARLANE. Yes.

"Mr. LIMAN. And that Colonel North had straightened them out and told them that the arms were going to the contras, correct?

"Mr. MCFARLANE. That is correct.

"Mr. LIMAN. And he urged them therefore to complete the delivery.

"Mr. MCFARLANE. Yes.

"Mr. LIMAN. And he indeed even told the representative of this country that if he did so, they might get recognition from the contras if the contras became a state?

"Mr. MCFARLANE. Yes.

"Mr. LIMAN. Now, did you consider--this was on December 4, 1984, after the Boland amendment was adopted--did you consider this kind of activity by Colonel North in assisting the contras to get weapons that they had paid for or contracted for to be consistent with the Boland amendment?

"Mr. MCFARLANE. Well, at the time, if I got this, I expect that I received this memorandum out in California in December. It was the President's habit to go to the West Coast, and it was something after the date on the paper here.

"Mr. MCFARLANE. Well, yes. The discussion of
what they were doing, what he was doing, and so
forth, my guidance to other staff members were
[sic] fairly frequent at this time. And I think
perhaps we will get to it in other memoranda, that
the awareness that was I was very concerned about
staying within the lines as reflected in the fact
that Colonel North's memo add a kind of preemptive
explanation of why, what he was doing was within

"Mr. MCFARLANE. Yes, he did.

"Mr. LIMAN. And is it fair to say he was also a person who was difficult to control when he was in pursuit of an objective?

"Mr. MCFARLANE. Well, I think Colonel North always responded to firm guidance when it was given.

"Mr. LIMAN. Was he a person who ran with the ball?

"Mr. MCFARLANE. Yes, he was. He was a very solid, determined, energetic, devoted officer.

"Mr. LIMAN. Is there question, Mr. McFarlane, as to whether in giving him this task you gave it to a person who would run with the ball very, very far?

"Mr. MCFARLANE. Well, I thought surely that Ollie was probably the mission-oriented, can-do professional on the staff, and I believe that the interpretation of guidance I had given to him would probably be certainly carried out but that probably he would on occasion go beyond, and I could foresee that.

"I think any professional as competent as Colonel North, when he went down to make a visit to the contras and was in the locale of their camps or something, and would observe how they were getting on in organizing themselves, and undoubtedly from time to time say, well, your truck part is vulnerable or you are not very well camouflaged, or this or that, the kind of thing

"One of the things that kind of bothers me is that this wasn't all done as some terrible, nefarious thing; it was done as part of a covert operation.

were requesting a contribution of surface-to-air missiles or were you seeking to facilitate the transportation of surface-to-air missiles that had been purchased by somebody else?

"Mr. NORTH. I was actually seeking to facilitate the transportation, but I was hoping I could turn it enough [so that] they would like to make the contribution. I will admit that.

"Mr. NIELDS. So you discussed the possibility of a contribution with representatives of Country Four?

"Mr. NORTH. Well, when I say contribution, I'm speaking specifically of surface-to-air missiles, which at that point in time the resistance was being devastated by the Soviet-supplied, Cuban-flown Hind helicopters, and we were looking desperately for surface-to-air missiles that could be provided to the democratic resistance, and that country makes the kind that is useful for that purpose.

"Would you repeat the question, counsel?

"Mr. NIELDS. Yes. Did you ask representatives of Country Four at that time to contribute SA-7s?

"Mr. NORTH. I don't believe I actually, baldly asked them to contribute. I had a--if I can just back up on that whole thing just for a second.

"That particular place was a good source for these weapons. We were concerned, I was concerned, I went to Admiral Poindexter and told him my concerns about the meeting. We knew that that was a good source for those weapons. I was

concerned about the meeting because I did not want anyone in our intelligence services or others to misunderstand the purpose of the meeting, and so what I did is, I asked Admiral Poindexter, and I believe Mr. McFarlane, too, to please make sure that the Attorney General and the Director of the FBI was [sic] aware that the meeting was going to take place, and I believe that they did so, for obvious reasons, and I think that's without saying more.

"Mr. NIELDS. My question is a very simple one. Did you ask for Country Four to make a contribution of--

"Mr. NORTH. Not in so many words. We had a long philosophical discussion over lunch about Soviet hegemony, the kinds of things I thought would be attractive and of concern to him. He shared my concerns. I made him aware there was a purchase under way, these things were desperately needed, and he then facilitated that. He didn't make a contribution.

"Mr. NIELDS. He never made a contribution?

"Mr. NORTH. Not that I'm aware of.

"Mr. NIELDS. Did you have any other meetings with representatives of Country Four in which you sought a contribution?

"A. That's correct.

"Q. You weren't referring to anyone asking [redacted] to give its money to the contras, were you?

"A. I don't honestly know what General Singlaub said to [redacted] I was never under the impression that they were willing to provide funds. I recognize there was a possibility of their selling arms.

"Q. While we are on that subject, then, let me just go over country by country what you understood their contribution, if anything, was to the contras during this period when you were wrestling with Boland.

"Israel?

"A. Israel was considered several times and from the beginning, when Mr. McFarlane was still there, but we were frankly a little reluctant. It was the same sort of reasoning that the Vice President was concerned in that we frankly didn't need any more leverage from the Israelis on us. So --

"Q. Do you know whether you ever sent Teicher there to hit them up?

"A. I don't think I am aware of that. Mr. McFarlane may have. He was -- he also was, Mr. McFarlane, you know, was initially very concerned about leaks and that's -- he handled [redacted] thing, although he did tell me about that at some point afterwards.

"A. Well, the 25 million -- my best recollection was being delivered over a period of time. It wasn't just one lump sum.

RODRIGUEZ ACCOUNT:

Felix Rodriguez first meets Oliver North at the suggestion of Rodriguez' friend, Bill Boley, an Under Secretary of State for Science and Technology. "A. NO.

"Q. You introduced him to various people in pursuit of his interest in helping out in El Salvador?

"A. That's right.

"Q. And one of those was General Gorman?

"A. NO. I didn't know General Gorman well.

I think it was through the introductions that I made to him, which were Tony Motley, Nestor Sanchez, and others, that he got to Gorman. But Felix subsequently told me that he met with Gorman. Gorman was very impressed with him, and I arranged to have him flown down to El Salvador to talk directly with people there.

"Q. Did General Gorman tell you that Felix had said his primary interest was in helping the FDN?

"Mr. Clarridge. Yes. I think this probably refers -- he had a couple of discussions with me about whether they could get any -- and I think it goes back to this -- these companies, the Saladin [see 85/12/02-100] or whatever that is. I'm not specifically familiar with it. He was interested in what they could do in the way of helping train the Democratic Resistance.

"And as I said before, he talked to me about their reliability and all of that. He did the same thing in connection with some boats that he was interested in and whether they should use those for some particular operations. I think that was Americans involved in that particular case, and I urged him not to have Americans be involved down in Central America doing that kind of thing.

"Mr. Stokes. Let me ask you this specific question. Colonel North and Admiral Poindexter have testified that David Walker was an official of both KMS and Saladin and arranged certain sabotage operations in Nicaragua funded by either Mr. Calero or by General Secord.

"And that authority for these operations was required by Colonel North and given by Admiral Poindexter. So now my question to you is, were you involved in any way with this type of action?

"Mr. Clarridge. No, I was not." (Clarridge Testim., JHICI, 8/4/87, at 113-14. See above at 85/12/02-100 [Clarridge testimony on David Walker].)

In about March 1985, and about three more times during 1986, Gadd arranges for charters of ammunition ("7.62 explosives, 40 millimeter shells, and weapons") manufactured in eastern Europe, with loads of about 85-95,000 lbs. per charter.

One charter is supplied by Transamerica Arms ("or something related to that name, from Canada.")

Southern Air pays Gadd a commission. Gadd passes along price and bank transfer information to Secord. (Gadd, House Dep., 5/1/87, at 8-12.)

McFARLANE-CALERO MEETING: BUILDING UP THE CONTRAS
McFARLANE ACCOUNT:

McFarlane meets with Adolfo Calero and tells him the Contras must (1) "produce a political leadership promoting a program with authentic appeal to the general population," and (2) "demonstrate] sufficient competence on the battlefield to create a sense of threat within the Sandinista Government." McFarlane expresses his "uncertainty] that the contras would ever acquire these capabilities."

McFarlane testified, "If they could not show these two critical qualities, I thought we owed it to them and to ourselves to cut both our losses and theirs and thereby changing our strategy to a more overt combination of U.S. force and U.S. diplomacy." (McFarlane Testim., JHICI, 5/11/87, at 12.)

SINGLAUB'S CONTRA ACTIVITIES: SOLICITATION OF
COUNTRY 3

SINGLAUB ACCOUNT:

Singlaub travels to Country 3 to solicit aid for the Contras. He meets with "ministers at the ministerial level equivalent to our Secretaries of the Departments of the Executive Branch." Singlaub "emphasize[s] . . . that I [sc. Singlaub] was not a member of the U.S. Government. They knew this."

He proposes three alternatives for Country 3 to contribute to the Contras:

(1) ". . . I could give them a foreign bank account into which they could deposit money." But Singlaub would be unable thereafter to tell them how the money was spent.

(2) Singlaub would "meet with their representative[s] at any country in the free world and receive from them an instrument which I could then deposit in an overseas account." Singlaub could thereafter give "a detailed accounting of how the money was spent."

(3) Singlaub offers, alternatively, to approach a private vendor through whom Country 3 is, at that time, "buying large quantities of expensive material from the United States." Singlaub proposes that he strike "an agreement where the commission could be shared" with the Contras.

Singlaub also says that "we [antecedent unspecified] would be prepared to receive from them military supplies in kind if they preferred

To clarify Singlaub's relationship with the U.S. Government, he tells the officials that he "believed it would be possible for me to have someone in the Administration send a signal to them . . . [to] indicate that I was not operating entirely on my own, without the knowledge of the Administration."

The Country 3 officials "expressed interest [and] indicated that they would like to small incentive [sic] by somebody in the Administration." (Singlaub Testim., JHICI, 5/20/87, at 193-98. See id., 5/21/87, at 163-65 [Singlaub testifies he did not think of the signal in advance, but after he went abroad he perceived that country's officials "would want to have some assurance that I was not an unguided missile ricocheting around to that part of the world." year, I guess, after the Boland Amendment passed, and as I recall Colonel North had convinced Mr.

McFarlane that he ought to make a trip down through Central America, and this was the background paper which was no doubt included in a notebook with probably other tabs.

"And the chances are, because it was not really an action document, it probably, the notebook probably went directly in to Mr. McFarlane. I probably got a copy and I may or may not have read it. I don't recall reading it.

"BY MR. LIMAN: (Resuming)

"Q. Well, if you look at page three --

"A. Numbered three?

"Q. The page numbered three, at the top Colonel North wrote: [Redacted.] 'The resistance' refers to the contras; you are aware of that, correct?

"A. Right. Correct.

"Q. [Redacted.] And then he refers to six basic options. [Redacted,] which he puts a [sic] parentheses[i]s, Tab F, and the first one says [redacted.]

"Do you see that?

"A. Yes.

"Q. If the understanding at the NSC was that Boland didn't prohibit obtaining third country support, do you know why Oliver North was discussing with McFarlane obtaining new legislation to authorize as such third country support?

"A. I don't know what Colonel North was thinking about when he wrote that.

"Q. And he also, as you go down, the fourth option is [redacted.] Do you remember any discussions about the fact that the NSC should not be soliciting funds for the contras?

"A. Mr. McFarlane was very sensitive about the issue. The sensitivity, as I understood it, was that he felt the same way I did, that the more people that knew about something the more likely it was to leak out, and especially in the case of [redacted.]

"So Mr. McFarlane's sensitivity, as I understood it, was about a wholesale effort to identify third countries to provide contributions unless it was a procedure that was agreed to by all concerned.

"Q. Who is 'all concerned'?

"A. I think including the Congress. I think, you know, he recognized that Congress wouldn't like it, the opponents of the program in Congress wouldn't like it.

"Q. Well, Admiral, did you listen to McFarlane's testimony?

"A. I did.

"Q. Do you recall McFarlane testifying that he stated on more than one occasion at staff meetings of the NSC that the NSC should not solicit, coerce, encourage, or broker contributions for the contras? [See 84/10/03-200.]

COUNTRY 2: SECOND CONTRIBUTION TO THE CONTRAS
McFARLANE ACCOUNT:

Country 2 doubles its contribution to the
Contras:

McFarlane, in preparing for the visit of the head of state of Country 2, meets with his Country 2 counterpart who had initially informed McFarlane of the \$1 million per month contribution. The two discuss the Contras' situation "as we would translate it to . . . country 2's leader, that one of our problems would remain, as it had been before -- the situation in Central America and funding for the contras.

"Again, I don't wish to pretend or be disingenuous. There was [some (sic) or no] solicitation per se [see next entry at *], but I

think on the list of concerns of this administration going into this visit coming up, it was apparent that this was one of them."

After the President meets with the head of state, the President summarizes what has occurred "to the Secretary of State or to me or to both of us, and he did so. In that debriefing nothing came up on this subject, but within a day or so, I was advised by the resident official of country 2 that . . . they, country 2, had elected to carry on with the contributions they had made, but to be at about double the monthly level it had been in the previous year."

about the circumstances of the doubling of Country 2's contribution: "[I]t isn't really clear in my mind that I had a meeting at all that preceded the second donation. I am willing to accept that because I am told that I should be as supplicatory as I can. I doubt that it happened." (McFarlane Testim., JHICI, 5/12/87, at 9-10.)

Later in his testimony, when questioned further about his second meeting with the Country 2 official, McFarlane was asked whether he "briefed him on the Contra problem and again did not solicit money from him but stated that it was your [sc. McFarlane's] impression he appreciated that you were hoping for a contribution."

McFarlane responded, "I don't challenge that and I accept that and will let it lie. I don't believe I even did that, but I will take responsibility for it. . . . I do remember a number of meetings with him to arrange for the visit . . . and I do know that I learned after the visit that there was to be a doubling of the contribution. I think it is a distinction without a difference. I in fact was hopeful that it would happen and it did happen, and I learned that it happened, but I take your description as one I will accept." (McFarlane Testim., JHICI, 5/12/87, at 134-35; see id. at 137-38 [McFarlane accepts characterization that he "had not consciously determined before going into that meeting that" he would raise "the issue of the contras and [their funding] . . . in such a way as to imply that a gift would be appreciated."], and 139 ["At the time it did seem to be a clear case of a voluntary chipping in, of

McFARLANE ACCOUNT:

McFarlane again places a note card in the President's briefing book to inform him of the contribution, "and I [sc. McFarlane] recall getting his reaction as being . . . analogous to the earlier time, of gratitude and satisfaction, not of surprise." (McFarlane Testim., JHICI, 5/11/87, at 51-52.)

COUNTRY 2 CONTRIBUTION: WHO KNEW

McFARLANE ACCOUNT:

The Secretary of Defense and Chairman of the Joint Chiefs tell McFarlane they have heard Country 2 would contribute \$25 million. McFarlane -- "not of conscious choice" -- fails to tell the Secretary of State, however. The Secretary of State is not told of the increased contribution until June of 1986, after Adm. Poindexter asks McFarlane whether the Secretary knows. McFarlane does not tell DCI Casey. (McFarlane Testim. COUNTRY 2 CONTRIBUTION: PRESIDENT'S KNOWLEDGE
POINDEXTER DEPOSITION ACCOUNT, Part 1:

"Q. Now you attended, as his [sc.

McFarlane's] Deputy, staff meetings with the
President, briefings with the President?

"A. Yes, in general that's true.

"Q. Was there any discussion in your presence
with the President about whether third party
solicitations, third country solicitations were
appropriate during the period that you were
Deputy?

"A. I can't. I've tried to think about it
and recall. I can't recall a specific incident.

"Q. Did you ever hear the President discuss
the [redacted] contribution?

"A. I can't recall that, although I felt that
he was aware of it.

"Q. Well, when you said you felt he was aware
of it, why?

"A. Because I think, as I recall, Mr.

McFarlane told me that he had told the President.

"Q. But Mr. McFarlane never told the
President in your presence, correct, so far as you
recall?

"A. As far as I recall, I can't remember it.
So his explanation in his testimony that he
included it as a note in the 9:30 briefing folder
seems logical.

"Q. Is there any reason that you can think
of, having held the position of National Security
Advisor, why Mr. McFarlane would not tell the
President that [redacted] had contributed?

"A. I don't --

"(Counsel conferring with the witness.)

"MR. LIMAN: Mr. Beckler, we don't have to have speeches.

"Q. You've already indicated that there were some things that you didn't tell the President because you wanted to spare him potential embarrassment if it came out; correct?

"A. That's correct.

"Q. And you wanted to give him deniability; is that right?

"A. That's correct.

"Q. Now do you think that it would have been embarrassing to the President of the United States if it came out that he knew that [redacted] had contributed to the contras during the Boland period?

"A. I guess I would have to say that I don't think it would be particularly embarrassing. That was not my understanding of Mr. McFarlane's concerns.

"Q. Well, you understood that Mr. McFarlane didn't even want to discuss this in the presence

"A. Only from the standpoint that that indicated one more person in the compartment that knew that that we frankly didn't think had a need to know.

"Q. Did you think that General Vessey could keep a secret?

"A. Yes, unless he made a mistake. And, you know, as you have detected, I guess, I am pretty close-mouthed in public. And I just don't believe that people need to know things if it's not essential.

"Q. Did you think that the Secretary of State needed to know this?

North memo to McFarlane, dated Feb. 6, 1985, in which North asks permission to provide Calero with information on the Monimbo, a Nicaraguan merchant ship carrying weapons. The information would enable Calero to sink or seize the ship. McFarlane does not authorize any action to seize the ship:

"The Nicaraguan merchant ship, MONIMBO, is now in port at Taichung, Taiwan, where it is unloading cargo. It is estimated for departure on tomorrow, February 7, enroute to Shikama, Japan, for main engine repairs. [Redacted.]

"At this point, there appear to be three options:

"-- The shipment could be seized and the weapons delivered to the FDN;

"-- the ship could be sunk; or

"-- the shipment and the [redacted] parties involved therein could be made public as a means of preventing the delivery.

A handwritten note at the bottom of the memo, initiated by Poindexter (JP), reads: "We need to take action to make sure ship does not arrive in Nicaragua." THE MONIMBO

POINDEXTER ACCOUNT, Part 2:

"Mr. LIMAN. Now, did you ever ask the
Attorney General of the United States for his
opinion on whether the Boland Amendment applied to
the NSC?

"Mr. POINDEXTER. Now, wait a minute, Mr.
Liman. You said you were going to give me an
opportunity to make a statement on this note, and
I think you are passing that by at this point. I
would like to explain that note.

"I have answered your questions. I have
answered them truthfully. Now I would like to
provide an explanation as to what that note means.

"Mr. LIMAN. Please proceed.

"Mr. POINDEXTER. What that note means is
exactly what I have been saying all along, that we
were doing everything we could to make sure that
we complied with the letter and spirit of the
Boland Amendment. We did not want to--I did not
want to discuss these issues with anybody to which
the Boland Amendment applied. That was the State
Department, the CIA and the Defense Department.
The C(P)PG is a crisis, pre-planning group which I
chaired as the Deputy Assistant Secretary or
Secretary to the President for National Security
Affairs.

"And on that group I had representatives from
the CIA, from the State Department and from the
Defense Department. So what I meant in that note,

and I think it is very clear once you understand the background, is that I didn't--except for the Boland Amendment applying to these other guys, we could discuss it, but we couldn't discuss it in those terms because the Boland Amendment applied to them. It did not apply to the NSC staff.

"Mr. LIMAN. Did Colonel North ask the NSC to provide information to Calero on the Monimbo?

"Mr. POINDEXTER. Would you repeat your last question?

"Mr. LIMAN. Was Colonel North seeking permission for him to provide information on the Monimbo to Calero? Isn't that what he was saying?

"Mr. POINDEXTER. That was the request that he was making.

"There's some other points that I want to make, though, and that is that in that first sentence where I say, 'except for the prohibition of the Intelligence Community,' and what I'm referring to there is that's the Boland Amendment applying to the CIA, the State Department and the Defense Department. And because those people were going to be involved in the meeting, I didn't think it would be appropriate to discuss that issue.

"Now, one of our objectives in the Central American program, which was covered in very early findings that the President signed in '81 and '82, I think, one of our objectives was to stop the arms flow into Nicaragua so that we would reduce the arms flow into El Salvador and Honduras and the surrounding countries. And so from that standpoint of stopping the arms flow, I felt that

that was something that could be discussed.

"Mr. LIMAN. I've just heard your testimony, which was that it would have been a violation of Boland for you to discuss this with the CIA and State Department and the Defense Department, correct?"

"Mr. POINDEXTER. That's correct.

"Mr. LIMAN. But you considered it consistent with the letter and spirit of Boland for you to provide that information on the ship?"

"Mr. POINDEXTER. I did not have any problem with it. As it turns out, I can't remember exactly what happened here, but the plan was never executed."

[For Hall testimony preceding this entry, see 86/11/21-616.]

"Mr. BELNICK. Now, I would like to go through the [altered] documents. Let's begin, if we may, Miss Hall, with Exhibit FH-2, which is a memorandum to Mr. McFarlane from Lieutenant Colonel North, dated February 6, 1985, and the subject is Nicaraguan arms shipments.

"Do you have that document before you?"

"Ms. HALL. Yes, I do.

"Mr. BELNICK. We also have a blow-up of the

"MS. HALL. Yes.

"MR. BELNICK. And that is one of the numbers which appears on the handwritten list, FH Exhibit 1 [see 86/11/21-615]?

"MS. HALL. Yes.

"MR. BELNICK. Now, this document was prepared originally on or about February 6, 1985, as the date indicates, and you have no independent recollection, as we have established, of what the document contained then and what changes were made in the document on November 21, 1986.

"MS. HALL. That's correct.

"MR. BELNICK. Let's then review the document for the committee and let me explain the colors on the document as they were put up.

"On the original document material that's deleted is highlighted in blue ink on what we believe to be the altered version of the document. Material that was put in that did not appear on the original document is highlighted in orange.

"Now, going through Exhibit 2, Exhibit 2 in its original form where the blue highlighting occurs, was a memorandum from Lieutenant Colonel North to Mr. McFarlane, in which he advised that a Nicaraguan merchant ship was unloading cargo in Asia and, in the blacked-out portion, was taking on lethal cargo, weapons, for the contras at a certain other spot in the East.

"Colonel North then goes on, as you see at the bottom of page 1 of Exhibit 2, to present three options to Mr. McFarlane for dealing with that

vessel. He says that the shipment of weapons could be seized and the weapons could be delivered to the Nicaraguan resistance, or he says the ship could be sunk, or he says publicity could be given to the shipment and the parties involved in order to prevent the delivery that way.

"If we then turn to the second page of Exhibit 2, Colonel North provides Mr. McFarlane additional details concerning the possibility of having Mr. Calero and his people assist in some way with preventing the delivery of those weapons to Nicaragua. And the memo concludes with a recommendation that Mr. McFarlane authorize Mr. Calero to be provided with information on this ship and to be approached on the matter of seizing or sinking it.

"Beneath that there is a handwritten notation and, Miss Hall, do you recognize that as Admiral Poindexter's writing?

"MS. HALL. Yes, I do.

"Mr. BELNICK. And the notation in Admiral Poindexter's writing reads, 'We need to make sure the ship does not arrive in Nicaragua.'" (Hall Testim., JHICI, 6/8/87, at 259-62; JHICI Exx. Constantine Menges. The Assistant Secretary of State for Latin -- Inter-American Affairs was Tony Motley. They fought like cats and dogs. Motley would not hold a meeting with Menges in the room. They couldn't talk to each other.

"Also, because of what had happened earlier at the negotiations -- the bilateral negotiations between the U.S. and Nicaragua, there was tension at play in the system. And, essentially by default, Central American policy in its execution and to a large degree in its formulation fell to Oliver North. He was the person that filled the void and who dealt with these things by dint of the void and by dint of personality; and he did it, and he was the person who moved and formulated and pushed and cajoled; and I think the committee has seen enough of his personality [so that] they can understand how that happened and why that happened.

"When he called and asked me about that, the conversation probably went something like, [Redacted] McFarlane wants to know is this and this and this happening? Where is this? How is this going down?'

"[Redacted.]

"But he knew. There is very little -- and you will hear this as the day goes on -- that happened in Central America that I didn't talk to Ollie about, particularly up through sometime in April of '86. I mean it was a very unabridged conversation, because he was the man on the National Security Council with the responsibility for the Administration for this program.

Singlaub reviews his "entire presentation" ("I believe at that time I still had my handwritten notes."). He tells North that "it would be appropriate at the time for him to have someone who was recognized as a spokesman for the Administration to make contact with the representatives [of Countries 3 and 5] here in Washington, and to indicate that they knew of my trip and of my request, and that the Administration had no objections to that, and it would not get them in trouble with the Administration if they did that."

Owen later meets with North at North's office in the OE08 to get "the maps." They discuss them briefly, and North expresses his concern over the "build up of Sandinista forces along the Honduran-Nicaraguan border." Probably on this occasion ("[i]f I did carry it" at all), Owen carries a letter to Calero from North describing over \$20 million to be deposited "next week . . . in the usual account . . . to bridge the gap." "And now the best news of all:

"Next week, a sum in excess of \$20M will be deposited in the usual account. While this must be husbanded carefully, it should allow us to bridge the gap between now and when the vote is taken and the funds are turned on again.

"

"So that we have a plan, I propose the following steps as highest priority:

"The forces in the northern part of Nicaragua need to be dispersed so that they are not caught in the firestorm as the Sandinistas intend. On the map, I have marked several areas in yellow where there are no Sandinistas and good protection from the helicopters and bombing raids. If the high ground can be [sic] guarded, then those who harbor in those areas will be safe. . . .

"

" . . . Next week, I will try to convince [redacted] and the others that they should allow 2,000 FDN at a time in the border camps. If a regular resupply program can be established using what will be deposited next week, we can start a regular logistics program of one flight every 10-15 days and the steady movement of supplies and ammunition to the forward bases.

"Most important is saving the force from what I believe will be a serious effort to destroy it in the next few weeks. While I know it hurts to hide, now is the time to do it. While they are hiding, the man who is carrying this message can start the regular resupply process. I believe it would be wise to dedicate as much as \$9-10M for

nothing but logistics. To coordinate a major effort such as this, I strongly urge that you bring aboard a logistics expert who is both knowledgeable and trustworthy. The courier should be able to help with this.

"The battle plan for the near future should involve getting as many as possible out of the border camps and hiding them perhaps in the areas I have shown, while the logistics program is established. Once the regular resupply system is in place and the troops familiar with a rotation system of 1,500-2,000 being resupplied each week, attacks can be launched with great vigor against the Sandinista rear, hitting them hard as they phase down in frustration from their current operations and striking at selected strategic targets with your enhanced capability.

"This new money will provide great flexibility we have not enjoyed to date. I would urge you to make use of some of it for my British friend and his services for special operations. I can produce him at the end of this month. . . .

Please do NOT in any way make ANYONE aware of the deposit. Too much is becoming known by too many people. We need to make sure that this new financing does NOT become known. NORTH'S CONTRA ACTIVITIES: STEELHAMMER LETTER
CALERO ACCOUNT:

"Mr. COHEN. Could I turn your attention to a document that we received? It is addressed to 'My Friend,' and it is approximately February of 1985. Did you ever receive a document from Colonel North?

"Mr. CALERO. I have looked at that letter a number of times. The information it has I am familiar with, fairly familiar with. I saw a draft, as a matter of fact, where the \$20 million had been scratched out, but I do not recall, and I have been really trying my memory on that one, I don't recall getting that letter.

"Mr. COHEN. If I were to tell you that that letter contained information pertaining to intelligence about the Sandinistas, you wouldn't disagree that you had that conversation, if not the memo itself, or the letter itself?

"Mr. CALERO. I don't know. I mean, I have seen the letter, but I don't remember--

"Mr. COHEN. No, I think that you have already indicated in your previous testimony that you have discussed intelligence matters before.

"Mr. CALERO. Yes.

"Mr. CALERO. I have said the information they gathered from conversations with Colonel North, we never planned nor carried out any operation.

NORTH'S AND OWEN'S CONTRA ACTIVITIES: MAPS
FOR THE CONTRAS

C/CATF ACCOUNT:

"Mr. Carome. In February '85 there came another occasion where according to the testimony of Robert Owen Oliver North gave him maps to take to the contra leaders for use in a military operation on the [redacted] Nicaraguan border.

Mr. Owen has testified that the maps that were originally provided were too large for him to take down surreptitiously to Nicaragua and that he was in Oliver North's office when Oliver North called you to ask you to provide maps of a suitable size to take down to the Nicaraguan leadership.

"Do you recall that event in February '85?

"[C/CATF.] I am trying to recall what was happening with the resistance in February '85. I do not recall that specific event. I think I have testified to that 3 or 4 times in various depositions and such, and don't think that -- I don't recall that conversation having taken place, no.

"Mr. Carome. If in February '85 Oliver North asked you for maps relating to activity on the Nicaraguan-[redacted] border, would you have provided it to him?

"[C/CATF.] No. As a matter of fact I would have found some way to have avoided doing that if that is what it was for.

"Mr. Carome. Would you please turn to [C/CATF] Exhibit 2. Exhibit 2 is an entry out of Oliver North's notebooks dated February 8, 1985, the time we were just talking about. At 7 o'clock there is an entry that says maps delivered by [redacted] and 15 minutes later at 7:15 it says meeting with Rob Owen. That appears to relate to the incident that Mr. Owen testified about.

"[C/CATF.] No. There is another meeting, another entry there, they are two things. I am going to be a little bit particular here. The meeting with Rob Owen was 5 minutes after the map is alleged to have been delivered, meaning he was not in the room probably.

"Secondly, there is a 9:30 meeting with Ronald Reagan and so on. If I had delivered a map to Oliver North and it looks like I did, [redacted] was a person who worked on my staff -- it would have been because Oliver North said I need this to brief the President, and that is the way he dealt, bombastically, and you would push and push and push and the decision I had to make each time a segment came in was whether or not it was for his NSC job or something else.

"At the time the resistance forces were withdrawing, the Nicaraguans were getting ready to make their first incursion at some point in time [redacted] and it is very likely that he pushed and said I need intelligence on this. He did that frequently and each time I had to respond in a way

that I felt was in keeping with the law and in keeping with his position to work in the NSC. So if I did that and I don't recall that particularly, I vaguely recall in the back of my mind [redacted] carrying a map down or doing some work, it was not specific enough to be of any tactical use and was meant for briefings at the White House in his position with the NSC as far as I knew.

"Mr. Car[.]ome. Did Oliver North tell you at that time that these maps were going to be produced to Robert Owen?

"[C/CATF.] No.

"Mr. Carome. Did you know at that time who Robert Owen was?

"[C/CATF.] I don't think at that early stage I knew who Robert Owen was. I would put my understanding of who Robert Owen was later in '85.

"Mr. Carome. Specifically do you recall Oliver North calling you and telling you that the maps that were provided for Owen were too large and that he needed smaller maps?

"[C/CATF.] I don't recall him doing that. I don't recall him calling me and telling me maps were too large or that he had given them to Robert Owen."

OWEN'S CONTRA ACTIVITIES: TRAVELER'S CHECKS

OWEN ACCOUNT:

North asks Robert Owen "to change travelers checks into dollars" and then to convey the money to a Contra leader who had been receiving money from "an agency," but whose funds were about to be cut off. With Jonathan Miller present, North takes the traveler's checks from a safe in his office and gives them to Owen and Miller to cash separately:

"Mr. EGGLESTON. Where did he [North] get the travelers checks from?

"Mr. OWEN. Out of a safe in his office.

Unfortunately, it must have been an unlucky safe. It was the safe where the thousand dollars for Richard Allen was found.

"Mr. EGGLESTON. I take it you know that because Colonel North told you that?

"Mr. OWEN. Yes.

"Mr. EGGLESTON. Indeed did Colonel North make a joke about that?

"Mr. OWEN. He did.

Owen and Miller meet later back at North's office. (Owen testified he could not recall if North was present at the second meeting.) Owen takes the cash and passes the money -- "six or seven thousand dollars" -- later to the Contra leader in Owen's apartment with no one else present. rewarding the[m] for the help they had given to the contras?

"Mr. NORTH. Let me be very specific about that. I do not recall ever telling any country or representative of any country that if they did this that we would do that. What is very important--and I tried to articulate this yesterday--is that others in other countries and other Americans very clearly saw that help to the Nicaraguan Resistance was in the best interests of those countries and was in the best interest of the United States of America. Those other countries in almost every case, without even any prodding, stepped up and wanted to help.

"So when I met with somebody, it didn't take a great deal of pushing. What I am saying to you, counsel, is that there was a very clear recognition, particularly in Central America, that there was a disaster at hand, that they saw, in the words of one head of state, that they were in the mouth of the lion.

". . . All I had to do was nod and say[,] 'We would be grateful', and indeed I believe we should be.

"So when I met with the representatives of any one of those countries on that list for that purpose, it didn't take prodding. All it took was saying we would be grateful, and indeed I think we ought to be.

"Mr. NIELDS. I think the question was, I take it that you sought to reward this country for the help that it had given in getting arms to the contras.

"Mr. NORTH. I sought in the memorandum that I prepared to acknowledge what they had done. I also sought to point out in that memorandum that that country . . . was suffering from a guerrilla war sponsored by the Soviet Union and Cuba and Nicaragua and that they were in desperate straits, and they needed help. They needed economic help. They needed security assistance. The memorandum that I attached also indicated that they had provided assistance to the Nicaraguan Resistance in the form of end-user certificates, but I never told the representatives of that country that if they give us those, we would get something else to them. That is an important factor. I didn't make promises based on a quid pro quo."

certain Central American country, the name of which has been deleted from the unclassified version of this memo.

"Now, i[n] this memo, as we see from reading it, Colonel North proposes to Mr. McFarlane that Mr. McFarlane send a memo to the Secretary of State, to the Secretary of Defense, to the Director of Central Intelligence and to the Chairman of the Joint Chiefs of Staff asking for their views on increased U.S. assistance to this Central American country and proposing that such increased assistance be given.

"Colonel North then goes on in Exhibit 3 to say to Mr. McFarlane that the real purpose of the proposed memo to the cabinet offices would be to find a way to compensate the Central American country for the extraordinary assistance that that country had been furnishing to the Nicaraguan freedom fighters by facilitating the delivery of lethal assistance, weapons, through the provision of false end-user certificates.

"And Colonel North goes on to point out to Mr. McFarlane on page 2 of Exhibit 3 that the proposed memo to the senior cabinet officials does not refer to any of those arrangements which had been made by the Central American country to help the freedom fighters.

"The recommendation is that Mr. McFarlane signed [sic (sign?)] the proposed memo to the senior cabinet officers and set [sic (send?)] it along, a memo which contained, as Colonel North put it, no reference to the real purpose of the recommendation.

"Mr. BELNICK. You were uneasy while you were making these changes, weren't you?

"Ms. HALL. I felt a little bit of uneasiness when he asked me to do it, but again as I stated, I believe in Colonel North as I know that there must have been a good reason what he was asking me to do this, and I--I did as I was told.

"Mr. BELNICK. Did you know at the time that Colonel North asked you to do this that the President of the United States had asked the Attorney General to make an inquiry into the facts concerning the delivery and sale of American weapons to Iran?

"Ms. HALL. I do not recall that, no.

"Mr. BELNICK. Did Colonel North mention to you that he knew the Attorney General had been asked to undertake that assignment and would be coming to the office to review documents or that his representatives would be coming the very next morning?

"Ms. HALL. No, sir.

North requests; right?

"Mr. HALL. No, sir.

"Mr. BELNICK. While you were making the changes, did anybody come over to your desk?

"Ms. HALL. Yes, sir.

"Mr. BELNICK. Who was that?

"Ms. HALL. Commander Craig Coy.

"Mr. BELNICK. What did you do when Commander Coy approached your desk while you were altering the documents?

"Mr. HALL. I turned the documents over, face down.

"Mr. BELNICK. Why?

"Ms. HALL. I felt that it was my policy not to expose or talk about what I was doing and I felt that I didn't know [whether] Colonel North shared with Colonel Coy what he was doing, and I felt that it wasn't my place to show Commander Coy what I was doing.

"Mr. BELNICK. You weren't totally comfortable with what you were doing, were you, Ms. Hall?

"Ms. HALL. I would say that I wasn't totally comfortable, yes. But as I've said before, I believe Colonel North had a good reason for doing what he was doing. I'm not going to question that.

"Mr. BELNICK. He didn't tell you what that reason was?

"Ms. HALL. No, he didn't."

"Mr. MCFARLANE. That is correct.

"Mr. LIMAN. And the action that he asked you to do was to send a memo to Secretary Shultz, Weinberger and Director Casey and General Vessey, asking for their view on an increased United States assistance to a Central American country, correct?

"Mr. MCFARLANE. That is correct.

"Mr. LIMAN. And you, in fact, sent the memorandum requested that recommended that this country be considered for increased assistance, correct?

"Mr. MCFARLANE. That is correct, yes.

American country for the extraordinary assistance they are providing to the Nicaraguan Freedom Fighters, and he attached to this some end-users certificates which that country had provided to the Freedom Fighters that showed that the arms were going to that country, rather than to the contras.

". . . .

"Mr. LIMAN. And am I correct you sent the memo?

"Mr. MCFARLANE. Yes, I did.

"Mr. LIMAN. And you did not, in sending the memo, indicate that the real purpose was to compensate this country for assisting the contras?

"Mr. MCFARLANE. Well, that wasn't its real purpose.

"Mr. LIMAN. That was Colonel North's purpose.

"Mr. MCFARLANE. That is the way that he portrayed it. However, for a long time many members of Congress, the Secretary of Defense, Secretary of State had urged that we review and reconsider . . . [the Central American country's] eligibility for foreign assistance. So on its merits, . . . [the Central American country], having made some progress in the direction of improved human rights records and reduced number of unexplained murders and things like that, justified asking the community has the time come where . . . Colonel North would obviously or occasionally write memorand[a] rather hurriedly in their portrayal of events. For example, in this one the description that this relationship and the end users certificates emerged as a direct consequence of my visit there is absolutely untrue. For example, I made that trip, landed at the airport in . . . [the Central American country], spent 20 minutes at the airport, got back on the plane and left.

"Now, in the space of that time, the total exchange consisted of sitting in a room with career officials, the CIA, Defense, my staff, the State Department and the resident Ambassador. Now, anyone with any gumption certainly is not going to sit there in the front of God and everyone and say, 'Will you please provide illegal end user certificates for me?' In short, this simply didn't happen. But I looked at the memo that was attached, and what it sought to achieve to evaluate whether or not . . . [the Central American country] was qualified to receive aid was a very legitimate purpose, and it was the only purpose.

"Mr. LIMAN. One last question . . . Did you admonish Colonel North for sending this kind of memo and stating that the purpose was to compensate the country for assisting the freedom fighters?

"Mr. MCFARLANE. I did not."

MCFARLANE ACCOUNT, Part 2:

[Continuing from preceding entry:]

"Mr. NIELDS. I take it what Mr. North is trying to do here [in Ex. 35] is to reward a certain Central American country for assistance that it had provided to the Contras in obtaining arms?

"Mr. MCFARLANE. Well, I think that any objective person would see it that way. I don't intend to what the Navy calls see a lawyer about it, but the fact that a country on its merits deserves foreign aid is a condition which Ollie could very well wrap into a more romantic portrayal of why they ought to be getting it. Now, it isn't worth arguing about.

"Yes, for me, to ask Cabinet officers and the Chairman of the Joint Chiefs whether they thought . . . [a Central American country] was deserving of foreign aid is a reasonable thing to do. On its merits it was worth endorsing. In March when it came across, I don't recall having gotten--paying attention to it at all. When it came up in August, I do recall saying that this is just one more kind of example of hyperbole where innocent propositions are given a rather lurid kind of cast that was just not true.

"Mr. NIELDS. But North's purpose in this memo is to reward this Central American country for helping the Contras get arms?

"Mr. MCFARLANE. That I think is correct, yes.
"Mr. NIELDS. And he says so here, and these are his words, I understand, not yours, 'the real purpose of your memo is to find a way by which we

"Mr. MCFARLANE. Yes.

"Mr. NIELDS. [An] end user certificate, I take it, is a certificate that states the actual final user of munitions?

"Mr. MCFARLANE. That is correct.

"Mr. NIELDS. And in this case, this Central American country was not the final user of the munitions?

"Mr. MCFARLANE. Yes.

"Mr. NIELDS. So the end user certificates were false?

"Mr. MCFARLANE. That is right, in the normal course of CIA security of a movement the requirement is to identify a country and by working through intelligence sources, and sister services, to gain the cooperation of another country's intelligence service to provide end user certificates. And it isn't beyond imagination--in fact I assume that when the agency was authorized and took part in training the Contras that that was part of the training, how you do that.

"Mr. MCFARLANE. I think that is true. It may be interesting to note that the U.S. was providing military assistance to other Central American countries, . . . in much lesser sums, but . . . "Mr. NORTH. I did.

"Mr. FOLEY. What were those actions?

"Mr. NORTH. David Walker was involved, his organization, as I understand it, in support of the Nicaraguan Resistance with internal operations in Managua and elsewhere in an effort to improve the perception that the Nicaraguan Resistance could operate anywhere that it so desired.

"Mr. FOLEY. Involved so-called policies of intimidation. Is that what we are talking about?

"Mr. NORTH. No, those were other activities that we talked about.

"Mr. FOLEY. We are talking about military actions, attacks on military aircraft of the Sandinista government?

"Mr. NORTH. Yes.

"Mr. FOLEY. Did you directly authorize that?

"Mr. NORTH. I didn't directly authorize anything. I encouraged Mr. Walker to be in touch with the people who could benefit from that, the expertise that he had.

"Mr. FOLEY. Did you report that recommendation to Admiral Poindexter?

"Mr. NORTH. I did.

"Mr. FOLEY. Did he approve it?

"Mr. NORTH. I reported what I thought was a good idea for certain expertise that the Nicaraguan resistance did not have as a consequence of insufficient training, insufficient operational capability.

"Mr. FOLEY. Did he ever tell you he approved it?

"Mr. NORTH. He never told me not to.

DAVID WALKER IN NICARAGUA
NORTH EXECUTIVE SESSION:

[2 sets of questions and answers redacted after the excerpt of testimony quoted at 84/03/27-120. North's testimony then continues:]
 "Mr. Stokes. And was that something in which you were involved?"
 "Mr. North. I was."
 "Mr. Stokes. Was it David Walker?"
 "Mr. North. It is my understanding Mr. Walker provided two technicians involved in that. Mr. Walker owns, manages, directs, I don't know what the right word is, a foreign country comprised of special air services and special boat services personnel who provide service [redacted.]"
 "Mr. Stokes. Can you tell us who approved that activity?"

DAVID WALKER IN NICARAGUA
POINDEXTER ACCOUNT, Part 1:

"Mr. FOLEY. Colonel North testified that he had discussed with David Walker concerning certain military missions inside Nicaragua during 1985. Did you know about these activities?

"Mr. POINDEXTER. I recall that Colonel North reported to me at one point--I have lost track of the time frame--but that a man named David Walker had come to town; and as I recall, Secretary John Lehman, who was the Secretary of the Navy at the time, had made it known that Walker was an interesting person that somebody ought to talk to.

"Colonel North reported talking to David Walker and generally laid out who he was and what sort of assistance he might be able to provide the contra leadership.

"Mr. FOLEY. You knew he was a former SAS officer?

"Mr. POINDEXTER. I believe I did.

"Mr. FOLEY. And that there was discussion under way about conducting military operations inside Nicaragua under David Walker's direction?

"Mr. POINDEXTER. As I recall my level of

detailed knowledge on that was simply that he was an ex-SAS officer involved in an international security business and thought that he might be helpful to the contra leadership in their fight against the Sandinistas.

"Mr. FOLEY. Do you know whether Colonel North directed him to the contra leadership and helped coordinate his activities?

"Mr. POINDEXTER. I don't recall knowing that. I would not have been surprised.

"Mr. FOLEY. You wouldn't have disapproved of that effort?

"Mr. POINDEXTER. Absolutely not.

"Mr. FOLEY. Were you concerned about the United States Government being involved through an intermediary security specialist in the performance of military operations inside Nicaragua?

"Mr. POINDEXTER. I don't think that is inappropriate at all. As I have testified numerous times before this body, I did not feel as if the Boland Amendment applied to the NSC staff and there weren't any restrictions on our putting the contra leadership in contact with people that might be of assistance to them.

"They needed help. We were trying to do everything we could to help them.

"Mr. FOLEY. Well, you are familiar as the National Security Advisor with the usual standards of international conduct. Isn't it true that if the United States Government directly perpetrated acts of military violence inside a country with which we have diplomatic relations that that could

"Mr. POINDEXTER. Mr. Foley, under the presidential findings that existed long before this, the United States policy was to do that very thing.

"Mr. FOLEY. Commit acts of war against Nicaragua?

"Mr. BECKLER. May I request, please, that the witness be allowed to continue his answer?

"Mr. FOLEY. I am sorry. I didn't mean to interrupt the witness, counsel.

"Mr. POINDEXTER. I don't consider that an act of war. The Sandinista government is exporting revolution to the surrounding countries of the area. I think that is a much more serious problem. All that we were doing was putting the contra leadership in contact with an expert that might be of assistance to them in training and in operations."

of war.

"Now, I am still a little uncertain about what your answer is with respect to the activities.

You say that they are not acts of war, but they are acts of military violence. Would you agree?

"Mr. POINDEXTER. I am not saying that we were directly involved in that. What I am saying is that Colonel North talked to Mr. Walker to find out what his capabilities were and then I assumed that he put Walker in contact with the contra leadership.

"What the contra leadership decided to do with Mr. Walker is a decision for the contra leadership.

"Mr. FOLEY. You know what later happened in Nicaragua?

"Mr. POINDEXTER. I did not know.

"Mr. FOLEY. We were, in effect, a sort of broker to bring David Walker together with the contra leadership for the purpose of what he proposed to do in the way of committing military acts within Nicaragua. We were at least in that role; is that correct?

"Mr. POINDEXTER. Mr. Foley, I don't see any difference between putting Mr. Walker in contact with the contra leadership than I do in encouraging private support to the contras to carry out their fight against the communist Sandinista government[.]

"Mr. FOLEY. Was the President informed of Mr. Walker's activity at any time?

"Mr. LIMAN. And you were writing on the margins your views, yes, no, doubtful, and so forth?

"Mr. LIMAN. If we look at this memorandum, Colonel North stated, as his assumption right at the beginning, that the Congress is unwilling to support release of \$14 million in U.S. Government funds for the purpose of supporting directly or indirectly military or paramilitary operations in Nicaragua. That was the--what he assumed for the purpose of the memorandum?

"Mr. MCFARLANE. That is correct.

"Mr. LIMAN. Would you tell me when Colonel North said the current donors will have to be convinced of the need to continue their funding, is that a distinction that you are drawing between solicitation and convincing, or that he is drawing?

"Mr. MCFARLANE. Well, my reaction to this proposition was negative in any case, that it wasn't a matter of splitting hairs between soliciting and inducing, if you will, by circumlocution. It was a matter that we weren't going to rely on any foreign source again, in my judgment.

"Mr. LIMAN. Now, when you say that you turned it down, you wrote on the second page where he gave his recommendations, he wrote, 'The current donors must be apprised of the plan and agree to provide additional \$25 to \$30 million to the resistance for the purchase of arms and munitions,' and you wrote, 'I doubt.'

"Mr. MCFARLANE. Yes, it did.

"Mr. LIMAN. Did it occur to you that the message wasn't getting through?"

"Mr. MCFARLANE. Well, at this particular time, it seemed a little odd, because things were looking better at this moment. We were about to have the San Jose Declaration, our own peace plan, and it seemed to me that our fortunes with the Congress were rising at that particular moment; plus it is still very close in time to the infusion of 25 million new dollars, so we didn't need the money anyway.

"Mr. MCFARLANE. I didn't know anything about them; that is correct.

"Mr. LIMAN. Was there any sense that you had at the time that you had given Colonel North the idea that, intentionally or unintentionally, that there were just some things that he shouldn't bring to your attention?

"Mr. MCFARLANE. I don't think so. I didn't intend to; and yet, I think this: I think that I have to accept responsibility regardless of whether I provided explicit direction that let[te]d to this, that as the person who set the tone, set the example, was in charge, I am responsible for what happened.

"Mr. LIMAN. But, Mr. McFarlane, for example, you did not want to impose certain knowledge on the Secretary of State? [See 86/06/16-080.]

"Mr. MCFARLANE. Yes, That is correct.

"Mr. LIMAN. And I am asking you whether on a lower level there was that same compartmentalization, namely, that as you think about what was happening then, that Colonel North was not briefing you on some things which would have been awkward for you?

"Mr. MCFARLANE. Well, I understand what you mean, and I think that it is very possible that Colonel North would have done the other thing, and that is not tell me things in order to protect me. He was a very loyal officer, concerned for my own welfare, too.

HALL ACCOUNT:

"Mr. BELNICK. . . . [Exhibit] FH-4 is a memorandum dated March 16, 1985 from Colonel North to Mr. McFarlane. It contains the System 4 number 400426 and that again Ms. Hall is another one of the document numbers appearing on the McFarlane list.

"Ms. HALL. Yes, sir.

"Mr. BELNICK. This document was typed on or about March 16, 1985, and its subject is 'Fall-Back Plan for the Nicaraguan Rssistance.'

"Now, the document as it appeared on March 16, 1985, or at least as we have it, consisted of three pages, the first page of which was a cover memorandum from Colonel North in which he said that a fall-back plan had been developed, that plan which is laid out on the second two pages, a fall-back plan to aid the Nicaraguan resistance on the assumption that the Congress decided not to rescind the restrictions on the contra aid that

resistance; correct?

"And he proposes that there be established a nonprofit, tax-exempt organization for that purpose, that the contra leaders be informed, and that the President's speech be conceived and put together in total secrecy.

"Would you now take a look at Exhibit 4-A? Exhibit 4-A bears the same System 4 number as Exhibit 4--40046--only this one reduces what was a three-page memorandum to a one-paragraph memorandum.

"In that paragraph, Colonel North had deleted all reference to any fall-back plan and says instead that Congress seems reluctant to rescind the aid restrictions and that there, therefore, is a need to develop a fall-back plan for supporting the resistance.

"And he states that the best fall-back we have is to stress that while President Reagan is unwilling to use U.S. troops in Nicaragua, all available intelligence supports the realization that we will have to in the 1990s, if there is not a democratic outcome now.

"You have checked the approval boxes on that document, and this, too, is one of the documents that we believe you prepared at Colonel North's request on November 21, correct?

OWEN'S CONTRA ACTIVITIES: PASSING MONEY

OWEN ACCOUNT:

Robert Owen makes payments to a number of different Contra leaders. One is an Indian leader "who was having negotiations at one time with the Sandinistas. It was felt that if his negotiations were not successful that there was a need to unite all the factions of the Indian movement." Owen passes him several thousand dollars in cash or traveler's checks in Owen's parked car. "I said that the powers that be wanted to continue to support him as best we could." The deal is "in a way, a quid pro quo": "The feeling was that if he went to negotiations with the Sandinistas and he walked out of them, because he believed they would not be successful, that we would try and help him and help the other members of the Indian movement unite and work together in a united front against the Sandinistas." "Mr. NORTH. . . . [T]he amount may be \$225,000 or higher. But I don't think the committee ought to be left with the impression that he was bribed or she was bribed into joining this movement.

These were people who felt deeply, perhaps even more so than I, because it was their country. And I don't know that anybody was ever bribed to join the Nicaraguan resistance, no matter who the person is or how much he got. I think that they fought as best they were able and they used the moneys that I provided for them to support the cause that they believe in.

"[C/CATF.] I wouldn't -- your statement is correct, in fact, but at the point in time, my level of knowledgeability, I wouldn't have put it that way. That was not my understanding. Ollie always maintained that he was the interface, the go-between between donors who were providing funds

to the Resistance and left the impression that he was causing things to happen, but was not actually doing them himself.

"What I thought he was doing, very frankly, until very late in the game, was facilitating donors, rich Americans, by and large, which was what most of the people around us thought, to donate funds to various individuals. But I did not know that he was actually paying the cash out himself or was controlling the accounts.

"Mr. Carome. For instance, you learned at RIG meetings in the first quarter of 1985 that [redacted] was receiving payments arranged by Oliver North, is that right?

"[C/CATF.] Not at RIG meetings. I think Oliver North told me that in phone conversations or some other discussions because we talked very clearly in RIG meetings and in phone conversations about the impact in the political context of the cutoff in funding [redacted.]

"I think the member[s] of the House Intelligence Committee remember those discussions very, very clearly. We talked about the political impact of that, what it would do to the political side of the program, what it would do to where we were going. Ollie was fully aware of it, and I had discussions with Ollie talking about the sort of, 'Gees, this is just a terrible thing, isn't there some way this can be paid?' And Ollie said we can do that thing or it can be done, passive voice.

being arranged by Oliver North, is that correct?
 "[C/CATF.] No. I learned it earlier. I began to understand it earlier, and I think it is important to expand on that. As I said in my deposition, I began to see things happening with the Resistance forces that were not explainable. They didn't withdraw from Nicaragua like they were supposed to. They were feeding their troops. They were doing things in December, particularly January, and that surprised me.

"And I began to look around for where things were going. It became clear to me that they had access to money. And as it became clear to me that they had access to money, I suppose someplace in January, February of 1985, I began to develop an understanding that Oliver North was in and around and had some role in this and that was when I began to develop with Clair[] George, who will follow me, the very clear policies that would govern our operations and my particular behavior, and I thought the behavior of our various [redacted] employees for the next two-and-a-half years.

"So the answer to your question is I knew it slightly earlier, but I didn't know that he was providing. I thought he was causing to be provided."

"[C/CATF.] That is a difficult question.

Because --

"Mr. Carome. Let me refer you to [C/CATF] Exhibit 9. Exhibit 9 is another item out of Oliver North's notebooks. The first part of Exhibit 9 is dated July 11. That is July 11, 1985. It says 10:00 o'clock, call from [redacted.] Get 25 K. to [redacted.]

"Then it goes on.

"[C/CATF.] Yes.

We decided it was probably legal to provide funds [redacted], but politically controversial, and our guiding light in those days was we will do nothing that is politically controversial because we want to build credibility with the Congress and be as straightforward as we can be and try to reinstate and to rid ourselves of some of these restrictions.

"So we didn't fund [redacted] and I would think, my recollection is, by the spring of 1986 or 1985, there was probably a lot of discussion

Wednesday afternoons and this one doesn't--

"Mr. LIMAN. Well, here you are being told by the director that if you rely on third countries for lethal support for the contras, and it gets out, Congress could penalize those countries as well as the contras; right?

"Mr. MCFARLANE. Yes.

"Mr. LIMAN. And you acknowledged that that was a serious issue? And that you would leave it to the President to decide?

"Mr. MCFARLANE. Yes.

"Mr. LIMAN. Did you bring it to the President? Do you have any recollection of that, sir?

"Mr. MCFARLANE. I know that I did not.

"Mr. LIMAN. Then why did you tell the CIA that you were going to leave it to the President and not to do it?

"Mr. MCFARLANE. Well, first, you assume that this is an accurate record there. The first time I have seen this document, but the--two things here.

"First of all, when the director would come to the meeting, he would carry a notebook about like this, with inserts such as this one, with the CIA overlay imprinted on it. Occasionally, when there was something he wanted me to follow up on after the meeting, he would give a clean memorandum, without the CIA lettering on it; and he didn't on this subject.

"But concerning this one, over time I found that from the spring of 1984 through the summer, through 1985, in fact, as a consistent matter, I

"And I also found--and it didn't do very much good to argue about it, and the easy way to resolve a given conflict was just to acknowledge that the only way you are going to solve this is elevate it to the boss.

"Well, that would also at least get us on the next agenda item.

"Mr. LIMAN. And on this one, as I understand your testimony, you made the decision that there was no point in seeking further third country assistance?

Some time later, Ledeen tells McFarlane about these conversations. Because Ledeen has had past contact with Prime Minister Shimon Peres while Ledeen worked for Alexander Haig, Ledeen suggests to McFarlane that "it might be useful for me to talk to Peres about this subject."

Ledeen testified, "Now, this trip which I discussed also very briefly with Teicher and Covey simply to describe to them what it was about and why I thought it would be a useful trip to make, was fully approved by McFarlane before I went to the extent that before I left he and I had a conversation in which he told me specifically what to say and what tone of voice I was to use when I said it to Peres."

OWEN'S CONTRA ACTIVITIES: PASSING MONEY
OWEN ACCOUNT:

Robert Owen passes an envelope with "traveler's checks and cash, I believe" to another Indian leader in the street outside the OEOB. As Owen waits in the rain, a car drives up with the Indian and one or more Americans inside. "I knew who he was and who the American was that was with him." Owen gives the Indian the money. (Owen Testim., JHICI, 5/14/87, at 247-50. See id., 5/19/87, at 3-4 [The person in the car, Owen believed, was Peter Flaherty of "a conservative activist group in town, it was either Citizens for Reagan or Citizens for America."].)

traveler's checks in it, but there may well have been, and I just can't say one way or the other.

"Mr. EGGLESTON. And just one more question on this payment issue. Did Colonel North have a method by which he kept track of the amount of the traveler's checks that he was giving to you?

"Mr. OWEN. Yes, sir. He had a ledger that he kept track of every traveler's check that he gave me, from the serial numbers to the amount and where it was going. . . . [But Adolfo Calero, to the best of my knowledge, provided the traveler's checks to Oliver North; Oliver North then either had me or potentially someone else that I don't know about distribute it to contra leaders; so it was, if you will, contra money going from one leader to another with an intermediary." "Mr. BARBADORO. Why did you do that, and can you tell us what you used that money for?

"Mr. CALERO. Traveler's checks are a very handy way for people who are going to be traveling, and we converted that into traveler's checks in order to be used for many expenses that we had to give to our--for our family support and also at the beginning, we did not have the

"Mr. BARBADORO. Your records also show payments of approximately \$1.8 million to a person named Aquilles Marin.

"Mr. CALERO. That was not a payment.

that I talked to Director Casey about the difficulties.

"He had suggested establishing an operational account and I did so. There were two sources of monies for that operational account. One was traveler's checks from Adolfo Calero and the other one was cash eventually from General Second.

"My recollection is that the very first traveler's checks came either very late '84 or certainly early 1985 and that the sum total of traveler's checks was probably in excess of \$100,000 or thereabouts.

"I also had cash which I estimated to be somewhere in the neighborhood of 50 to 75 thousand dollars in cash, so we are talking about an operational account that went from somewhere around 150 to 175 thousand dollars. At various points in time there would be considerable sums in it and at various points in time there would be none in it.

"My recollection is that I got the traveler's checks in packages of less than \$10,000. I understand that others have remembered otherwise, but that is how I remember it.

"Those funds were used to support the operations that we were conducting. They were used to support the covert operation in Nicaragua, and then eventually were used to support other activities as well.

"The fact that I had those funds available was known to Mr. McFarlane, to Admiral Poindexter, to Director Casey, and eventually to Admiral Art Moreau over at the Pentagon. It also came to be

known to others, some of whom you have had testimony here.

"The funds were used initially only to support the Nicaraguan program, but eventually it was broadened to include other activities as well. Let me give you some examples.

"In the Nicaragua program, operational support was provided to a whole host of Nicaraguan Resistance leaders either directly by me from the fund or through couriers that I used to carry it out. Other resistance activities inside Nicaragua were supported of a less military nature in some cases. Europeans who helped us with both the public affairs aspect and the acquisition of other arms through a separate channel outside that, you have already heard about from General Secord or General Singlaub, were paid for out of this account.

"Money was mailed from this account to addresses in Caracas, San Jose, at the Tegucigalpa and San Salvador, among other places, to support activities inside Managua.

"The Indian movement, the Atlantic Coast Indian movement was supported from this account and meetings with the Atlantic Coast Indians, both the Misurasata and the Miskito movement itself, were supported from this account.

"And eventually the fund was used to support other activities, such as the DEA hostage recovery activity and the assistance of another European who[m] we have agreed not to talk about.

"What is important that you realize is that meticulous records were kept on all of this. I

NORTH'S CONTRA ACTIVITIES: TIMING THE CONTRA AID
VOTE

NORTH MEMO:

In preparing for submission of the Administration's aid proposal to Congress in April 1985, North seeks to coordinate the legislative initiative with the Contras' military activities so that successful and "visible" Contra military activities might favorably influence the decision by Congress on Contra aid. The military activities are timed to follow expiration of a peace proposal deadline set forth in the San Jose Declaration, a Contra peace initiative drafted by North and Contra leaders in a Miami hotel room (see 85/03/01-200).

When the Administration considers delaying submission of the aid proposal, North strongly recommends to McFarlane that the vote take place as originally scheduled. North writes:

"The deadline for substantive negotiations [in the San Jose Declaration] . . . was carefully chosen to ensure that the internal opposition

would have a specific date for their own planning purposes. Military operations were planned based on the expiration of the offer on April 20. . . . [A]n attack is scheduled for April 25. Based on my request Calero has agreed to postpone the attack for five days. The force which is being inserted to conduct this operation cannot be logistically supported in this area after May 5. The resupply situation will require that they be withdrawn after that date.

". . . .

"It is my belief that urging the resistance leaders (particularly Calero) to accept a major delay . . . will result in a breakdown of the unity we have achieved. [Calero] has only cooperated to date in the unity effort because he trusts the only persons in the U.S. Government who have supported the movement since October 1984--North and McFarlane."

CALERO'S BANK ACCOUNTS: MONEY FLOW
SUMMARY:

"Mr. BARBADORO. . . . The first chart [and Ex. AC 1] explains the flow of money through the Calero bank account. . . . Mr. Calero received a total of approximately \$33,600,000 in contributions. Of that \$33,600,000, \$32,000,000 was received from a foreign government which has

been identified in other testimony as Country Number Two. [See 85/02/00-800.]

"Mr. Calero also received \$200,000 from Lake Resources [see 85/10/00-040], \$1,045,000 from Intel Corporation, Inc. [see 85/02/00-800], and \$417,000 in miscellaneous deposits that the Committee has not yet been able to identify.

"[] Mr. Calero earned \$248,000 in interest on these deposits, and spent all but \$96,000 by January 1987. Approximately \$19,178,000 was spent on arms and ammunition, as Mr. Calero testified today [see 85/06/01-205], he paid roughly \$2 million to Gretch World and R&M Supply, costs associated with Ron Martin and James McCoy [see 85/04/11-220]; approximately \$11,350,000 was paid to Energy Resources, Mr. Secord's company [see 84/11/00-050]; and \$432,000 was paid to another arms company directly for one of the purchases made through General Secord.

"Finally, \$5.3 million was paid to associates of General Singlaub for arms and ammunition. [See 85/06/01-205.] Of the remaining money, the records show that approximately \$670,000 was paid to other contra factions by the FDN, and approximately \$14 million was paid for non-lethal supplies. [See 85/06/01-205.]

"The major recipient[s] of these non-lethal supplies have been testified about by Mr. Calero, and they are listed on the chart."

SUMMARY:

APRIL THROUGH
DECEMBER 1985

[Continuing from preceding entry:]

"[Mr. BARBADORO.] Mr. Chairman, the second chart I would like to explain concerns the traveler's checks that were cashed by Colonel North. Of the \$90,000 in blank traveler's checks that Mr. Calero testified he delivered to Colonel North, we have been able to identify approximately \$25,000 worth that were cashed by DEA agents or their associates.

"In addition, we have been able to identify \$2,440 worth of traveler's checks that were endorsed and cashed by Colonel North himself.

...

"Of the checks cashed by Colonel North, 340 were cashed at food stores between April 21, 1985 and July 2, 1985 for purchase totaling \$118.15.

"The balance was returned to Colonel North in cash. Another \$220 in traveler's checks were cashed by Colonel North at other retail establishments between May 7 and November 30, 1985. Since most stores do not retain receipts for more than a year, we were able to identify only what was purchased at National Tire Wholesalers.

"That \$100 traveler's check was applied towards a \$101 purchase of snow tires. The balance of the checks cashed by Colonel North, \$1,180 worth, were cashed and used at the businesses listed in the chart. There again, most of the institutions don't keep receipts for more than a year.

"Mr. Owen testified that Colonel North kept a

ledger in which he recorded that traveler's checks and their disposition. That ledger was not found at the NSC, nor is there any other record of which we are aware which provides an accounting for the traveler's checks that Colonel North received from Mr. Calero.

"Therefore, we have no information with respect to the reason for the use of the checks by Colonel North other than what appears on the checks themselves and in one case, the receipt from National Tire Wholesalers."

NORTH'S TRAVELER'S CHECKS: CASHED BY NORTH
NORTH ACCOUNT (THE OLD BUFFOON AT

PARKLANE HOSIERY):

"Every single one of those traveler's checks which bore my name [was] used by me to defray an actual operational expense as it happened. . . .

"

"Unlike the CIA, the NSC travel voucher system doesn't have a covert cover. We had one dickens of a time trying to protect my travel, and, as you undoubtedly know, gentlemen, I made an enormous amount of travel. The schedule was brutal, much of it was paid for out of that operational account.

"There were times when that account was down to zero. No money in it, I didn't have any traveler's checks, and I had handed out all the cash--not to myself, but to others. Under those circumstances, I would use my own money, Lieutenant Colonel Oliver North's paycheck money,

his own money that he had earned, and I would use it for an operational expense. I would, therefore, make a notation in the ledger, 'Spent \$250 on going to Atlanta to meet with somebody', and the next time I got cash or traveler's checks, I would use these checks to reimburse myself every single penny, and the checks that you saw that came to me [were] used to pay an operational expense on the scene or to reimburse myself. I never took a penny that didn't belong to me.

"Every single one of those checks--and I would also point out to you, Counsel, that you don't have them all, because by my own recognition and memory there were checks used in 1986, and the ones that you depicted earlier were only 1985. I used those traveler's checks right up until shortly before I was fired, but only for the purpose that you saw.

"I realize that this hearing is a difficult thing. Believe me, gentlemen, it is not as difficult for you as it is for a guy that has got to come up here and tell the truth, and that is what I am trying to do. I want to make it very clear that when you put up things like Parklane Hosier--and you all snicker at it--and you know that I have got a beautiful secretary and the good Lord gave her the gift of beauty, and that people snicker that Ollie North might have been doing a little hanky-panky with his secretary, Ollie North has been loyal to his wife since the day he married her, and the fact is I went to my best friend, and I asked her, 'Did I ever go to Parklane Hosier?' CONTRA FUNDING: SUMMARY

NORTH MEMO:

North memo McFarlane, titled "FDN Military Operations," summarizes Contra funding from July 1984 through April 9, 1985:

"Attached at Tab A is a summary analysis of how the FDN has expended funds which have been made available since USG funding expired in May 1984. From July 1984 through February 1985, the FDN received \$1M per month for a total of \$8M. From February 22 to April 9, 1985, an additional \$16.5M has been received for a grand total of \$24.5M.] Of this, \$17,145,594 has been expended for arms, munitions, combat operations, and support activities:

"--most expenditures have been for purchases of arms, ammunition, and other ordnance items;

" . . .

"Summary of Operations to Date

"The FDN has grown nearly twofold since the cut-off of USG funding. In this period, they have reoriented from conventional to guerrilla warfare tactics. Despite the lack of ANY internal staff organization (G-1, G-2, G-3, G-4) when the USG withdrew, the FDN has responded well to guidance

on how to build a staff. Although there was a basic lack of familiarity with how to conduct guerrilla-type operations, since July, all FDN commanders have been schooled in these techniques and all new recruits are now initiated in guerrilla warfare tactics before being committed to combat. In short, the FDN has well used the funds provided and has become an effective guerrilla army in less than a year.

"Future Operations

"plans call for remaining resources (\$7,354,000) to be used as follows:

"--increasing the force to a total of 25,000 by mid-Summer;

"--a major special operations attack against Sandino airport with the purpose of destroying the MI-24 helicopters and the Sandinista Air Force maintenance capability;

"--a major ground operation against the mines complex in the vicinity of Siuna, Bonanza, and La Rosita (Nicaragua)--the purpose of the operation is to secure the principal lines of communication in and out of Puerto Cabezas; and

"--the opening of a southern front along the [redacted] border which will distract EPS units currently committed to the northern front.

"It is apparent that the \$7M remaining will be insufficient to allow the resistance to advance beyond these limited objectives, unless there is a commitment for additional funds. The \$14M which the USG may be able to provide will help to defray base camp, training, and support expenses but will not significantly affect combat operations until

early Autumn due to lead-time requirements. Efforts should, therefore, be made to seek additional funds from the current donors (\$15-20M) which will allow the force to grow to 30-35,000. If a commitment for these funds is made between now and June 1985, supplies could be ordered in July, allowing the force to reach these levels by the end of October 1985.

"RECOMMENDATION

"That the current donors be approached to provide \$15-20M additional between now and June 1, 1985."

"Mr. MCFARLANE. That is correct."

"Mr. LIMAN. And the FDN was the Calero organization of the Nicaraguan resistance forces?"

"Mr. LIMAN. Did you ask the President of the United States to speak to the Head of State of that country to make sure that the contras' arms were released to them?

"Mr. MCFARLANE. "Ms. HALL. Yes, sir.

"Mr. BELNICK. That document is prepared on
April 11, 1985, and contained a discussion of FDN
military operations which had been made possible
by funding that had been provided through the
donors after the cut-off of American aid by
Congress.

"On page 2, Colonel North concludes that the
money on hand will be insufficient to enable the
resistance to grow to a larger force than it
achieved unless efforts were made to seek
additional funds of \$15 to \$20 million from the
current donors.

"By the way, Ms. Hall, did Colonel North ever

by the 'present donors' or the 'current donors' in
these memorand[al]?

"Ms. HALL. No, he didn't.

"Mr. BELNICK. In any event, Colonel North
recommends that those donors be approached for
more aid and on page 3 of the memo, that
recommendation is stated succinctly.

"He attaches to the memo a list of
expenditures and outlays by the resistance. Let's

compare that document, Exhibit 5, with Exhibit FH-5-A. And as we look at those pages, in general information that seems to have been acquired actively by Colonel North has been deleted and instead there are phrases such as according to information, they, the resistance, have given us, there is a more passive tense used when describing the type of knowledge that Colonel North had, but the most dramatic change on the document comes at the end. All references to the present donors or funding by the present donors have been deleted from the document and instead of making a recommendation that the current donors be approached for increased aid, the recommendation is that Congress be approached for increased aid.

"The specific recommendation then at the very end of the memo on page 3 is 'that you brief the President on the current situation and urge concerted action on immediate Congressional approval of a \$14 million CIA supplemental and a \$75- to \$100 million for the next fiscal year.'

"Again, you have checked the approval box on page 3 of that memo?

"Ms. HALL. Yes, sir.

"Mr. BELNICK. Now, . . . Exhibit [FH] 5-B is a memo dated May 1, 1985, containing the System 4 number 400453, which is another number that was on the McFarlane list; correct?

"Ms. HALL. Yes, sir.

"Mr. BELNICK. And from comparing it, although it is dated May 1, 1985, it appears to be the same as the altered version of the April document, namely Exhibit 4-A, correct? Or 5-A, I am sorry.

"Mr. BELNICK. And do you have any recollection of why the document was prepared with a date of May 1 as well as a date of April 11?

"Ms. HALL. I think--there's a possibility the memorandum went across the street and was revised or asked to be redone in May.

"Mr. BELNICK. But you have no specific recollection?

"Ms. HALL. No, I don't.

"Mr. BELNICK. And I should advise you, Mr. Chairman and members of the committee, that we have not at this point located a May 1, 1985, unaltered document. By that, I mean funds from private parties, from third countries. I can't recall specifically conversations with the President. . . .

"But let me just say that the President, I've always felt[,I was generally aware of the fact that the contras were receiving private sources of funds and funds from third countries." (Poindexter, Senate Dep., 5/2/87, at 52-53.)

"At some point in this early time period, when we were faced with how to support them [the contras], there was a concerted effort on the NSC staff and in other offices in the White House such as the Office of Public Liaison, Pat Buchanan's Communications Office, the -- probably the Legislative Affairs Office would have been involved in some of the discussions about how to energize private support in the United States for the contras. This was how to get the information about what was happening in Nicaragua out to the American people, get private groups organized to

contribute funds.

"I, frankly, don't recall that we really made any big distinction about how the funds would be used, whether they would be used for military assistance or humanitarian aid. I wasn't directly involved in many of those early discussions that took place; but in terms of hearing reports and secondhand information, my recollection at this point is not strong that we made a real distinction between how the assistance from private sources would be used.

"The President's view in general was that private support to the contras was an appropriate thing. I can recall conversations with him in which he recalled the other times in the history of the United States when private individuals had supported foreign conflicts before the U.S. Government would get involved. I can recall he would recall the Lincoln Brigade, the Lafayette Escadrille and other examples of where private American citizens provided support for a foreign conflict. He felt that that was entirely appropriate.

"So we worked on in that time period a general plan on how to energize the private sector. Various events were planned and set up where you would have private groups come into the White House. The Office of Public Liaison usually set these up. They would be briefed by a series of administration spokesmen and members of the NSC staff would often participate. Colonel North would talk to these groups sometimes. Constantine Menges, who worked in the NSC regional affairs

[o]ffice, would talk to them. We would get speakers from the State Department, the Defense Department, generally speaking, that were expert in the Latin American area.

"At one point we planned and executed the President's participation in a dinner for one of the outside organizations that was working to provide support to the democratic resistance.

"Then Colonel North often would go out and speak to assemblages of people that were pulled together; and as I generally understand -- I never participated in one of those groups just simply because[,] my whole time on the NSC staff, I have tried to maintain a low profile and also the press of other business.

"To put all this in context, of course, and I am sure you are aware, I was working on hundreds of other issues. This was an important part of the President's priorities, but not the only one. But anyway, the best I can explain what would happen in these outside private groups is that, for instance, with Colonel North's involvement, is that a group would be assembled by a private organization of some kind. He would go speak to them in terms of what was happening in Nicaragua, who the contras were, what their objectives were, and generally try to develop support and -- at least as reported by Colonel North to me -- I don't believe he ever directly solicited, but he would leave the podium and then the organizers of the private organization would do whatever soliciting took place.

"Now, since I have never attended any of

CONTRA FUNDING: PRESIDENT'S AWARENESS OF SOURCES
POINDEXTER DEPOSITION ACCOUNT, Part 1:

"Q. . . . Do you recall any Presidential addresses in which the President described Nicaragua as his number one priority at the time?

"A. I don't recall one specifically. I don't doubt that he did. It would be consistent with his position.

"Q. And is it fair to say that in your working with the President it was a matter of great interest of his, the support of the contras?

"A. I would phrase it a little differently.

"Q. Well, I'd like your phrasing.

"A. He felt that getting a democratic government in Nicaragua was a very important issue in terms of the long-term national security of the United States. He also felt that the way to do that was to keep pressure on the Sandinista government to do that. He felt the contras ought to be supported. But I would describe his priority as getting a democratic government in Nicaragua.

of Congress?

"A. Absolutely.

"Q. And he would even take the time to make notations of what their reactions were to his appeals?

"A. That was his standard procedure in terms of his conversations with Members of Congress.

"Q. Then can you tell me, given this concern of the President, whether you recall any discussions with the President of the United States during the period that you were the Deputy National Security Advisor about third country support?

"A. Well, as I testified on the second of May, I recall one specific incident, and that was while I was technically still the Deputy, when I came back from the one-day trip I made through Central America and my memory, of course, was refreshed because of my notes. But I did discuss with him then [redacted] support.

"Q. You mean --

"A. The air strip.

"Q. You discussed that?

"A. Yes. [See 85/12/09-040, -045, -050, -051, -060.] But, you see, normally in the 9:30 meetings with the President when I was the Deputy, I listened and seldom interjected anything of my own unless Mr. McFarlane specifically turned to me.

"Q. Well, let me make it clear I'm not asking you whether you said we ought to get third country support. I was asking you any conversations. Do you recall the President discussing it, McFarlane

discussing it in that period?

"A. There no doubt was. I simply don't have a recollection of it. We conceivably could have had an NSC or NSPG meeting on the subject.

"Q. Do you recall at any time during that period, which is a period when there was a total cutoff of aid by Congress, any position that the President expressed on whether aid should be sought from third countries?

"A. I just, Mr. Liman, simply don't have a recollection of it. That doesn't mean that it didn't come up. I just don't recall it. Conceivably my previous notes that I suppose you have access to could indicate that, but I don't remember. I haven't seen those notes.

"Q. I can assure you, Admiral Poindexter, I'm not holding back pieces of paper from you and that if your notes indicated I would show them to you []now. That's why I'm asking you for your recollection.

"A. No, I don't. As I said, it doesn't mean that they didn't occur, and just because they don't appear in my notes doesn't mean it doesn't occur.

"Q. But essentially from June of 1984, when money ran out, until August of 1985, when MHAO money was made available to the contras, the funding was coming from third countries?

"A. Um-hum.

"Q. Can you not recall a single occasion in which you were present where the President was told that?

"A. You see, that was not characteristic of
the President. That was a level of detail that as
long as he knew that they were being supported he
depended on us to follow, you know, how much money
they had, where it was coming from, and so that's
not something that, for instance, that I would

"Mr. McFarlane may have discussed it. I
simply don't recall it.

"Q. Well, how did you think he knew that they
were being supported?

"A. Well, as I said earlier, I was aware
because Mr. McFarlane told me that he had informed
the President of [redacted] contribution, and so
my understanding was that the President knew that.
And again because of the great sensitivity that we
attached to that, for the reasons that I have
described, it was important that it not be
discussed in front of a lot of people. In the
9:30 meetings that I attended as Deputy there were
always several people there.

"A. Well, in the end they both have the same effect.

"Q. Admiral, there's a difference in your mind, isn't there, between spending money for hand grenades and weapons and for an ad campaign?

"Q. But isn't it a fact that very, very sensitive secrets of state were discussed at these early morning briefings of the President?

"A. That's correct.

"Q. And without getting into what they were, I mean, can you not recall occasions when matters of even greater sensitivity than the fact that [redacted] is giving some money to the contras was discussed with the President in the presence of this little family group he has there?

"A. Now what's the specific question again?

"Q. Weren't there matters of even great[er] national sensitivity than [redacted] contribution discussed with the President at this security briefing he got every morning in the presence of his chief of staff?

"A. Well, again, you know, to answer that question you need to think about the philosophy as to why or the theory as to why leaks occur. If an issue is clearly of national security concern of the United States, like, oh, let's say, that we have a spy in [redacted] or something -- I'm not saying we do -- now that would clearly be recognized by everybody in that meeting as something that they should never say anything about.

"An issue like [redacted] contributing funds for Central America doesn't fall in that category. It's sensitive because of the sensitivity [redacted] have about it. It's sensitive from the standpoint that we don't want more restrictive legislation. But it's more a political issue, and those are the things that people sometimes like to reveal either intentionally or they do it unintentionally to indicate how in the know they are. And those things are very susceptible to leakage.

"And so that's why there was a big distinction, at least in my mind. I can't speak for Mr. McFarlane.

"Q. And when you say in your mind, that's why you assumed that he never discussed it insofar as you recall in your presence with the President?

85/04/19-100 COVERT ACTION: PRESIDENT'S AUTHORIZATION
APRIL 19, SCIARONI MEMO:
1985

Draft memorandum of Bretton Sciaroni entitled "The Legal Basis for Covert Action." Memo concludes the President, by virtue of his constitutional powers and caselaw precedent, can authorize covert action (including covert paramilitary operations).

In cover note on the memo, Sciaroni requests that North review the draft and give his comments. (JHICI Ex. BS 18; Sciaroni Testim., JHICI, 5/8/87.)

THE BERMUDEZ-SINGLAUB(-NORTH) WEAPONS LIST
SINGLAUB ACCOUNT:

After North approves Singlaub's weapons list, Singlaub and Calero meet with an arms dealer at the Sheraton-Carlton Hotel in Washington, D.C. Singlaub assures the dealer "that this list had the blessing of my contacts in the National Security Council." (Singlaub doesn't remember "whether I actually used Colonel North's name.")

The arms dealer gives prices which Calero considers "unusually low" for the arms. After the list "had been approved," Singlaub submits it to the arms dealer.

He and Calero then meet with North and Second at North's office. "[T]he primary subject was the need for air defense missiles ["SA-7, that is

They also discuss prices in North's office. Second's price for a set of SA-7s is \$180,000; Singlaub's arms dealer would charge \$165,000. Calero and North decide to go with Second since Singlaub is "unable to produce trainers to train in the use of these." Second's package is to include training as well as "find[ing] out what was going wrong with the missiles they already had in their possession."

Either at this meeting or at a later one with North, "we [antecedent unspecified] were asked if it would be possible to divert our ship to make a stop in another country to pick up some arms [previously purchased for the Contras by Second] that were hung up there." (Unproduced for the follow-up, Singlaub did not testify whether his ship diverted for Second's arms.)

Singlaub, at some unspecified time later, learns that, besides the SA-7s, Second has supplied other arms for the Contras. Second's prices, Calero tells Singlaub, are much higher than those of Singlaub's arms dealer. (Singlaub Testim., JHICI, 5/20/87, at 206-18. in May 1985 (for Ledeen's account of events leading up to the trip, see 85/04/00-120):

"A. . . . McFarlane told me formally to go and I informed him when the appointment had been scheduled and so forth. I strongly disagreed with the line in the Tower Commission that says Ledeen on his own initiative scheduled the meeting with Peres [see Tower Report, at B-5], since it was decidedly not on my own initiative; it was a result of an explicit approval from McFarlane down to the last detail of the conversation.

"So I went to Israel and met with Peres on the 4th, 5th, 6th of May, in this period. Just the two of us. No one else present in the room.

"Q. How long was your meeting with him?

"A. About 40, 45 minutes.

"Q. Was it a single meeting or did you meet with him on more than one occasion?

"A. On that trip, a single meeting. I met with him again on a later trip.

"Q. If you could just describe the substance then of your conversation with Mr. Peres?

"A. I said to him that we were interested in Iran and in Iran's role in international terrorism, and we felt frankly that our information was quite unsatisfactory. We did not have a good picture of these subjects and we did not have a good understanding of the Iranian situation over all. We had a poor picture of the internal situation and a poor picture of the way in which it operated internationally and that some people had suggested to us that Israel might be better informed.

"So my questions were two and a half in number: Number one was, do you people know anything about Iran, Iran's role in terrorism? Are you happy with you -- the state of your own information and understanding? If you are, is there some chance that you might be willing to share some or all of it with us so that we too could have a better understanding of it? And finally, sort of half a question: If at some date in the future we manage to understand these things better, do you have any bright ideas about useful things one could do with regard to Iran in a general sort of way?

"This was what I put to him. Now, I want to stress in light of most of what has been written that in that conversation, various subjects were never discussed. Contacts with Iran were not discussed. American hostages in Lebanon were not discussed. These were not on my agenda. They were not things we were looking for. Neither he nor I raised them. They never happened at all.

"His answer was a bit disappointing as to basically that he didn't think their information on Iran was particularly outstanding. He was unhappy with it. That while it might very well be better than ours and that would be understandable because they were a lot closer and they had been more active in all of this, basically they didn't have any great understanding of the situation. But that he thought it was important and that he would be delighted to work more closely with us to try to develop better information and better understanding and that, in fact, he would appoint

"Q. Do you recall anything significant happening on this trip?

"A. No. All I remember is conversations with Gazit which could have taken place in July.

"Anyway, the next documented trip is July. This comes as a result of a meeting with Schwimmer in the middle of the month. In the first half of July, I got a call from David Kimche, the director general of the Israeli Foreign Ministry. Given the structure of their Foreign Service, he is in essence the Deputy Foreign Minister of Israel.

"Mr. Woolsey. Is or was?

"The Witness. Was. He re[ti]rled a couple of months ago.

"I had known him for some years. I had gotten to know him, I guess, just before Reagan's election, or immediately thereafter, and he was the person to whom I reported in Israel when I traveled to Israel on behalf of [Alexander] Haig because my practice when dealing with the Socialist Parties in other countries was to talk to them and report generally on my conversations to a senior person at the Foreign Ministry in that country so the government wouldn't think the United States was somehow going behind its back in supporting or favoring their opponents in one

"Q. If you could tell us about that conversation you had with him [sc. Kimche] in early July?

"A. He called from Israel and said that a friend of his name[d] Al Schwimmer was coming to Washington and he would appreciate it if I could listen to what Al Schwimmer had to say. And a few days later, a person named Al Schwimmer did indeed call.

"Q. I take it you did not know Al Schwimmer prior to this time?

"A. I did not, no. He invited me to lunch.

"Q. I am sorry. Did Mr. Kimche tell you who Al Schwimmer was? Why he would be calling?

"A. No.

"Q. Just that he would be getting in touch with you and you should respond?

"A. Yes.

"Q. Okay.

"A. So Schwimmer came to Washington. This is the first half of July. And we had lunch together [see 85/07/11-010, -011] and Schwimmer told me

"A. In any case, the memorandum which I read for the first time when the Tower Commission was kind enough to show me a copy of it, had, in fact, Ghorbanifar's name in it and had I realized that at the time, I undoubtedly would have talked at some length to Shackley about Ghorbanifar when I got to know Ghorbanifar; but I didn't, and I didn't. Didn't read it, didn't realize it. And never discussed it with Shackley. So that's the answer to your question.

"It turns out I had heard something about Ghorbanifar, but wasn't aware it was Ghorbanifar about whom I had heard.

"Q. Right.

"A. So Schwimmer told me all these things about Ghorbanifar. He gave to me what I believe is called the Khashoggi document, that is the -- as I read it, about a 40-page report in three or more sections, of which one section dealt with Iran. The section on Iran, Schwimmer told me had been written by Ghorbanifar and that he and other Israelis found that section particularly interesting.

"So I reported on this luncheon meeting to McFarlane and gave him that middle section, the section that Ghorbanifar had written about Iran after reading it several times quite carefully.

"Q. Let me make sure I am clear. Did Mr. Schwimmer have an official position in the Israeli Government at this time?

"A. No, he didn't. He had -- well, maybe I shouldn't be so quick to say no. He had some kind of advisory position to Peres. That is, he had a

"I expect that it will be discovered at a certain point that the Israelis had a very clear definition of my role from McFarlane as well as from me. I expect this will also be borne out in time when they finally respond to all these questions.

"Q. Did you report on the luncheon with Schwimmer to anyone other than McFarlane?

"A. No, I don't think so. There is a thing in the Tower Commission which says that I gave a short note on it to Wilma Ha[l]l, who was McFarlane's secretary, and that she may have given it to Admiral Poindexter, so it may have gone originally from Wilma to Admiral Poindexter to McFarlane, but the note in any case, if it was a note, which I don't remember but could very well have taken place, the note would have been addressed to McFarlane and she would have passed it to Poindexter. [See Tower Report, at B-16 n.10.]

"In any case, McFarlane said, Go ahead and talk to this guy and let's see what happens. I got to Israel around about the 16th or 17th or 18th of July, and met fairly quickly with Kimche and discovered at that point that Gazit's basic working group was Gazit, Kimche, Schwimmer and a chap named Jacob [sic (Yaacov)] Nimrodi, who had been for many years the Israeli military attache in Teheran and who spoke Farsi, which was handy

because as things developed, we had the need for someone who spoke Farsi, and Nimrodi served as the Farsi speaker and was able to check on the way Ghorbanifar was translating conversations, conversations he would hold on the telephone in Farsi and so forth.

"Q. Had you met Nimrodi before?

"A. Never met him before.

"Q. Did he have a position inside the government?

- "A. I discussed the inadequate information that the Government of the United States had about Iran, and about Iran's role in international terrorism. And I asked him if he felt that Israel had a satisfactory understanding of that situation. He said no, but that he agreed that it was an important matter and he proposed to create a study group, or whatever you care to call it, who would try to pull together what Israel knew about Iran, so that we could compare notes and try to achieve a better understanding together.

"Mr. NIELDS. Just to make it clear, I am asking you about did you ever hear adverse reports or did you ever entertain suspicions that you weren't getting the straight facts from General Secord about the way he was handling the pricing of arms to the contras?

"Mr. NORTH. No. I did hear a report from someone in Central America that General Secord was overcharging on the arms that he delivered to the resistance, and I sought at that point in time a price list from him and compared those prices to those that others had gotten. Some were higher, some were lower, and I believe at the time I talked to Adolfo Calero about it, who was at that time the principal recipient of the arms from General Secord.

"I don't recall--you had a very competitive environment down there. Once the U.S. Government withdrew in '84 from directly supporting the resistance, you ended up with a lot of folks out there running a very cut-throat business.

"There were two particular transactions or dealers that raised great concerns with Director Casey. One of them was a transaction of some five to six million dollars from a broker who he was concerned had also been involved in reverse technology transfer to the Eastern Bloc, and he told me to do everything possible to discourage further purchases.

"The other one was a so-called warehouse operation that was being run in a Central American country that the agency and Director Casey in particular [were] very concerned about the source

of their monies and the fact that this enormous warehouse of several millions of dollars worth of ordnance had been stocked up in that Central American country and the potential adverse consequences, and at one point he apprised me that he was concerned that that Central American country might have diverted USF monies, U.S. economic support funds, to the military to purchase the arms that went in that warehouse.

"So he told me that there shouldn't be any further transactions with that broker until such time as he resolved or they were able to resolve where those came from.

"I then talked to Mr. Calero and I talked to General Secord, that they should avoid those transactions.

"My sense is that as a consequence of the advice I got from the Director to withdraw from dealing with those two dealers, that a lot of people started putting out very hard words about General Secord, and I think a lot of that was brought up here to Washington, I think it was made available to certain Members of Congress, and I think that is where a lot of the adverse publicity came from."

HALL ACCOUNT:

"Mr. BELNICK. . . . During the course of our work, however, we came upon another document you will recall that we showed you which appears also to have been altered; is that correct?

"Ms. HALL. Yes, sir.

"Mr. BELNICK. Would you look then at Exhibit

"Exhibit 6 is a document dated May 31, 1985, system number 400564, which does not appear on the McFarlane handwritten list entitled 'The Nicaraguan resistance: Near term outlook,' from North to McFarlane. It contains a description by North of how the Nicaraguan resistance is doing at that time and what its prospects are.

"On the last page of the document, directly before the recommendation, the sentence appears, 'The only portion of current activity which will be sustained as it has since last June, will be the delivery of lethal supplies.'

[FH] 6-A?

"It bears the same System 4 security number, the same date, and you will notice that the first page is on the letterhead that was in use in 1985 but not in 1986, correct, Miss Hall?

"MS. HALL. Yes, sir.

"Mr. BELNICK. We have compared it. The first two pages of Exhibit 6-A are identical to the first two pages of Exhibit 6. The changes come on the last page, and the striking change on the last page is that the sentence which I read which refers to lethal assistance has been deleted, correct?

"MS. HALL. Yes, sir.

"Mr. BELNICK. And there is also a sentence higher on the page in the first full paragraph which has been changed. On the original of the document, that sentence refers to a series of meetings with Rivera and his representatives and subsequent meetings with another contra leader named Steadman Fagoth.

"In 6-A the reference is simply to a series of meetings with Steadman Fagoth, but nothing to do with the meeting with Rivera, correct?

"MS. HALL. Yes, sir.

"Mr. BELNICK. Do you have any recollection, Miss Hall, when you revised this document?

"MS. HALL. I don't have an independent recollection, but I know from our talks that I think we have determined that it was probably done in '85 when the letterhead was still in existence.

"Mr. BELNICK. And I've refreshed you with Mr. McFarlane's testimony, the May 11 transcript, in

which he described reviewing various documents with Colonel North in the late fall or--the late summer or early fall of 1985 in connection with the Congressional inquiries, right?

"Ms. HALL. Yes, sir.

"Mr. BELNICK. And he was describing, talking to Colonel North about the documents being unclear and Colonel North's intent might be misread, and Mr. McFarlane testified that he--Colonel

North--just said you are misreading my intent and I can make it reflect what I have said if this is ambiguous to you, and I--that is, Mr. McFarlane--said all right, do that. Continuing, within the matter of a day or two, he--Colonel North--returned to my office and he had two single pages. One of them was the same text, or close to it, of the first page of the memorandum. [See 85/08/16-200.]

"As far as we have been able to tell, Miss Hall, the first page of 6-A is the same as the first page of 6?

"Ms. HALL. Yes.

"Mr. BELNICK. Mr. McFarlane continued that the other piece of paper Mr. North returned with was the last page of a memorandum and the last page of 6A is where we found the changes; correct?

"Ms. HALL. Yes, sir.

"Mr. BELNICK. So from hearing that testimony, your general recollection, although you don't recall independently, is that this document probably was changed around the fall of 1985 or sometime thereafter?

"Ms. HALL. Yes, sir.

OWEN'S CONTRA ACTIVITIES: WEAPONS PROCUREMENT
OWEN ACCOUNT:

Robert Owen flies to Denver and drives to Tabernash to meet with Gen. Singlaub. Owen is unsure whether North requested that he go; Owen did discuss the trip in advance with North, however.

The day after Owen arrives, he meets for most of a day at Singlaub's home with 4 or 5 people, including "Robert K. Brown, a soldier of fortune, Ed Deerborne, and several other people from Soldier of Fortune." Barbara Studley, "basically acting as a facilitator," is also present. They discuss weapons procurement for the Contras. "They were talking about over \$5 million to be purchased and [Singlaub] wanted to be sure that he

was purchasing exactly what Adolfo Calero needed.
 . . . They were talking about purchasing 10,000
 AK-47s, a million rounds of AK ammunition, hand
 grenades, mortar rounds, things like that.
 . . . General Singlaub thought that he had an
 opportunity to buy some SA-7s, ground-to-air
 anti-aircraft missiles." (Owen Testim., JHICI,

OWEN'S AND NORTH'S CONTRA ACTIVITIES: WEAPONS

PROCUREMENT

OWEN ACCOUNT:

Owen goes directly from the Singlaub meeting
 near Denver to San Francisco to meet Calero.
 Calero has several meetings and speaking
 engagements and is very busy. He meets with Owen
 in the back seat of his car while Calero is making
 a delivery. Owen has a yellow pad with a
 munitions list he has brought from the Singlaub
 meeting. They review it to verify for Singlaub
 precisely what is needed.

About 20 minutes into the ride, they pull over
 at a pay phone. Owen calls North at (Owen
 believes) his OEOB office. Owen speaks with North
 for about a minute, and then Calero and North "in
 guarded language without going into specifics
 . . . over an open line" discuss the weapons
 purchases. Owen (apparently later) calls Singlaub
 and gives him a coded list of the final figures.

A day or 2 later, Owen discusses with North
 what is to be purchased. North agrees with
 Calero's view: Blowpipes, if they can be acquired
 from a third country, would be preferable to

"Mr. North. Support. Indians.

"Mr. Liman. I wonder if you can explain what that was? Were you meeting with someone at the CIA and talking about how you continued to handle logistics support after the new law came in?

"Mr. North. I think that is what it is. I am trying to remember where we stood in legislation at the time, counsel, but it also looks like it says, 'meeting with Moreau.'

"Moreau would be Admiral Moreau, and these were probably the subjects of our discussions. It looks to me like we are talking about the legislation we were expecting or just had passed, whatever would allow the CIA to get back in the game.

After two or three meetings with DEA officer and corroborating their information back through DEA, the FBI and CIA, they did indeed have contacts in Lebanon [redacted.] We then proceeded with permission and with the Attorney General's consent, to set up an operation using DEA assets to collect information and if possible to bribe hostages free.

"We used several hundred thousands out of the account to my recollection. When I say the account, the operational account I managed, as well as separate funds directly from General Secord. General Secord met with them, provided operational support to them overseas. I provided funds to them under the operational account I described to you yesterday.

"The operation culminated, the first phase of it, if you will, culminated in an effort at about the time we were in Tehran, and it fell apart at the last minute. It also involved the use of up to \$2 million worth of money, \$2 million -- money appeared from Mr. Perot. I contacted Mr. Perot for that purpose.

"He volunteered it, was willing to put up more, and that money was to be used as bribes. Some wish to call it ransom -- there is no point in my lodging debate here with you tonight. I will tell you the President felt very strongly about it.

Now, it may not always be arms. It may not be pre-emptive attack. It may be negotiation. It may be bribing, but you can be goddamned sure if any Israeli is caught, he's going to have his government going after people who did it. Now, that is to be a differentiated approach.

"Now, I don't pretend that in the United States we can pursue that. The reason we cannot is because we must have a policy at all times compatible with American values. And I agree to that. But I believe that our government must have

[redacted] and I am not an expert, but I guess I know a little bit, is what you have read. You open a dialogue with the hostage holders no matter how rotten they are. You find the bad guys, and you start talking to them. It was evident in the early '70s and became accepted and called by us, who were in the government, the Kissinger position, that you would never trade for hostages, but you would always talk and talk and talk.

"Beginning in 1984, when the great burst of early hostages were taken, Mr. Levin, Mr. Anders[ohn], Mr. Jacobsen, Mr. Sutherland, Bill Buckley, the original hostage crowd, we began to receive feelers. It is a brutal, ugly story, but people were selling information, selling hostages, selling their rings, selling their clothes, selling letters from them trying to make money out of the hostage business.

"Our position was, is, and I think should be to follow up on everything. This does not mean ransoming hostages, this means trying to find out who[m] you are dealing with, does this person know something? This was sort of a hit and miss activity inside the United States Government and everybody was running around doing their thing until late '84 when it was decided to establish the hostage locating, location task force.

Richard Miller, is that correct?

"Mr. North. If I recall correctly, Senator, the guy came up on the net. His name showed up as a consequence of a call from a character in New York and there were two things that this guy indicated he could help with. One was the American hostages and second of all, was funding for the Nicaraguan resistance.

"I put him in touch with Miller. I had never met with the man, but Miller was basically his case officer.

"Mr. Mitchell. My first question is, did his initial offer of assistance include both contributions to the contra effort and assistance with the hostage effort or were those sequential so that the initial request was merely to aid the contras and the suggested assistance with respect to hostages occurred at some later point in time?

"Mr. North. I honestly don't recall. My recollection at this moment, Senator, is they were simultaneous uses, but I honestly don't remember. I know both became a big fuzzed up mess, with this guy whom[] we eventually turned over the FBI, I would point out. I did.

"Mr. Mitchell. But you did request one of them to go to London to facilitate the travel of the fake prince?

"Mr. North. Yes, I did. And I -- again, I don't want to be too specific, because I don't want to be wrong, but I know that I asked one of them to meet with this guy and he did. I think on a number of occasions. And I believe that at one point they facilitated his movement in, I think,

| | | | "Mr. North. I don't know so much as that it was a matter of deferring. I didn't want to interfere with the FBI investigation. In fact, I described what this guy -- again I am trying to remember something that was a long time ago, but my recollection is that we talked. I told the FBI who[m] I had in touch with him, what the guy -- Miller in this case -- what his real role was. |
| | | | "Mr. Mitchell. What was the purpose of your calling the FBI in connection with that?" |
| | | | "Mr. North. I was concerned about this guy. I had called the FBI several times as I often did. When a name would show up on my scanner as somebody who could do something to help the Government of the United States, and I didn't know who he was, almost inevitably I called the FBI and I asked for what is euphemistically referred to as a name check. Does this guy show up as a bad guy?" |

"Mr. Mitchell. In the course of the conversation, did you tell the FBI agent that you had spoken personally with President Reagan about this matter?

"Mr. North. I don't believe I would have told him it was about the resistance. I think I would have told him about the hostage recovery, because I prepared a number of reports to the President, sent up the line to the President, and on occasion, I did brief the President on the status of various hostage recovery actions.

"So, if I said that to the FBI agent, I was not referring, I don't think, to the contra effort.

"Mr. Mitchell. Did you tell the FBI agent you had spoken personally to the President in an effort to lend weight to your request to get the FBI to delay the investigation of the fake Saudi prince?

"Mr. North. I don't think so. I mean -- I really -- again, I am having a difficult time recollecting the events. There were several discussions I had with the FBI about this guy. One of them may well have been designed to at least defer or delay the investigation. I did the same thing as I admitted yesterday with Southern Air Transport to delay that investigation, not as an effort to cover anything up, but simply to allow other things to happen before the prosecution commenced.

"Mr. Mitchell. Just so I can understand your answer --

WEINBERGER ACCOUNT:

"Mr. EGGLESTON. Let me direct your attention to Exhibit [CWW] 4, which is the draft NSDD. Let me ask you to tell us generally what a National Security Decision Directive is. What is its purpose?

"Secretary WEINBERGER. This is a document of some formality and it is issued by the President and it covers rather detailed description of our policy, our strategy, our plans that we will be pursuing in connection with usually a broad issue of some national significance.

"Mr. EGGLESTON. And this is a NSDD draft that related to a change in the U.S. Government policy relating to Iran; is that correct?

"Secretary WEINBERGER. Yes.

"Mr. EGGLESTON. Your comments about it are reflected on the front page. I think this indicates that you saw it on or about June 18, 1985.

"Mr. EGGLESTON. Could you read from the front page what . . . your comments are?

"Secretary WEINBERGER. Well, I commented that, 'this is almost too absurd to comment on. By all means, pass it on to Rich.'

"This was a note to General Powell, who had sent the memorandum to me. He said, '[S]hould I send it to Rich Armitage for analysis?'

"I said, '[[I]t is almost too absurd to comment on, but by all means pass it on to Rich.'

"The assumption here is that Iran is about to fall, and two, that we can deal with them on a rational basis. It is like asking Qadhafi over for a cozy lunch.

"Mr. EGGLESTON. With that as your conclusion, could you describe what you perceived as the purpose of this NSDD and what your specific objections to it were?

"Secretary WEINBERGER. The NSDD contemplated, as you said, a shift in the policy that would have us favor Iran rather than trying to maintain a neutral position. It talked about the desirability of an opening to Iran.

"It talked about a time after Khomeini was no longer leading the country, and it talked about numbers of ways in which this might be done.

"And I put in first that comment that I have just read at your request, and then later on a memorandum, a somewhat more formal memorandum back constituting the comments of mine that had been requested and--

5. "Secretary WEINBERGER. All right, sir. Yes, sir.

"Mr. EGGLESTON. Could you describe for us specifically what you thought was wrong about this NSDD?

"Secretary WEINBERGER. Well, the fact that it discussed the possibility of sending arms to Iran at a time when our efforts were being made all around the world to try to prevent other nations from shipping arms to Iran. I think I said in my response here that under no circumstances should we now ease our restrictions on sales to Iran, attempting to cut off arms while remaining neutral on sales to either belligerent--is one of the few ways we have to protect our longer range interests in both Iran and Iraq. A policy reversal would be seen as inexplicably inconsistent by those nations whom we have urged to refrain from such sales and would likely lead to increased arms sales by them and a possible alteration of the strategic balance in favor of Iran while Khamenei [sic] is still the controlling influence. There were other reasons, of course, too.

"I didn't think that the assumptions on which the proposed NSDD were based were valid. I didn't think there were any moderates still alive in Iran, and I thought that it would be not possible to work out an arrangement with the present government there, and I still think that is correct.

"Mr. EGGLESTON. I take it then, Mr.

Casey has his assistant call North's office to arrange a meeting. Coors goes right from the meeting with Casey over to meet with North. Coors tells North he is interested in contributing to the Contras. Coors testified, "He was very anxious to provide me with an area where he thought I could be of most help."

North tells Coors the Contras need a Maule airplane. He shows Coors a Maule brochure and tells him the price "with all spare parts and special implementation" is \$65,000. He tells Coors he can make the payment "in any number of ways, but he suggested the possibility of a bank transfer to a Swiss bank account." Coors takes the suggestion.

North gives Coors a paper with the number of a Swiss bank account -- a Lake Resources Inc. account, number 386 430-22-1 at Credit Suisse Bank. On August 20, 1985, Coors arranges for the transfer of \$65,000 to the Lake Resources account.

Coors later contacts North to inform him of the contribution: "I had made it quite clear to him that I didn't want to get involved in any military assistance to the Freedom Fighters, that I wanted to do it on a humanitarian, non-military basis, and he indicated that this plane would fit into that pattern, and so we went ahead on that

SINGLAUB ACCOUNT:

On June 20, 1985, the arms shipment agreed upon by North, Singlaub and Calero (from the list put together by Singlaub and Bermudez, with North's changes) "leave[s] for international waters" carrying "East Bloc manufactured weapons."

Calero has by then indicated to Singlaub that he has \$5.3 million available to pay for the weapons. The order list, then, was "tailored . . . to fit within those parameters," including shipping and insurance costs. Calero is to have the funds transferred "to an account designated by the arms dealer in Switzerland, and when those were received in that bank, then action was taken by the shipper to load the ship and send it to the destination we designated."

On July 8, 1985, the shipment arrives for the FDN at a designated port, consigned to a senior military official in that country. The official had been designated by his government "to be the official point of contact in that country with the Nicaraguan democratic resistance." In his place, he sends Mario Delamico. (Asked whether he knows that for a fact, Singlaub testified, "He held himself out Somebody had to tell him when the ship was arriving."). NORTH'S CONTRA ACTIVITIES: CONTACT WITH

COUNTRY 3

SIGUR ACCOUNT:

Oliver North asks Gaston Sigur to contact the U.S. resident representative of Country 3 to ask whether his Far Eastern country would contribute to the Contras. North says that he and McFarlane understand that this country might be interested in giving some "financial assistance in the humanitarian area to the contras." Sigur asks North, "[N]ow, everything here is quite legal?" North replies, "[O]h yes, we have checked all that out and there is no question about that." North says he has checked with lawyers, but he does not

specify which ones, nor does Sigur ask. Sigur takes North's assurance "on face value." The conversation occurs at the NSC offices with no one else present.

Sigur later meets over breakfast with the Country 3 representative to relay the request. Sigur does not mention any specific amount of money. The representative says "he would have to go back to his home government on it. He gave . . . some indication that perhaps there had been perhaps some conversation of some kind about this sometime in the past, that his government would only be able to do this by providing funds directly to the United States Government."

Sigur goes to see McFarlane "probably the same day." He tells McFarlane about his meeting with the Country 3 official, and that the official "had said that any funds would have to be channeled, he thought, channeled through the United States Government. Mr. McFarlane's response to that was that this is not possible, that that cannot be done, and so I [sc. Sigur] saw that as the end of that, and I told Colonel North about it." North doesn't "say much of anything at the time. But then a week or ten days or two weeks later he came back to me [sc. Sigur] and asked if I would arrange for him to meet with that particular individual from Country [3]." (Sigur Testim., JHICI, 5/14/87, at 104-14; see also id., at 114-16 [later meeting between North and the Country 3 official, and Sigur's awareness, weeks later, that Country 3 had decided to give \$1 million in humanitarian assistance to the Contras]; id., at

CONTRA FUND-RAISING: CONTACT WITH COUNTRY 3
MCFARLANE ACCOUNT:

McFarlane testified on his reaction to the Country 2 contributions (see entries starting at 84/05/00-200, 85/02/00-390), and on Gaston Sigur's report to him of Country 3's interest in aiding the Contas:

"Mr. LIMAN. Were you uncomfortable about receiving the money from a third country?

"Mr. MCFARLANE. Well, I believe strongly that we could not and should not expect to sustain the policy with this kind of support and that this had to be the last time.

"Mr. LIMAN. Were you uncomfortable that you might be creating some implicit guid for a quo?

"Mr. MCFARLANE. Yes. You always have to consider what is it that you may invite by way of reciprocal gesture or concession, what obligation do you incur for having had some contribution of this kind. Yes.

"Mr. LIMAN. And as I understand the line that you were drawing, you couldn't come right out and say, 'I want a contribution.' Am I correct? That would be a solicitation.

"Mr. MCFARLANE. That is correct.

"Mr. LIMAN. But you could express the concerns about the fact that the contras were running out of funds?

"Mr. MCFARLANE. That is correct.

"Mr. LIMAN. And if in response to those

concerns the foreign leader offered the money, you could tell him where to deposit it?

"Mr. MCFARLANE. Well, of course, when it was legal the previous summer, he would have known that.

"Mr. LIMAN. But you could tell him thank you when he offered it in February?

"Mr. MCFARLANE. Yes.

"Mr. LIMAN. And it was that kind of line that you found you had to walk in order to keep the contras going?

"Mr. MCFARLANE. That is correct.

"Mr. LIMAN. Now, apart from the money that you received, or the contras received, from Country Two, did you have any discussion with any member of your staff about their efforts to receive or raise contributions from any other countries?

"Mr. MCFARLANE. Well, I have seen a memorandum which makes an account of a report to me by one of my subordinate staff officers of a conversation he had had with a Country Three official, and apparently the issue of any interest on Country Three's part for contributing to the contras came up, and that he reported this to me, and I am a little hazy on the results, but I do know that I was very firm in saying to him absolutely no participation by you or any other staff member in any kind of approach to this country.

"If they want to make a gift, that is their business and they must do it bilaterally themselves, not with us.

85/07/00-010 SECOND'S FORSWORN PROFITS

DURING THE HAKIM ACCOUNT:

FIRST HALF OF Hakim dated Second's renunciation of his
1986 (NOT enterprise profits months after the mid-1985 date
MID-1985) asserted by Second:

"MR. NIELDS. Your capital account is in your
own name and General Secord's is in the name of
Korel Assets. What was the reason for that?

"MR. HAKIM. Actually, two reasons. Once you
have the money in a corporation, it is easier for
a fiduciary company such as CSF to manage it.

"They have--the directors of the companies are
close to them and they can move the monies for
higher profits as the occasion arises.

"And the second reason is to eliminate
personal contact to those funds.

"MR. NIELDS. So that General Secord's name
would not be connected with the money?

"MR. HAKIM. That was my recommendation and he
accepted that.

"MR. NIELDS. Did there come a time when
General Secord . . . in some fashion or another
renounced his interest in the profits from the
contra arms sales?

"MR. HAKIM. Yes, it did occur.

"MR. NIELDS. When was that?

"MR. HAKIM. To the best of my recollection it
was during the first half of 1986, if I am not
mistaken.

"MR. NIELDS. And what did he say?

"Mr. HAKIM. I should explain--it occurred at a time that we were caught between both projects. That is why I think it was in early 1986, both the Nicaraguan and the Iranian projects were going through very tense moments, and General Secord was not happy with the efficiency of the support that he was getting from the government, and he had never, in my opinion, even through to this date, divorced himself from the government, and he said that he still got energy left and he should go back to the government and try to straighten things out.

"Therefore he doesn't want to have any attachment to this money that may make it difficult for him to go back to the government.

"Mr. NIELDS. But I take it you continued nonetheless to put the money in the Korel capital account for him?

"Mr. HAKIM. I continued to do that basically with the rationale that I knew there was no offer to General Secord at least as much as I knew, to go back to the government, and I was not quite sure if that would occur or not, so I did not change my pattern. I continued as before.

"Mr. NIELDS. I think the record should reflect that unlike some of these other accounts we have been able to determine no withdrawals from the Korel assets account as of this date." (Hakim Testim., JHICI, 6/3/87, at 261-62.)

"Mr. McFARLANE. I heard that today, I believe, and I am not familiar with it. I don't recall that my permission or North's was asked. It is true that I was conscious that Colonel North did travel periodically to Miami for meetings with the contras.

"In fact, I think that is probably where the San Jose Declaration was written, and that is good. Whether or not one of those was cast as a meeting for political topics in June 1985, I don't know, but a request to me for authorization to go down and to organize the contras on resupply efforts, I do not recall whatsoever."

Colonel North, that he was a little concerned about the way the contras were handling funds and the wisdom of some of their decisions.

"Q. Did he mention any?

"A. I can't recall anything specific. The thing, I guess, that stands out the biggest was that there was still a lot of internal disagreement with the contra leadership amongst themselves and Colonel North worked very hard to bring them around to a consolidated viewpoint.

"Q. Did he tell you that as a result of his concern about how the contras were husbanding their money that he had asked Secord to step in?

"A. As I said, at some point -- and I assume it was '85 but I can't really place it in a time frame connected with any other event -- I was aware that Dick Secord was going to essentially set up and run a private logistics organization.

"Q. And did you realize that money that was being raised for the contras by North or with his assistance would then be channeled to Secord's organization?

"A. I don't think I really understood that. It would not have been surprising or inconsistent, but, you know, trying to recall that time period I don't think that was absolutely clear.

"Q. For example, Admiral, you testified last time that --

"A. See, I never really got involved much in the details of the financing or how the money was moving.

Abrams had a discussion with you as to how the money should be channeled.

"A. That's my recollection.

"Q. And you told him to speak to North?

"A. That's my recollection.

"Q. Did you have an understanding as to whether North was going to have them send the money to Calero or to this private network headed by Secord?

"A. I don't think I really made that kind of distinction.

"Q. Did you ever tell the President of the United States that Secord, at the request of North, had undertaken this logistics operation for the contras?

"A. As I think I testified on the second of May, I can recall at one point a specific conversation with the President in which I told him that Dick Secord was a great patriot and had been very helpful. I can't recall whether when I said that that it was in both the context of contra support and Iran or whether it was just Iran. [See 85/12/09-040.]

"But again that would have been a level of detail that I really wouldn't have bothered the President with.

"Q. But there had to be some context to even that remark to the President. I mean, you wouldn't just say to the President X is a patriot.

"A. But, see, what I can't remember, Mr. Liman, is whether that was in the context of briefing him on contras or on Iran. I just don't remember."

"Mr. MCFARLANE. When I heard that testimony I did recall that Colonel North discussed with me whether or not it would be worth[]while for a Southern Front to be opened by the contras. That was manifestly in the interest of the contras, if they could do it and bring it off to do that, so there wasn't a serious matter of argument on that score.

"With regard to having Ambassador Tambs involved with it, I am not sure what that would be. Surely Ambassador Tambs was not to be the man in the field that somehow organized the effort and supported it. My recollection is that the limit of the exchange was on whether or not the contras opening a Southern Front was a good idea, and I said if they can do it that's fine.

As it is my understanding of the Boland Amendment, it forbade use of appropriated U.S. Government funds to aid the freedom fighters, and any aid in opening a southern front would come from what we casually called 'private, patriotic Americans,' and obviously, neither I nor anyone in that mission, as far as I was concerned, was going to violate the law.

"But if private individuals were going to aid the freedom fighters, that certainly was their business."

"A. Well, I think Elliott.

"Q. Did there come a time, then, that you or Don Gregg went to the Vice President and said: We, the senior advisors to the Vice President, are being refused admission to the RIG on Central America?

"Q. Let's go back to the RIG. Elliott Abrams chaired the RIG. Who did you understand was on the RIG aside from Chairman Abrams?

"A. I got the impression that it was [redacted] and Ollie North.

"Q. Anyone else?

"A. Not that I know of.

"Q. From where did you get the information that it was the three of them?

"A. Because it was at a SIG on Nicaraguan humanitarian assistance, Elliott would say to, or [redacted] would say, we'll talk about it at the RIG, to [redacted] or to Ollie North, something like that. So I knew that at least they were on it.

"Q. Did anyone ever tell you that it was the three of those persons who comprised the RIG?

"Q. Who chaired the SIG meetings?

"A. Usually Mike Armacost.

"Q. Did you ever complain to Armacost that Abrams wasn't letting you into the RIG meetings?

"A. No.

"Q. Did you ever tell anyone on the seventh floor of the State Department that that was happening to you?

It did exist, and continues to exist.

"Q. Okay. To your recollection, during the period of time from late 1985 and throughout most of 1986, was there a smaller informal working group that, within the RIG, that dealt with matters concerning the Contras composed of Oliver North from the NSC usually, Secretary Abrams from State Department, and the Central American Task Force director for the CIA; do you recall such an informal subgrouping meeting off and on during that time period to discuss--

"A. It is true that those individuals and often one or two others would meet on various issues on an informal basis, not a scheduled kind of meeting. But they did meet, those three plus others on an informal basis periodically, that is true.

"Q. There were several times it was in fact just those three that would meet; isn't that correct?

"A. That would be true, too.

"Q. All right. And when you say a few others on occasions, who would be the others that might join this particular informal grouping?

"A. Occasionally Deputy Assistant Secretary Walker, occasionally Deputy Assistant Secretary James Mich[?]el.

"Q. Okay. But usually those three in particular would be present; isn't that correct?

"A. Yes, maybe -- that is right, yes. I would say generally, Ray Burghardt from the NSC might be there sometimes.

"A. Yes, I would say that is true. The other members of the RIG, you mean?

"Q. Yes.

"A. Yes, that is true.

". . . .

"[A.] Could I add one thing. I was not a member of these groups, so I am giving you information based on my observations, but not as a participant in the meetings, either the meetings of the RIG or the informal meeting.

"Q. Right. I understand that. You were not personally present at these meetings but . . . you would know when meetings were being held and you could see generally who was participating in those meetings?

"A. In a general sense, my office is on the fourth floor and Assistant Secretary Abrams' office is on the sixth floor. And very often a meeting might take place before or after a regularly scheduled RIG meeting, so since I was not participating in the RIG, I wouldn't be in a position to know how frequently these meetings

"What is your understanding of the limitations on the ability of a RIG to make policy decisions?

"Secretary SHULTZ. Well, that interagency group was basically a coordinating group on the conduct of our Central American policy chaired by Elliot[t] Abrams, and it was more of a tactful sort. There were other potential meetings,

"Mr. BOLAND. Now, if the RIG had reached any conclusion on the advisability of opening a southern military front in Nicaragua, would you have expected to have been informed about it by your representative on the RIG?

"Secretary SHULTZ. Well, major policy changes or developments would presumably be discussed either in the course of the normal activity and interaction or in somewhat more formal meetings.

"Mr. BOLAND. And, to your knowledge, did Ambassador Tambs ever question a representative of your Department about the authorization for the instructions given to him by Colonel North?

"Secretary SHULTZ. Not to my knowledge. I write a letter to each ambassador, and I have been particularly conscious of doing so for the last few years, that has an explicit paragraph in it about the chain of command, and who it is that an ambassador should take his instructions from. And that goes from the President to me and through the assistant Secretary of the region involved to the ambassador."

couldn't order him what to do. In a RIG setting like that, what is it you are supposed to do? Are you your brother's keeper?

"I did what I could to stop things where I thought they were inappropriate, but the major thing on which I was inflexible was keeping the agency within the bounds of legality and propriety. That was my task. That is what I tried to do.

"Mr. Leon. You told Colonel North you were against the whole airstrip idea at some point?

"[C/CATF.] I told him as time wore on, particularly in the spring of 1986, as clearly we were running towards problems, we were defining our operations thinking about things, we didn't need the airstrip, not to worry about it, not to hassle with it, it was not something that was necessary for us, and I particularly was there in [redacted] I believe it was in May or thereabouts, when [redacted] went to a meeting [redacted] and was told officially they could not use the airstrip.

That airstrip was not -- is not integral to the plan we developed in the spring of 1986.

"Mr. Leon. Is there any lesson that can be learned, do you think, [redacted] from the experience you have been through here in this RIG setting in a situation where you have a political dynamic like you have described and you have various RIG members with varying opinions on how to handle things and differences of opinions on how to protect, particularly, and risks to be taken politically, is there a lesson to be learned either by yourselves or by others in a similar situation in the agency on how to best handle these for the future?

"[C/CATF.] There is a lesson to be learned for us all in that. I think the lesson for me to have learned was to have been a little bit more cautious in the first two months of 1986 when I said I let the reins out and then had to pull myself back in -- that is my lesson. I have asked myself a hundred times if I could go back and do it over again what would I do differently? And I put that thought out of my mind, because I couldn't, and so there is not a lot of sense in thinking about it.

"But the major lesson, and I wish Chairman Hamilton were here to hear this, comes out of the summer of 1985 in which we had intensive meetings with Chairman Whitten, Chairman Hamilton and with Chairman Boland and anybody else who would listen and pleaded, pleaded not to write CIA out of managing the \$27 million, not to do it. contact with Iran in July and August 1985:

"After the first meeting [with Kimche, c. July 3, 1985], I reported to him [the President] the proposal of Mr. Kimche that we initiate a dialogue and he approved doing that. Two weeks later, [c. July 13, 1985], Iran introduced the requirement for 100 TOWs, and I reported that to him [c. July 16-17, 1985] and he said the United States will not do that. Two weeks after that, approximately [c. July 30, 1985], Israel proposed that Israel sell the arms, but stipulated that it had to be able to come to the United States to buy replacements.

"The President considered that, talked it over with the NSC principal [sic] and later approved it."

"To you recollection, during the meetings you attended with the President, with others, did anyone in your presence specifically point out to him that his representatives were dealing with officials of that same Government of Iran, point out that statement to him, and point out at least the apparent[] inconsistency in the two and the problems that might cause for him?

"Mr. NORTH. That particular issue was not addressed in the meetings that I attended with the President on this matter. But what I think is important is that we clearly attempted to establish contact and ultimately the objective of a strategic dialogue with pragmatic or moderate or less unreasonable elements of the Iranian Government; and even, if we could have, people who were willing to bring about a cessation of terrorism, a more pro-Western view of the world, an end to Shiah-sponsored revolutionary fundamentalism, and ultimately secure the relationship between the United States and Iran to the point where we could bring about an end to the Iran-Iraq war.

"The characterization of the Iranian Government I don't take any issue with; but the fact is that there are people in their government of differing political philosophies who see the long-term benefit to their country as well as to the rest of the world in achieving the kinds of things that we set out to ultimately achieve.

"The problem that is created is matching one set of words with another set of policy goals that were not publicly stated. And yet, I see nothing inconsistent with the fact that the characterization of the Iranian Government as the President made it vividly clear does not in any way prevent trying to establish contact with a more reasonable channel within it."

". . . .

"Mr. MITCHELL. . . . [T]he President's publicly-stated policy at that time was not to provide arms to Iran and to work actively to keep other nations from doing so. As you recall, in 1984, the Secretary of State had branded Iran a country which has repeatedly provided support for acts of international terrorism; and by his action, he placed Iran on a list of countries to which American arms could not be shipped."

"And the President's publicly-stated policy on terrorism was that there would be no negotiation, no payments, no ransom of any kind to obtain the release of terrorists. In fact, I think in about that same time as he made the speech on Iran, the President said, and I quote, 'America will never make concessions to terrorists. To do so would only invite more terrorism. Once we head down that path, there will be no end to it.'"

". . . .

"Mr. NORTH. . . . I would also take issue, Senator, with one of your comments. To my knowledge, we have never said nor should we say that we will not negotiate. We have a policy of no concessions. We have a policy that is very

"A. Yes. I think that what happened was that the Israelis had met Ghorbanifar some time before, and my impression at the time was that they had very recently, only very recently met him, but it may be that they had met him a couple months earlier, as now appears, and had just taken a while to figure out whether he was someone that they wanted to put forward in this role.

"In any event, as I understand it, what McFarlane had been told was that they had met an extremely interesting Iranian, and the question was whether--and this Iranian wanted to talk to the Government of the United States, and it was a question of whether the United States was interested in picking up this contact and pursuing it."

"

"Q. . . . Who else was present?

"A. It is the basic group, as it would remain throughout. That is to say, Kimche, Nimrodi, Schwimmer, me, and Ghorbanifar.

"Q. What language did you speak?

"A. English.

"Q. How is his English?

"A. Good, not perfect, but good.

"Q. But good?

"A. Good.

"The basic message that Mr. Ghorbanifar brought was that there were powerful persons -- well, two stages. First, that the internal situation in Iran was considerably worse, more stressful, and more potentially explosive than we had generally imagined. He told us stories of

And he said that under these circumstances, there were several of the most powerful figures in the government who were interested in achieving better relations with the West and that they recognized that Iran's policies up til then, primarily the policy of using terror as an integral part of Iranian foreign policy and using terror to export the Shia revolution was alienating them with the Western world and they were willing to work to moderate Iranian policies in order to achieve better relationships with the West, above all better relationships with the United States.</p> <p>"That, therefore, it was possible, working with these people, to achieve a change in the nature of the Iranian regime and in the policies that it would carry out and that in order to show their good will, their desire to make these changes come about, and their capacity to influence the course of events in Iran, they would undertake to have a series of gestures occur which included a change in the public rhetoric towards the United States, an end to terrorist attacks against American targets, and an effort to convince the hostage holders in South Lebanon to</p> |

release one or more American hostages; and that in return, if the United States was, in fact, interested in working toward a better relationship with such in Iran, that they would expect a similar gesture from the United States which would demonstrate the legitimacy of the channel and the desire and capacity of the President to move towards a better relationship with Iran and that the only thing that would meet all those requirements would be if the President of the United States enabled Iran to obtain the weapons that it so desperately needed to defend itself against the Iraqi invader, weapons which it had been prevented from obtaining in the past because of the American arms embargo."

"When our conversation was over the next day or the day afterwards, the four of us -- that is the three Israelis [Kimche, Nimrodi, and Schwimmer] and me, without Ghorbanifar -- met to discuss what we ought to do about all of this.

"Q. Before you get into that, let me just ask you some questions I had arising out of the conversations.

"First, between the time that you had obtained authorization to speak to Mr. Ghorbanifar on your trip and the time you actually met with him, did you do anything to check out who Mr. Ghorbanifar was?

"A. I was not in a position to do that.

"Q. Do you know whether Mr. McFarlane did anything or anyone at the NSC to check out his bona fides or anything along those lines?

"A. I don't know.

"Q. Did Mr. Ghorbanifar during the course of that meeting tell you who[m] he represented in Iran?

"A. Yes.

"Q. Did he give you a specific name?

"A. He gave us several specific names.

"Q. Were those names people that you recognized?

"A. Yes.

"Q. They are people who[m] you knew to be major leaders in Iran?

"A. Yes.

"Q. How would you characterize their

political position in Iran? There has been excessive -- extensive -- although excessive may be more accurate -- discussion about moderates, radicals, various other characteristics.

"A. Well, if I could say something about the question of moderates, Iranian moderates. I do not believe in the existence of Iranian moderates in the sense that one would normally use the English word 'moderate.' I do, however, believe -- and I took this to be Mr. Ghorbanifar's meaning -- that there are Iranian leaders who are willing and indeed eager to moderate the behavior of Iran in the world and to influence Iranian policy in a direction which we would consider more moderate than the one that they are pursuing now, and I do believe also that within the Iranian -- current Iranian regime, there are more and less radical people, so there are people who are relatively moderate compared to a very high standard of radicalism, which is Khomeini himself and some of his people.

"So with that, Ghorbanifar also stressed -- and I think that it is something that has to be checked, but it is certainly not to be rejected on the face of it -- that there are some people in Iran who appear to be extremely radical and even fanatic but who, in fact, are wishing for a different kind of government and different kinds of policies which they are secretly prepared to advance.

"So that it is quite conceivable to me that there are people in Iran who are publicly one thing and privately something quite different.

This was one of the things which I thought we should be investigating and one of the reasons why I urged one course of action rather than the one that was ultimately adopted by the United States Government.

"But to answer your question, after all, I would characterize the public positions of the people with whom Mr. Ghorbanifar said he was in contact as mixed. Some of them were among the people who had the most radical reputations; some of them were people who had reputations as being somewhat blander or somewhat less ferocious." "This was one of several occasions on which he would make such calls with Nimrodi on the extension, listening.

who was trying to bring two sides together?

"A. It was rather between those two positions and the impression was of a person who was acting with the knowledge of people in Teheran who either -- depending upon what sort of emphasis you want to give it -- either approved of what he was doing or were willing to let him try, but that in any case, they were interested in obtaining the same results as he was attempting to obtain, namely an improvement in the relationship between the two countries leading to a moderation of the behavior of Iran. That was the bottom line.

"Q. Was there any discussion in these conversations about whether or not Iran had control of the hostages?

"A. Yes, there was.

"Q. What did he tell you about it?

"A. He told us that he believed Iran had considerable control for the hostages and that they could, in fact, effect the release of hostages.

"Q. You indicated that as part of this discussion he referred to the release of one or more hostages.

"A. Yes.

"Q. I take it it was not -- those were carefully chosen words by you [--] was not necessarily that they would release all the hostages?

"A. No. The main hostage discussed, the hostage on which he put the most emphasis from the beginning, was Buckley. He knew who Buckley was. He told us that Buckley was being tortured and he

at these July meetings?

"A. I did at the time, yes.

"Q. Did you turn them in[] to anybody?

"A. I gave McFarlane a set of notes regarding what Ghorbanifar had had to say about Iran, and the picture of the situation in Iran.

"Q. Notes that you prepared from the discussion with Ghorbanifar?

"A. Yes. These were extremely long conversations, so that part of the time Kinche took notes, and part of the time I took notes, and when it was over, we sat down and typed up our notes, respectively, and got an overall copy of what had taken place and this was given to McFarlane.

". . . .

"Q. At these meetings in July, was Ghorbanifar holding out the possibility of introducing you and the Israelis to senior Iranian officials?

"A. Yes. And not only senior Iranian officials, but Iranians from various sectors of Iranian society and activity.

"Q. And was that part of the appeal of this proposal to you and to the Israelis?

"A. It was, frankly, the major part of the appeal to us. By the way, if I could just add one thing, because it is always forgotten in these conversations, and that is, that in addition to the seven American hostages in Lebanon, there were twelve Jewish hostages being held by Hezbollah, and the Israelis were concerned about them and were trying to do what they could. They were

trying to help in that situation as well.

"Q. I take it that when you returned to the United States after this trip, that you briefed McFarlane on what had transpired, correct?

"A. Well, Kimche had already briefed him. Kimche had come to Washington early in August.

"Q. While you were still in Israel?

"A. Yes."

"Q. So you were telling us that shortly after, the next day after this meeting [see 85/07/29-100 through -102], you had a conversation among the four of you without Ghorbanifar?

"A. Yes. We decided there was something that should be reported quickly to McFarlane. And I agreed with that, although the idea of flying back to Washington, interrupting my vacation, was not attractive, especially because Kimche had to go anyhow.

"He offered to report on these conversations to McFarlane. That was fine with me. I wrote a short note that Kimche brought. And Kimche went to report on this to McFarlane and carried with him a handwritten version of some notes that he and I had taken and of which we had produced a kind of joint copy of the conversations with Ghorbanifar, what we had spoken about, what -- who the people were inside Iran whom he thought would

"A. Yes.

"Q. What did he tell you?

"A. He told me the President had approved it.

"Q. And when you say the President had approved it, you understand that to mean that the President had approved this proposal with two dimensions, and the short-term dimension being the sale of TOW missiles from Israel to Iran which it was hoped would result in a reciprocal gesture from Iran that would involve the release of hostages?

"A. Yes.

"Q. Was it your understanding that it would involve the release of all the U.S. hostages?

"A. It was what the Iranians, through Ghorbanifar, had said they would attempt to do. I did not expect all the hostages to come out. Indeed, many of us [redacted] expected that no hostages would come out. But it seemed to most of us, that it was important to test the overall situation, not simply the capacity or the willingness of the Iranians to do that, or the other things, which were also important.

"Mr. NORTH. I was at some point, yes.

"Mr. NIELDS. To the best of your recollection, when?

"Mr. NORTH. Well, I know I was told that in 1986, as I was preparing the chronologies. I was probably told that in 1985, or I would have asked more questions than I did about it.

"Mr. NIELDS. Who told you in 1986 that the President had authorized the TOW shipment?

"Mr. NORTH. Mr. McFarlane.

"Mr. NIELDS. And assuming that you were told it earlier, do you recall anyone other than Mr. McFarlane telling you that earlier?

"Mr. NORTH. No, I don't at all. But I want to make a point about, at some point in December, while I was overseas, there were meetings held at the White House among a number of Cabinet officers, in which apparently these issues were discussed; and subsequent to that, there was a finding done giving retroactive ratification to what had already transpired, that Cabinet officers were also aware of."

What I recall is this: It is quite curious, and I will tell you why I recall it so vividly. In explaining what we were attempting to do and to open up this Iranian contact and start discussions with emissaries from that country, it was said that they were suspicious of the people with whom they were dealing, that is how high up in the United States Government did they go.</p> <p>"On the other hand, we were suspicious of them. Iran as part of the method of developing a relationship. Do you recall that aspect of the NSDD was discussed?

"Secretary WEINBERGER. I believe it was, yes. I don't have notes about it, but my memory is that we went through the whole thing, and one of the objections that I raised was this precise point.

"Mr. EGGLESTON. Do you recall that this meeting arose in the context of a discussion about selling arms in order to help achieve release of the hostages?

"Secretary WEINBERGER. Well, it was one of the arguments advanced, but not as a major point. The major point at that meeting, as I recall it, was this broad general policy change that was being suggested in this draft NSDD. I think the hostage thing was mentioned as a kind of incidental benefit that might come from a better relationship.

"Mr. EGGLESTON. Was Mr. McFarlane the one advocating this change?

"Secretary WEINBERGER. Yes, that seemed to me to be the case.

"Mr. EGGLESTON. I take it that it is your conclusion that as of the end of that meeting in the residence, certainly the President had not as of that time approved a plan--

"Secretary WEINBERGER. No, I certainly didn't get that impression at all.

"Secretary WEINBERGER. Yes. I felt that the arguments that I had made were basically congruent with his views at that time.

"Mr. DEWINE. . . . Mr. Secretary, as you know, the last of the Boland Amendments which went into effect in November, 1985, provided for \$27 million in humanitarian aid for the Nicaraguan freedom fighters. This specific law also spelled out this could not be administered by the CIA [nor by the Department of Defense.

"Ultimately, this responsibility was turned over to the State Department. Were you in favor of that, first of all, administering that program?

"Secretary SHULTZ. I didn't like the idea. But it came to be clear that that was what I had to agree to if we were going to get the money, and I was very anxious to get the money, and so I said, all right, if that's what it takes, we'll do it. And I think we did it quite well.

"Mr. DEWINE. Could you describe why you had some reservations about that and maybe any problems . . . that you may have had in regard to administering that? Is there anything about that type of program that is maybe tougher for the State Department to administer than some other agency?

"Secretary SHULTZ. Well, there are basically two things. Number one, it was an overtly voted program, that by its nature had to be administered

covertly. And I think that--that is not the State Department's thing to do. That is what CIA does; they administer the covert action programs. So you--I'm a great believer that we have different organizations in the government because there are different kinds of functions, and it's a mistake to mix up functions.

"So that I think was one principal reason. And the other reason was that we didn't have any direct experience in administering that kind of thing in that area. Of course, we--AID had facilities and so forth and we weren't totally without experience, but we weren't doing that. So we had to kind of get something going from scratch, and as I say, I think it was done pretty well.

"Mr. DEWINE. You were ultimately criticized by Congress, or at least one subcommittee of this Congress I happen to serve on, for the way your department conducted that. Did you think that criticism was justified?

"Secretary SHULTZ. No, I don't. I think it was based on an accounting difficulty, really. We were charged with delivering humanitarian aid into a place where we were not permitted to be. Therefore, it was not possible to put certified public accountants in that place to account for the fact that what was delivered was actually delivered and to the people for whom it was intended.

"And our only method of verification was through the intelligence that we were able to gather about it, which fundamentally satisfied us

was the relationship between the United States and Iran, and it was necessary -- this was a stage through which this dialogue must pass in order to establish who was who and what was what. Because all the questions that one had on each side, we were -- I was extraordinarily suspicious of Mr. Ghorbanifar.

"Mr. Ghorbanifar seemed to me at the time to be altogether too good to be true. He was exactly the thing that we were all looking for and that he magically appears with all of the things that if we could prepare a wish list, there he was and he had it all. I do not believe that things like that normally happen in a lifetime.

"So we wanted to know about Iran and he knew more about Iran than anybody knew. And we were interested in seeing what was the chance in the future of change, and he came proposing precisely that. So I was extremely skeptical and I told McFarlane when I came back in August.

"Q. Do you remember when you came back, approximately?

"A. The middle of August. I told him that Ghorbanifar could be anything and could even be a KGB agent since if I were the KGB, I would certainly want to know about American intentions with regard to Iran and I might be willing to invent a Ghorbanifar and send him to us to see how we would respond to this. That's the sort of thing they had done.

"I told him I thought we had to be extremely careful with this gentleman. He, McFarlane, told me a couple of days later that the President had

"Mr. LIMAN. Now, the thrust of all of the requests was for you to respond to these allegations that North was violating Boland.

"Mr. MCFARLANE. Yes.

"Mr. LIMAN. What did you do when you got these requests?

"Mr. MCFARLANE. I got them while I was with the President on the West Coast, and I asked Admiral Poindexter to have the records, files of all memoranda, papers, travel vouchers and so forth that related in any fashion to the requests from the Congressmen, the Senators, put together for me to look at when I got back, and since--when I returned learned that he had tasked Brenda Reger, who was really an expert in handling of NSC files, to research the several compartmented files the NSC has, or memoranda that related to the nature of the requests in any way.

"And they were put together and brought to Admiral Poindexter, who gave them to Commander Thompson, who was the staff general counsel, and also the military assistant, who had custody of them and who brought them to me when I returned on about August 26 to the office.

"I went through them, read each one and found a number of them that seemed to me to raise legitimate questions about compliance with the law.

pointed out each one. He said that I would see them myself. And I found I think half a dozen that raised that question in my mind.

"Mr. LIMAN. And what question did they raise?

"Mr. MCFARLANE. Well, simply that an objective reading would have taken passages in each of these memoranda to be either reflective of a past act that was not within the law or a recommendation that a future act be carried out that wouldn't be. And, taking these documents aside from the stack, I arranged the next day and the following day to start a series of meetings with Colonel North to get to the bottom of whether or not my own interpretations were correct." responsible for whatever had been done, but I simply had to know what had been done, that it was my responsibility for any actions of anybody on the staff, but that specifically there were in a half-dozen cases reporting of what any objective reading, I said, would probably take as being close to or even beyond the law, and I wanted to go through each of those with him and to find out if my reading was the same as his.

"And we did. And we went through a couple that you have already raised in the book today of December 4 [see 85/12/04-005, -006], and in early 1985, as well as four others that involved various kinds of things.

"For example, in one that I raised, he was providing a summary of progress of FDN as a military force, and noted they had responded well on how to form a G-1, G-2, G-3, and G-4. [See 85/04/11-200.]

"I said, well, this looks to me like a Congressman could read that you have been instructing them on how to do that, providing military advice. He said well, that is not the case, the contras have hired retired officers from the U.S. military to do that, and they are responding well, but it isn't me.

donors and exhortations to you to solicit them?

"Mr. MCFARLANE. Yes. The possibility of Colonel North having made a passing remark of advice to the contras while in Honduras was of less concern to me than what I took to be the real concern of the Congress, which was fund-raising, and we spent most of the time asking about whether these reports in The New York Times or elsewhere of Ollie's involvement in meetings where donations were made include his being party to or solicitous of or coercing or otherwise collecting or being a middleman for fund-raising.

"He was very careful and insistent to say that in none of these cases had he taken part in any fund-raising. He acknowledged that he had made almost 100 speeches in public settings where he had made a very strong case, as the President did, and I did, for support of the contras, and he acknowledged further that after these often people would come up and say, I want to help, what do I do?

"But he was equally emphatic in saying whenever that happened, that he said I am a U.S. Government official, and I couldn't become involved in the collection of [sic (or)] brokering of money, and if you want to be helpful to the contras, go to Miami, there in the phone book they have an office, and do it yourselves." McFARLANE ACCOUNT, Part 3:

[Continuing from preceding entry:]

"Mr. LIMAN. Did you ask him [sc. North] to do anything with respect to these documents?

"Mr. McFARLANE. Well, as we went through them, he pointed out where my own interpretation was just not accurate, such as in these earlier efforts about the G-1 and so forth, and he just said, you are misreading my intent, and I can make it reflect what I have said if this is ambiguous to you, and I said all right, do that.

"Within the matter of a day or two, he returned to my office and he had two single pages, one of them was the same text or close to it, of the first page of a memorandum, the second piece of paper was the last page of a memorandum.

"I say that because the format has 'from' and 'to' on the first page, and the signature page on the last page, so it wasn't an intervening page. He pointed out to me on the single sheet, the first page, what had been altered to reflect with greater clarity what his intention had been, and it didn't seem to me substantial.

"The second one represented a shortening, really, of the last page of [a] memorandum that basically took out what had been, that an effort should be made to solicit from current donors additional funds, and I think the replacement said an effort must be made to persuade the Congress to support the contras, rather fundamentally different.

"Either immediately, or within 24 hours, I put

them in my briefcase and took them home, intending to read them when I got a chance. Each night, when I finished with the documents at 9 or 10:00, I would return them to Commander Thompson, who had custody of them in the safe.

"The next two or three days, Congressman Barnes was down, we discussed the issue, I told him that having checked with the White House Counsel, we proposed that he go through them on the spot, but without staff, and thought about it, said that he believed that unsatisfactory, and went away.

"Subsequently, he made no additional requests for the documents. Now, the sum and substance of that probably three or four-week episode of seeking to find what papers in our files and what explanations from Colonel North could respond to Mr. Barnes and others, I did have misgivings, I felt it was likely that an officer of the qualifications and excellence of Colonel North, when he was down visiting in Central America probably did extend advice.

"It seemed to me that that was inconsequential to the outcome of the conflict, and probably not in the eyes of the Congress a serious matter.

"On the issue of fund-raising, having talked with Colonel North and with one or two others that I could identify that had been in settings where he spoke, I couldn't find any evidence that he had done that, and his very clear insistence that he always referred potential donors to the contra leadership itself was a matter that I could not disprove.

THE 6 ALTERED MEMOS

NORTH ACCOUNT:

North testified his discussion with McFarlane
about the questionable memos took place after Rep.
Barnes made his request on October 29, 1985 to
McFarlane for documents relating to NSC staff
activities. The actual alteration of the
documents, according to North, occurred in 1986 as
he prepared to leave the NSC -- not in August
1985, as McFarlane testified.

"Mr. NIELDS. We have the letter dated October
29, 1985, and it is Exhibit 111 and it is a letter
requesting documents.

"Mr. NORTH. Yes.

"Mr. NIELDS. The earlier letter requested
answers.

"Mr. NORTH. Yes.

"Mr. NIELDS. And a letter was sent in
reply[,] that you have said you probably
participated in[,] that[] gave false answers.

"Mr. NIELDS. Let's get to the documents then. The documents that were requested were reviewed by you, were they not?

"Mr. NORTH. I guess they were. I don't recall the specific event, but I assume that they were because I was asked to provide certain documents.

"Mr. NIELDS. And they were taken out of official NSC files?

"Mr. NORTH. That is correct.

"Mr. NIELDS. And they were brought to the attention of Mr. McFarlane?

"Mr. NORTH. Yes.

"Mr. NIELDS. And you and he sat down together and talked about them?

"Mr. NIELDS. Now, you just said that he asked you to fix them. What does that mean?

"Mr. NORTH. Remove references to certain activities, certain undertakings on my behalf or his, and basically clean up the record.

"Mr. NORTH. I would have to look in each of those documents to refresh my memory, but I am telling you those are documents that had problems with them, yes. And that referenced my activities.

"Mr. NIELDS. Activities --

"Mr. NORTH. And references to those things that I had done over the course of that period of time, or things that I reported on that had been done as a consequence of my activities.

"Mr. NIELDS. These were activities in support of military support and fund-raising support for the contras?

"Mr. NORTH. I would certainly admit to the former; I am not sure about the latter on the fund raising. There may have been reference to that, too.

"Mr. NIELDS. I would just state for the record, . . . they are Exhibits 141 through 153, that is in both original and altered form, and I will say that one of the things which is taken out of those documents [is] reference[] to a particular foreign country, Country Two?

that even in the altered version of the documents, there are still some materials that have been blanked out because the Executive regards them as classified.

"Mr. NORTH. Okay.

"Mr. NIELDS. So you didn't just remove all sensitive materials, you removed the materials that demonstrated that you were conducting activities in support of the contras?

"Mr. NORTH. All right.

"Mr. NIELDS. What was the reason for altering those documents right before you left?

"Mr. NORTH. Well, he had asked me to do it some time before. I simply hadn't gotten it done yet.

"Mr. NIELDS. Well, he was gone. What was the reason that he gave you for changing these documents?

"Mr. NORTH. Well, those documents clearly indicated that there was a covert operation being conducted in support of the Nicaraguan resistance.

"Part of the whole thing with the covert operation is being able to protect those people with whom you are engaged as we had committed to do, and protect from political damage as well as international repercussions the Government of the United States, and so, I very clearly understood why he wanted those documents cleaned up, and I sought to do so."

to public view?

"Mr. NORTH. True.

"Mr. NIELDS. So, there was already in existence an official way of protecting information that ought not to be made public?

"Mr. NORTH. Yes, but you have to remember that that system, just like any information in my safe, is very much what I would call successor dependent, and there is some uncertainty as to what your replacement might do with those documents when he walks in the door, and so, I had absolutely no problem whatsoever with Mr. McFarlane telling me that these documents need to be cleaned up.

"In fact, we had earlier, perhaps subsequent to those documents being prepared, decided to take those kinds of documents out of the system altogether, so that they no longer were in the system, they were non-logged, if you will, and they were hand-carried back and forth between my office and the West Wing.

"An effort was made, in other words, to keep them out of the system so that outside knowledge would not necessarily be derived from having seen them, the documents themselves.

"Mr. NIELDS. These documents that were on Mr. McFarlane's list after they were discussed by you with him in 1985, they were placed back into the system, were they not?

Colonel North also testified that at a time before Congressman Barnes came to my office in October of 1985, when I drew Colonel North's attention to certain of his memoranda to me that raised doubts about his compliance with the law, I then instructed him, in Colonel North's words, to 'fix them.' This is incorrect.

"In fact, Ollie proposed revision of certain of the documents, but only to conform them to his actual intent, which he said that I had misunderstood. He gave me an [sic (in?)] order to obtain my go-ahead for the project, two revised pages of which were grossly at variance with the original text, so I did not approve them. I did not return them, and I ultimately discarded them.

"The effort, so far as I was concerned, was ended. Prior to my testimony, during questioning by the committee staff, I learned for the first time that within days before Colonel North left the White House in November of 1986, he withdrew these documents and altered them. This was done without my knowledge or concurrence." (McFarlane Testim., JHICI, 7/14/87, at 203-04. See also entries starting at 86/11/21-600.)

"Mr. POINDEXTER. That is correct.

"Mr. LIMAN. The fact of the matter is that these letters to Congress suggested that Boland did apply to the NSC and that you were abiding by it, correct?

"Mr. POINDEXTER. I think that Mr. McFarlane and I had a different understanding. I have listened to his testimony. As I understand his position as explained at this point is that his observation that he thought Boland applied didn't necessarily mean in a legal sense, but he, according to his testimony, as I have interpreted it, meant that he wanted things done in accordance with Boland.

"I don't recall that being stated quite the way at the time.

"Mr. LIMAN. Well, in fact, as I understand the whole thrust of your testimony on this

subject, it is that things were not being done in accordance with Boland, as if Boland applied to the NSC and that the NSC was engaging in the activities the CIA did because the NSC wasn't covered and, therefore, it was the only agency in the Government that could do it; fair?

"Mr. POINDEXTER. That is a fair description of my understanding.

"Mr. LIMAN. . . . Did you ever participate in any discussions at the NSC where a decision was made that you should keep from Congress this interpretation that Boland did not apply?

"Did you understand the question?

"Mr. POINDEXTER. I am not sure.

"Mr. LIMAN. I will try it again.

"[Counsel conferring with witness.]

"Mr. LIMAN. Did you ever participate in any discussion at the NSC where someone said 'Let's not tell Congress that we don't consider Boland applicable to us'?

"Mr. POINDEXTER. I don't recall having that discussion with anybody. That was the way I felt about it.

"Mr. LIMAN. I want to say something just for the record, Admiral, so everyone understands it, that before anyone testified at these hearings publicly, when you testified in the private session you expressed that conviction, you made it clear in your conduct you acted in accordance with the conviction that Boland did not apply, and you have acknowledged various activities that you have testified to here, so this is not a matter of adapting a position to a record, and you said that in your private testimony in early May.

"Mr. POINDEXTER. That is correct.

"Mr. LIMAN. And that is the way in which you operated with respect to the contras, correct, and it is that belief that you were not bound by Boland that led you to conclude that you could authorize the diversion of the funds as consistent with policy and not contrary to law?

"Mr. POINDEXTER. That is correct, and consistent with the other methods that were being used to finance the support for the contras.

"Mr. POINDEXTER. The only thing I meant, Mr. Liman, was withholding information from the Congress. We did not--I have not said that we weren't helping the contras. We were clearly helping the contras. "The propriety of the proposed arrangement therefore will turn on whether or not the airlift itself constitutes a 'military expedition or enterprise,' as that term has been defined in the case law relating to the statute. . . .

"

" . . . As long as the airlift operations transport only supplies (whether or not including implements of war), but not men, and as long as the persons engaged in arranging or providing the airlift services do not also engage in broader planning or action in concert with others to combine these supplies with insurgents on the ground for military purposes, those providing the transportation of supplies have not begun, or provided the means for any military expedition within the meaning of the statute. . . .

"One final note: the Neutrality Act has been neglected by prosecutors since the First World War. . . . 'Public interest' actions to compel Justice Department investigations of such activity therefore remain a possibility."

The property is owned by an American living in New York. It is managed by a Colonel in the Civil Guard who will be glad to turn it over to [redacted] who has been designated by [redacted] to be administrator for the project. Am presently waiting for the name of the American so information on him can be found out and he can be approached by a company wishing to rent the land for a year with the option to buy. A guess is the cost will run between \$10,000 and \$20,000 for a year.

"The cover for the operation is a company, owned by a few 'crazy' gringos, wanting to lease the land for agricultural experimentation and for running cattle. A company is in the process of being formed. It might be a good idea to have it be a Panamanian Company with bearer shares, this way no names appear as owners. The gringos will own two planes, registered to the company and duely [sic] registered in the country in question. Cattle will be purchased as will some farming equipment and some land plowed.

AIRSTRIPE TOUR

OWEN ACCOUNT:

Owen travels to Costa Rica to locate a site for an airfield from which lethal and non-lethal drops could be made. He is met at the airport by a CIA representative with whom he again meets that evening. The following day, they meet with a Costa Rican official. The three visit a suggested site.

Owen testified, "I was introduced as a private citizen who was interested in helping the cause of the Nicaraguan freedom fighters. I do not believe that the Costa Rican official knew that I was

CASTILLO ACCOUNT:

Tams introduces Castillo to Robert Owen. The next day Castillo visits the site of the Costa Rican airfield with Owen.

"Mr. Castillo. That he was a -- I am using my own words -- a friend, collaborator of Colonel North[].

"

"Mr. Barbadoro. Did anyone explain to you why Robert Owen was going to look at the site of the airstrip?

"Mr. Castillo. My recollection is that he would report back to Colonel North about this site and the information that had been given to him by Ambassador Tams at that meeting that I had the day before we went to the site.

"

"Mr. Barbadoro. What happened when you got to the site of the airstrip?

PROF SYSTEM FILE, "PRIVATE BLANK CHECK,"

IS SET UP

POINDEXTER DEPOSITION ACCOUNT:

"Q. What occasioned you on August 31, 1985,
to give Colonel North this direct access to you?
Why on that date?

"A. I can't be certain.

"Q. Was it the Central American affairs that
did it?

"A. It could be a -- it could be that. It
could be hostage negotiations. [Redacted.] But I
rather think that what precipitated it was that
that was probably the time frame in which we
instituted this software control in the system
that would have his messages intercepted. That
probably is more related to the time frame than
any other particular event.

"Q. Do you recall that in August of 1985,
there had been some inquiries from the Hill about
Colonel North's activities on behalf of the
contras?

"A. Yes. I do recall that in 1985 there were
inquiries from Michael Barnes of Maryland and Lee
Hamilton of Indiana, who was Chairman of the House

Intelligence Committee at that time.

"Q. Was giving Colonel North this direct access related in any way to the inquiries that you had been getting from the Hill about his activities?

"A. Well, indirectly, yes.

"Q. How?

"A. It is related in that we -- I felt, and I think Mr. McFarlane felt the same way, that what Colonel North was doing in terms of supporting the democratic resistance was within the letter of the law at the time, although obviously very sensitive, very controversial. We wanted to avoid more restrictive legislation, and so any activity that he would have been involved with on Central America, we wanted to keep very highly compartmented.

"So that very likely played a role in my deciding to do that. Whether those particular letters that you are referring to precipitated that note, I would doubt it. But generally, the concerns that we had about keeping compartmentalized and keeping very closely held Colonel North's activities would have been an obvious factor in it.

"Q. Did you discuss with Mr. McFarlane the fact that you were giving North this direct access?

"A. I don't believe I did.

"Q. Do you know whether or not Colonel North had that kind of code-word direct access to Mr. McFarlane?

"A. I don't know, but I would doubt it

because I don't think Mr. McFarlane understood how the system worked in that level of detail.

" "

"Q. Tell me, in August, 1985, as you best recall it, without getting into detail, what were the issues that North was working on?

"A. In August of '85? He was working on the Central America issue, keeping the contras supported. He was working on the Vice President's task force on countering terrorism. He was working on the hostage issue. He was working in August of 1985 -- I don't think he was working on the Iranian project in August of '85. I don't think he came into that until November of '85.

"Q. Is there a priority among these matters that he was working on that you characterize?

"A. Well, I would certainly have considered the most important thing he was working on Central America. I don't recall we actually prioritized it."

to drop weapons and other supplies in the area of Central America?

"A. Yes.

"Q. Did you draw up such a plan?

"A. Yes.

"Q. And whom did you give it to?

"A. General Second.

"Q. Did General Second tell you to whom he was taking the plan for approval?

"A. General Second said he was taking it to the White House.

"Q. As a result of the plan, did you investigate and subsequently discuss with General Second the various types of aircraft necessary to conduct this operation?

"A. Yes.

". . . .

"A. When we were unable to arrange for the purchase of C-123s, we changed to C-7 Caribou.

"Q. Do you know whether Second presented this option of the planes to anyone at the White House?

"A. He indicated to me that the White House approved that choice of aircraft.

"Q. Did Second tell you that there would be an opportunity for you to profit from your involvement in this re-supply operation?

"A. Ultimately, yes.

"Q. And how did he tell you that?

"A. That we would be given the opportunity to set up the air operation in Central America, and to charge an overhead plus fee.

"A. Covert is not the correct word.

"Q. Okay. Why don't you tell me what would be.

"A. I would say more accurately confidential air activity to support or provide air support to the contras.

"Q. Did he tell you why it had to be confidential?

"A. It was implied that this kind of operation should be kept very low key and not be known to the general public.

"Q. Specifically, did he tell you it should be kept secret to protect the sponsorship of the United States Government in this operation?

"A. I was told to protect both his name and the White House. That was the implication." (Gadd, House Dep., 5/1/87, at 12-14.)

"Mr. Kerr. This strikes me as something of an incongruity here that I wanted to explore to you. The Director turned to the Operations Directorate when he had a shady problem in the fall of 1985. The Director apparently turned to Mr. Allen on a project Colonel North was working on without telling the Operations Director in the fall of 1985, again ultimately as we now know relating to Mr. Ghorbanifar. Was there anything that occurred with regard to the way you all handled the Hashemi matter that left a bad taste or problems between you all and the Director to your knowledge?

"Mr. George. The issue is we never had a fighting charge on the Ghorbanifar -- I'm jumping to my conclusion. We never had a jumping chance on Ghorbanifar. It wasn't the Hashemi case or it wasn't Ledeen indeed sort of saying this guy is really sensational, he can get a lot of terrorism information.

"Mr. Kerr. In terms of what that leaves us, I would like to kind of summarize where we have been in the period between June of '85 and January of '86 when you all got your assignments.

"One of the things that you all are responsible for doing is collecting information off American shores of things that related to American foreign policy and risks to the national security; isn't that right?

"Mr. George. We are the primary collector of human intelligence outside the Continental United States.

"Mr. Kerr. So knowing what's going on beyond our borders is a big part of your portfolio?

"Mr. George. We knew less about what was going on in Washington than we did overseas.

"Mr. Kerr. You were being cut off inside your own capital from information that would allow you to know what was going on outside; isn't that right?

"Mr. George. In September of '85, Bill Casey had me, John McMahon, Bob Gates in his office, and Bill Casey said, 'I've just had a strange meeting in the White House. Bud McFarlane informs me that the Israelis have approached them, the Israelis have established a contact with Iranian interests, and these contacts could lead to an opening of a dialogue with certain Iranians and to release of the hostages. But the Israelis have one demand: CIA not be informed.' And there was a twinkle in Casey's eye and he said, 'I wonder what in hell this is all about.'

"[Redacted.]

"Mr. Kerr. Let me just try to crystallize the points. Your job was made tougher. You were blinded by the lack of information.

"Mr. George. I don't want to appear -- I'm not going to sit here and say, my God, I didn't know a thing, I'm an innocent child in the woods. An important policy decision was made between the government of Israel and the government of the United States to ship arms to Iran for the purpose of getting hostages and getting a dialogue. It was decided to do that within the White House with only, in January, the technical support of the CIA.

CASTILLO ACCOUNT:

Castillo testifying on Abrams' awareness of the construction of the airstrip in Costa Rica:

"Mr. Barbadoro. Do you recall a conversation with Assistant Secretary of State Abrams about the construction of the airstrip?

"Mr. Castillo. Yes[,] sir.

"Mr. Barbadoro. Who was present during that conversation?

"Mr. Castillo. Two station officers.

"Mr. Barbadoro. And what happened in the conversation?

"Mr. Castillo. At the end of the briefing that we gave Assistant Secretary Abrams[,] he turned to me and asked me about Point West--'tell me about Point West.'

"I was, frankly, quite surprised that he would ask about Point West because I did not know how he would have known that I knew about Point West, since it was a--I thought it was a compartmented

"Mr. Castillo. I asked him how he had learned about it and he said that Colonel North told him about it. I then asked him if the Chief of the Central American Forces knew . . . , and he said he did."

(Castillo Testim., JHICI, 5/29/87, at 47-48. See id., at 161-62 [Castillo told Abrams only where the airstrip was located.], 170-73 [Rep. The fact that I had accompanied Robert Owen is not necessarily a surprising thing, but to have the assistant secretary of State query out of the blue sky in front of two of my officers about something they didn't know about, yes, that surprised me."].)

"Mr. ABRAMS. That is correct.

"Mr. BELNICK. And you asked him, what about the airstrip, because you were surprised he hadn't mentioned it to you; is that correct?

"Mr. ABRAMS. That's correct.

"Mr. BELNICK. . . . [W]eren't you surprised because you believed that he knew about the airstrip?

"Mr. ABRAMS. I was surprised because I had spent [a]t least, I would say by memory, at least an hour with the station chief and two of his staff members. And they gave me what was purported by them and believe[d] by me to be a totally complete briefing on everything going on in Costa Rica. There wasn't supposed to be a [awh] [getting m]o[ve]d in Costa Rica without them knowing about it.

"

"They gave me a full, complete, total briefing. I knew something they didn't seem to know. I had been told there was an airstrip being built. Come on, how is it possible they did not know this?

"I said to the station chief when the briefing was theoretically over, 'Isn't there an airstrip being built someplace?'

"I believe he has testified correctly that he nearly had a cardiac. I thought he was going to fall off his chair. He looked at me and he looked at the two guys, and he looked at me and looked at the two guys. It became apparent that his real concern was them. "Of course, he did know about it. He said to me, 'Yes, these two guys didn't know about that. Yes,' and he showed me--my memory is he actually had a map or we had a map or there was a map in the room. He showed me where it was, and he said something to the effect that 'It isn't open yet' or 'It isn't sta[r]ted yet.'

"In other words, this is an airstrip which is not in use, was what stayed in my mind. That was the end of that.

"Mr. BELNICK. Did you ask the station chief why it was such a secret from others who were working with him?

"Mr. ABRAMS. No. I had no reason to question who in his station he was telling what.

"Mr. BELNICK. Did you ask the station chief whether anybody from our government was involved in the construction of the airstrip?

"Mr. ABRAMS. No. It had been presented to me, I think, as a private benefactor effort. I did not assume and do not assume people are violating the law."

"Mr. BELNICK. When did you first learn of that proposed airstrip project?

"Mr. ABRAMS. . . . I learned of the existence of the airstrip probably in August, being that I was sworn in late in July. Probably in August of 1985, maybe September of 1985. But that's the time period.

"Mr. BELNICK. How did you learn of the project at that time?

"Mr. ABRAMS. I don't recall any conversation in particular in which I was told of it. The--as you know, the former station chief has testified that I told him that it was Colonel North. That's perfectly logical and plausible to me.

"Mr. BELNICK. You don't recall whether you learned about the airstrip from Colonel North or from someone in the Agency?

"Mr. ABRAMS. That's correct. I don't recall.

"Mr. BELNICK. What do you recall learning?

"Mr. ABRAMS. That there was an airstrip being built by the private benefactors, as we used to call them, in Costa Rica, that this was a project which was either under way or about to be under way, period.

"Mr. BELNICK. Did you learn whether the United States Government or any U.S. Government officials were involved in that project?

"Mr. ABRAMS. Well, it was pretty clear from the way it was told to me that no U.S. Government officials were involved in the project. That would have been illegal.

What I said--I think what you are referring to is an incident toward the end of a staff meeting in my office in which I told Elliott Abrams--the question was where are the freedom fighters getting their arms, as I remember; and I said to--Elliott said he didn't know. I said well, you're our point man here, you should find out. Or something like that.

"Secretary SHULTZ. Well, my recollection is based on a note that was taken by somebody else who was in the meeting about what it was that I said and what I said is the way I put it. But no reason why Elliott shouldn't have taken it that way, because Colonel North was commonly seen as a principal contact with the freedom fighters.

"Mr. BELNICK. Did you have a view at that time that Colonel North, because of any information that you had about him, was someone who had to be watched closely or that Elliott ought to monitor?

"Secretary SHULTZ. There was talk about erratic behavior on his part, but I had no particular knowledge about it and didn't want to pass judgment. I'm not--and I can't get myself in the position of supervising people down the line working for others.

"Mr. BELNICK. But you did expect, based on what you told Secretary Abrams, September 4, 1985, that he would keep himself informed about the activities; and as I have read the note specifically, about how the contras were getting supplied with arms and not simply shut his eyes to that?

"Mr. BELNICK. So it is correct that when . . . the Secretary told you to monitor Ollie, he was not limiting the scope of the monitoring that he wanted you to undertake, correct?

"Mr. ABRAMS. I think that is correct. I think he viewed Colonel North as, I won't say as the Secretary did--there was a widespread view of him as a kind of loose cannon and it was perhaps in that context also . . . that I was being told to keep track of what he was doing."

"Mr. ABRAMS. I can remember one particular instance in which Colonel North raised a suggestion with me dealing with a foreign head of state which I went immediately to the Secretary on. "Mr. NORTH. Well, let me describe the situation. You are in a meeting with the people who are in the business of formulating American policy and trying to coordinate what activities we can in the region. And the meeting goes, 'We desperately have got to do something about X, Y or Z, Ollie.'

"Now, as I just indicated to you a few moments ago, when Secretary Shultz took me aside at Ambassador Bob Oakley's retirement [in October 1986], I knew what he meant. He didn't have to say, 'You did a great job on the L-100 resupply the 9th of April.' He knew in sufficiently eloquent terms what I had done. And as I said to you, Counsel, I didn't walk around bragging. I didn't walk around saying, 'Hey, look at me.' I sought to avoid that. I did not seek the credit and I didn't want the blame.

"I am willing to accept the blame for what I did and I have told you a good bit of that here, and some of it has not been easy. I honestly believe that there were many, many people within the Executive Branch who had a grasp, if not in specific detail but in sufficient detail, that they knew who to turn to when they wanted something done. And so when the airplane being flown by Captain Bill Cooper and co-piloted by Buzz Sawyer, two of the braver people I have met on this planet, was shot down out of the skies over Nicaragua by a surface-to-air missile, I was the person called the raise the money to pay for the counselor services to retrieve their bodies.

A. The discussions in Paris revolved around two questions.

"Q. Who was present at the discussions,

first? The same five?

"A. The usual suspects. [See 85/07/29-100.]

"Q. The group of five now?

"A. Yes. Two subjects of conversation. One was hostages and weapons, and Ghorbanifar is saying that with just a few more TOWs, this whole unpleasant problem will be solved; and I am not sure whether -- I think my recollection of this is prompted by something I read in the Tower Commission Report, but in any event, it sounds right to me. Revolutionary Guards and therefore were unusable as a symbolic gesture by the people that Ghorbanifar had in mind and on whose behalf he was speaking and that this thing had been sabotaged by the Revolutionary Guards and that it was necessary, unfortunately, to send in more TOWs.

"And there was then an extended discussion of the future of the relationship between the United States and Iran. By and large, when Ghorbanifar started to talk about hostages, Schwimmer and Nimrodi talked to him and Kimche and I started to go off and talk about the broader question of Iran and the United States.

"Ghorbanifar also said that in the very near future, we would see public statements by the -- by leading officials in Iran that would show that a change was in the process of taking place; and, indeed, shortly thereafter, on the anniversary of the fall of the shah, September 8, 9, 10, 11, in that period, both the Presidents and the Prime Minister, I believe, on occasions which in the past it would have been traditional to denounce the great Satan and otherwise attack the United States, for the first time since the fall of the shah, they did not do that. There were no attacks against the United States in those speeches, and, indeed, there was an attack against the Soviet Union, which was interesting and encouraging.

"In any event, the Israelis went ahead and -- with the balance of these TOWs."

"A. No. That was always a mystery to me, where the eight came from.

"Q. Putting aside the eight, which could well have been a . . . packing error, do you recall any discussion about how the number 400 was arrived at?

"A. Well, I am not certain whether the 500 figure was not there at the beginning and the 100 was supposed to happen and then the hostages would come out and the remainder of the 400 would go in.

"I tend to think that that was the arrangement, because I don't remember any discussion at that point of a whole new problem which I am quite sure I would remember. That is, it did not happen that we made our full gesture and they did nothing and we decided, well, okay, they didn't like our first gesture; we will give you another gesture. That did not occur. It was supposed to be staggered.

"Part of the sum total was to go in; then we would hope something was going to happen, and the balance would go in. That was the way it was designed. So the 400 were part of this gesture from the beginning. It was not a whole new situation.

of what happened was . . . that the reason there was no one released between the two shipments is that the first shipment ended up in the wrong hands?

"A. That's what was said. And it may even be true. I don't know. I don't think I was ever able to check that. It wasn't a surprise, mind you.

"And another point I would like to make here in passing, because it is interesting in terms of understanding the way this happened, when I was in Israel in the July-August period, [redacted.]

"But there is an image that gets generated sometimes of a monolithic government of Israel which has a master plan and all, which it is actively advancing. What I found in Israel was an Israeli Government that was as internally divided as our own, and it was divided for many of the same reasons that our own government is divided.

CONGRESSIONAL INQUIRIES ABOUT THE NSC:

McFARLANE'S ASSURANCES TO CONGRESS

NORTH ACCOUNT:

North testified with regard to a letter sent by McFarlane to Lee Hamilton, who chaired the HPSCI, concerning recent press accounts about NSC staff members' Contra-related activities:

"Mr. NIELDS. . . . [Y]ou were aware of that [HPSCI] inquiry at the time, were you not?

"Mr. NORTH. I believe I was.

"Mr. NIELDS. And indeed you were consulted about drafting an answer to it?

"Mr. NORTH. I am sure that I was.

"Mr. NIELDS. And indeed you helped draft it?

"Mr. NORTH. Yes.

"Mr. NIELDS. And the reply, again, answering questions about whether activities of the NSC staff violated the law, states . . . , 'Like you, I take such charges very seriously.'

"Did you also take those charges seriously?

". . . .

"Mr. NORTH. I take all charges seriously

". . . .

"Mr. NIELDS. The letter goes on, 'and consequently have thoroughly examined the facts and all matters which in any remote fashion could bear on these charges.'

"I take it part of the examination that Mr. McFarlane did was to talk with you?

"Mr. NORTH. Yes.

"Mr. NIELDS. Then he states, 'I can state with deep personal conviction that at no time did

I or any member of the National Security Council staff violate the letter or the spirit of the law.'

".....

"Mr. NIELDS. . . . [I]t states, 'Our emphasis on a political rather than a military solution to the situation was as close as we ever came to influencing the military aspect of their struggle.'

"Is that statement true, sir?

"Mr. NORTH. Well, it is partially true. I am not saying that all of the rest of it is true.

What I am saying to you is I continue to believe, as I did then, that there will ultimately have to be a political solution. What is, after all, a political endeavor, and I do not believe that we are going to see a victory march down the streets of Managua.

".....

"What I do believe that we can achieve is a democratic outcome in Managua as part of a political process. It will require diplomacy and requires military pressure on the Sandinistas.

"It is the essence of guerrilla war. This country fought a guerrilla war in which I served, and we lost the war. We won all the battles and lost the war.

"Mr. NIELDS. The part of it which is untrue is the part that says that this was as close as we ever came to influencing the military aspect of their struggle, isn't that true, sir?

"Mr. NORTH. With using appropriated funds, no, but I am not going to nitpick this thing.

"Mr. NIELDS. That is a false statement, isn't it? You were conducting, as you have testified here most of the afternoon, a full service covert operation to support the military efforts of the resistance.

"Mr. NORTH. Yes, that is true.

"Mr. NIELDS. And this statement that emphasizing a political rather than a military solution was as close as we ever came to influencing the military aspect of their struggle is just false, isn't it?

"Mr. NORTH. It is not entirely false, but it is false, and I admit that there are other parts of this thing that are false.

"Mr. NIELDS. The next paragraph says, 'It is equally important to stress what we did not do. We did not solicit funds or other support for military or paramilitary activities, either from Americans or third parties.'

"That is just plain false, isn't it?

"Mr. NORTH. Right."

want to replenish their supply. Do you recall telling Wilma Hall that around that time?

"A. I don't but that sounds right and probably what happens is that in Paris, Kimche would have said would you please check and see when we can get the hundred missiles.

"Q. So at that point clearly, there was discussion about U.S. replacement for the Israeli TOWs that had been shipped, correct?

"A. Yes, and I remembered discussing it with McFarlane at a certain point. I don't remember the date but I remember raising it with him and he said that he couldn't imagine what the problem would be. Couldn't they just buy it is the normal course of events. Why was there a need for some special arrangement?

"Q. All right. At some point, did you learn that the Israelis were charging the Iranians a higher price for the TOWs and the Israelis had paid for the TOWs so that they could replenish the TOWs from U.S. stocks?

"A. Yes, I did.

"Q. When did you learn that?

"A. I don't remember when, but I certainly became aware of it.

"Q. Would it have been in connection with this phone call from Schwimmer?

"A. It certainly was clear from the phone call with Schwimmer because when I quoted him a price--a price that I had been given from somebody in the Pentagon on TOW missile[s], he was alarmed and it sounded very much to me as if, in this case at least, he had charged the Iranians too little,

rather than too much.

"Q. Do you recall who(m) you contacted in the Pentagon?

"A. I don't.

"Q. Do you recall what the price was per TOW that you were given?

"A. No.

"Q. You have not even a rough sense of what the price was?

"A. No.

"Q. And in any event, when you told Mr. Schimmer what that price was, could you, as best you can remember, describe his reaction and what he said?

"A. He said it's impossible, it's much too much.

"Q. Did he in any way tie that statement to the price that the Israelis were charging the Iranians for the TOWs?

"A. No.

"Q. What did you think he meant when he said it's much too much.

"A. That it was more than he intended to pay or that he was hoping to pay. It's what we normally mean.

"Q. And what was your response to that?

"A. He then said go tell them it's much too much and I said why don't you go tell them, I'm not in the business anyway and it can't be that difficult for the government of Israel to figure out how to buy TOW missiles from the Government of the United States."

There has not been nor will there be any such activities by the NSC staff.'

the end user certificates that you mentioned, the fact of how Colonel North came by those, if he did in fact, isn't clear yet. The possibility that the Contras on their own had been instructed by the CIA during the time it was legal for them to do so, on how to get those end user certificates is a possibility. I think it unlikely but at the time the existence of an infrastructure of parallel support wasn't clear.

"Mr. NIELDS. Actually, the end user certifications were supplied on their face, were they not--they bear the name of Mr. Secord's company?"

"Mr. MCFARLANE. I think that is a valid point. Not until this investigation have I looked at the end user certificates, and if I had that would certainly have flagged my attention, because it it [sic (is)] an American company being referenced there.

That is correct, but I always did the action papers at the end of the day, at 6 o'clock, when people would go home and I would get most of my work done, paper work done between 6 and 10. So I would go through and determine what the operative requirement was for me, what am I being asked to do, in this case sign a memorandum asking whether or not a certain country ought to be beneficiary of foreign aid.

IOB CONCLUSION: BOLAND NOT APPLICABLE TO NSC

IOB MEMO:

Memorandum from the President's Intelligence Oversight Board to Robert McFarlane. Memo concludes -- based on review of documents provided by NSC counsel Thompson (30-45 min. meeting) and a 5-10 min. interview with North -- that the Boland Amendment does not apply to the NSC. The NSC is not an intelligence agency named in the Intelligence Authorization Act for FY85, and none of North's activities during 1985 would have violated Boland even if North came within its prohibitions.

A copy of the memorandum, minus date and routing information, was later found in North's safe. (JHICI Exx. BS 9, 9-A; Sciaroni Testim., JHICI, 6/8/87, at 3-29, 43-72, 123-35.)

ROBERTSON BUMPS INTO NORTH AT THE AIRPORT
ROBERTSON REPORT AND NORTH RESPONSE:

"Mr. NUNN. Colonel, there is an article . . . in the Los Angeles Times dated July 11, 1987. Just so you and your counsel can take a look at it, I am going to quote one paragraph in here. I will send it to you and let you take a look at it. "It is a rather short article, and it says--the caption is 'Robertson says North told

| | | | "Going down to a paragraph which I have circled and labeled 1, quoting from the article and this is a quote of Reverend Robertson, "We just happened to bump into each other," Robertson said about his encounter with North on September 13, 1985, "at a private air terminal in Washington. He just happened to say, 'I'm going to Iran to meet some of the leadership to try to negotiate the release of some of our hostages.'" " |
| | | | "My question, Colonel North, did you--do you recall that conversation with Reverend Robertson?" |
| | | | "Mr. NORTH. I do not sir. |
| | | | "I would also note that it goes on to say that North asked the Reverend Robertson to pray for me. I have done that often. I am grateful for the prayers of many. |
| | | | "I do not recall that conversation. I also note that if it was September 13, 1985, it is well before we had made those plans. I don't believe that we actually addressed plans to go to Tehran until February of '86. |
| | | | "Mr. NUNN. So you wouldn't have been going to Iran at that time? |
| | | | "Mr. NORTH. Sir, I only went once. That was in May of '86. |
| | | | "My recollection is that those plans were laid down actually for two trips in February of 1986, during our first meetings face to face with the Iranian government officials. |
| | | | "Mr. NUNN. So really this is an erroneous article and Reverend Robertson's memory is not correct on this point? |

an initiative with Iran?

"A. Well, it was sometime in the latter half of '85. I became aware -- based on reports from Mr. McFarlane to me I became aware of the Israeli proposal. So to answer your question I don't remember precisely, but it was sometime between July and November.

"Q. Was it before the President's operation or after?

"A. I can't place it.

"Q. Was it before or after the Israelis shipped the 508 TOWs?

"A. I think I became aware of it before that, so that would place it sometime before the last of August, I guess.

"Q. Did Mr. McFarlane tell you that the President had approved it?

"A. I have a vague recollection of a telephone call that Mr. McFarlane got from the President when the President was at Camp David one weekend and Mr. McFarlane, I believe, reported that conversation to me and I think that's as best I can place it.

"Q. What was the conversation about?

"A. That the President agreed that the Israeli proposal should be pursued. You see, my recollection of it is very fuzzy, and my recollection was prompted by, I think, something that Mr. McFarlane said in the hearings. I do recall that the President was at Camp David one weekend and Mr. McFarlane told me about a telephone call that he had gotten from the President and that it was related to the Israeli

proposal. That's as best as I can --

"Q. Admiral, you understood that the Israeli proposal involved sending some TOWs?

"A. I'm not certain when I became aware of that.

"Q. When he told you that the Israeli [sic] President had given some kind of green light to the Israeli proposal, what was the proposal that he gave his blessing?

"A. That's what I don't have a good recollection.

"MR. BECKLER: Have you got memos?

"BY MR. LIMAN: (Resuming)

"Q. I have something I could show you, but I don't know whether you've seen it and we'll mark it as the next exhibit, a July 13, 1985 document from the White House to the Secretary of State's aircraft, and it's by Mr. McFarlane.

" . . .

"Just so that when you read it you'll know the question you're going to be asked in the end, I'm not going to be questioning you about the merits of the contents. It's just whether you've seen this document and does it refresh your recollection that they were talking about 100 TOWs and hostages.

"(Pause.)

"A. I don't think I've seen this before. I may have, but it just doesn't ring any bells.

"Q. Does it refresh your recollection at all that the proposal that was under consideration involved the transfer of some TOWs by Israel and the expectation that there would be some hostages

"A. The TOWs just don't stand out in my memory. I clearly during this time frame knew the hostages were involved, but I frankly just can't recall TOWs being mentioned. And -- well, go ahead. All I was going to say is that I don't believe it was until sometime, it may even have been as late as the meeting with Nir on the second of January, that I realized that we had a commitment to sell the Israelis the 508 TOWs.

"A. That's correct.

"Q. And is it also fair to say that after a period of very cold relations with Iraq that you were aware that the State Department had been trying to develop some relationship with Iraq?

"A. At this point let me -- the policy objective here was to end the Iran-Iraq war with no winners and no losers. We didn't want Iran to be the victor; on the other hand, we didn't want Iraq to be the victor. Our official position, public position, was one of neutrality.

"The reason that we pushed our allies not to ship arms had as its policy objective an end to the war. The efforts to staunch the flow of arms was a method to achieve an end, which was the policy objective.

OWEN'S CONTRA ACTIVITIES: MONEY DELIVERIES
OWEN ACCOUNT:

Owen travels to New York at the request of
Copp (Secord), whom North has asked Owen to
contact. Secord gives Owen an address and
instructions for a meeting.

It is Rosh Hashanah; the banks are closed;
Secord need cash. Owen flies into New York and
takes a cab to a corner Chinese market on the
lower west side. Owen asks for a person by code
name (Owen: "I think it was something like
'Mooney'"). A man walks behind the counter, rolls
up his pants leg and pulls out a wad of \$100
bills.

Owen takes the wad and counts the bills.
There are 95 of them.

Owen returns to Washington and goes to meet
Secord at the Sheraton Carlton. He sees Secord
sitting at the bar. Owen goes downstairs to a pay
phone and calls Secord at the bar. When they meet
in the lobby, Owen passes Secord a newspaper with
the money inside.

At some point, Owen suggests to Secord that
the money-changer has taken his five percent.

everyone was compartmentalizing, or at least that was the effort, keeping this very secret. Your testimony and many others was that one of the reasons that you didn't let this get out to Congress or to the other people in the administration was the sensitivity, the lives involved. Yet, here the President of the United States was asked a question indicating some very sensitive information is in the hands of the interviewer, and no one knows about it. Nobody investigates it. Admiral Poindexter is never notified. You, as Attorney General, weren't notified. No one did anything about it.

Switching to another subject, Admiral Poindexter, we discussed with Colonel North [see 85/09/13-100], I did the other day, The Los Angeles Times article about Reverend Robertson and what he had said in that article North had told him about the effort to get hostages back. "Mr. POINDEXTER. I followed it.

"Mr. NUNN. It has come to my attention that there was an interview that took place on television with Reverend Robertson interviewing President Reagan in a televised interview which was aired on September 20, 1985 and in that transcript, which I will read to you, Reverend Robertson says to President Reagan, 'Word reached us that a member of the White House staff was dispatched on Sunday to Iran to seek the release of the remaining six' and actually was seven at that time. 'Is there any word on that that might give hope to us?'

"President Reagan answers, 'Well, I can't really talk about what we are doing because I don't want to do anything that would endanger the prospects of the others being freed. I can only say that we have explored every avenue. We have been working for this all the time. Since the first one, Mr. Buckley, was kidnapped and I know that some of the families have grown impatient because they don't see things in the paper. We don't think we are doing anything' --that is the way it reads-- 'but going public and being in the paper is not the way to get the Reverend Weir back or any of the others.'

"My question is, were you alerted to that question having been posed to the Department?

"Mr. POINDEXTER. I don't recall, Senator, being aware of that at the time.

North notifies Castillo that Robert Olmstead will be arriving in Costa Rica to negotiate with the owner of the property on which the airstrip is to be constructed to "purchase or lease or [get] permission to use the property." Olmstead's primary role, Castillo understood at the time, would be to negotiate for the property.

Once Olmstead acquires the land, Castillo does not see him again. (Castillo Testim., JHICI, 5/29/87, at 42-44 [Castillo: "I have heard the term \$50,000, but I don't know how that sum figures into whatever the lease-purchase arrangement was."].)

OWEN'S CONTRA ACTIVITIES: INVOLVEMENT WITH NHAO

OWEN ACCOUNT:

After Congress passes a Contra humanitarian aid bill in August of 1985, the Nicaraguan Humanitarian Assistance Office (NHAO) is set up under Robert Duemling, with Cresencio Arcos as his deputy.

North decides to move Owen out of the airlift project and into NHAO. Evenor Baldivia, General Secretary of the United Nicaraguan Opposition, has a similar idea and sends Duemling a letter on September 3.

Owen meets with Duemling and Arcos several times during September and October. Owen testified that Duemling was reluctant to hire him: "He wasn't quite sure how I would be able to help out. I think he also felt he may have been

receiving undue pressure from possibly Colonel North or others to bring me on board."

Owen testified he thought the interagency group composed of Abrams, North, and the CIA CATF had decided Owen should be hired by NHAO.

Then, in October 1986, Alfonso Robelo, Arturo Cruz, and Adolfo Calero sent Duemling a letter asking that he retain the Institute for Democracy, Education and Assistance (IDEA), a non-profit organization set up by Owen, to help disburse the humanitarian assistance. NHAO contracts with IDEA, and Owen stays with IDEA as its employee. (Owen Testim., JHICI, 5/19/87, at 10-11, 19-21.)

Gadd contacts Mario Calero, and eventually contracts with the U.S. State Department to fly humanitarian supplies from the U.S. to Central America.

In December 1985 or January 1986, Gadd, accompanied by North, meets with Ambassador Robert Duemling and his staff at the NHAO office in Rosslyn, Virginia to describe his capability to transport the supplies.

SINGLAUB'S AND NORTH'S CONTRA ACTIVITIES: WEAPONS
PROCUREMENT

SINGLAUB ACCOUNT:

Mario Delamico, who in July had met Singlaub's arms shipment at a third country port on behalf of the military official of that country, calls Singlaub from Miami. Singlaub is in Los Angeles giving a speech. Delamico insists he will fly to Los Angeles and meet Singlaub.

Later, they get together for "a several-hour conversation" in Los Angeles. Delamico claims he works for Ron Martin, "a recognized arms dealer from Miami." Singlaub takes his statements as a threat: that Singlaub must "never send another ship as we did in the past [but instead should] request and purchase the weapons systems from " Ron Martin. Singlaub responds that if Delamico's company can meet the quality and cost requirements, Singlaub will do business with him.

In a meeting at North's office "in October of 1985 or thereabouts," Singlaub tells North about Delamico's message. Singlaub tells North he "hopes that there was not going to be any pressure placed on us to buy from this company which would give us only half the weapons for the same amount of money." North agrees it is a threat and states "that he would take whatever action was necessary on this." (Singlaub Testim., JHICI, 5/20/87, at 224-28. "Mr. MCFARLANE. No.

"Mr. NIELDS. And that resulted in his sending you another letter?

"Mr. MCFARLANE. Yes.

"Mr. NIELDS. And that letter is marked exhibit 40c. Do you have that in front of you?

"Mr. MCFARLANE. Yes, I do.

"Mr. NIELDS. And that is a letter to you from Congressman Barnes dated September 30, 1985, is that correct?

"Mr. MCFARLANE. Yes, it is.

"Mr. NIELDS. And it says in its third paragraph, 'I am sure you understand the pertinent documents must be provided if the committee is to be able to fulfill its obligations.' Do you see that?

"Mr. MCFARLANE. Yes.

"Mr. NIELDS. Congressman Barnes wanted to be able to look himself at the same documents which you had looked at?

"Mr. NIELDS. But I take it you did not want him to look at those documents?

"Mr. MCFARLANE. No, I invited him down to allow him to look at them.

"Mr. NIELDS. Before you did that, didn't you have a conversation with Mr. Thompson on the subject of whether it was proper to re-write the documents?

"Mr. MCFARLANE. Yes, but that didn't affect what happened to the documents prepared and collected for this investigation.

"Mr. NIELDS. But you did discuss that with Mr. Thompson and he told you that he thought documents that go from an inferior to a superior and that were put in NSC files could not be re-written?

"Mr. MCFARLANE. Yes.

"Mr. NIELDS. And nonetheless, you had North draft some revisions to one or two of these documents?

"Mr. MCFARLANE. Well, it isn't nonetheless, because only after North made the distinction between what I interpreted and what was true and went away to write what he said to be the true case did he [sic] then consult with Mr. Thompson and based upon what he said, although I didn't take it as an informed opinion, truly, I did not

integrate what Colonel North had written.

"Mr. NIELDS. So, first, you had North re-write a couple of the documents, then you [sic] went to Mr. Thompson and asked him if it was proper and he said no, and you, in fact, did not re-write any of the documents?

"Mr. MCFARLANE. None of them were integrated into existing files.

"Mr. NIELDS. Thereafter, one week after you had decided not to re-write the documents, you did contemplate withholding them from Congress, did you not?

"Mr. MCFARLANE. Well, I asked the advice of counsel in the White House at the time, Mr. Fielding, and I was looking for his advice on how to handle an executive legislative matter, and this was a fairly common occurrence where various committees would seek information, and there were about a half a dozen different ways of meeting the needs of the Congress and the needs of the White House in this case, and they included such alternatives as sending the documents if they didn't involve any advice to the President, taking the documents to the Hill to be read at the Hill with staff, short of that, taking them to the Hill, but no staff, short of that, bringing the Member to the White House with staff, short of that, without staff, and so forth.

"But that kind of call was normally made by the Legislative Office or by the counsel in the White House, and that is why I asked Mr. Fielding about it.

"Mr. NIELDS. Or simply flatly asserting

NORTH-HAKIM CONTACT, AND THE COSTA RICAN

AIRSTRIIP

GADD ACCOUNT:

Unsolicited, Gadd testified that North knew Hakim as early as October 1985 (compare 86/02/24-200 and -205) when both attended a meeting on the Costa Rican airstrip:

"Q. In or about October 1985 did you attend a meeting with Oliver North, where North asked you to conduct a study to build an air strip in Costa Rica?

"A. Yes.

" . . .

"Q. And who else was present at this meeting?

"A. General Second, an associate of Colonel North, whose name I believe is Olmstead--

"Q. Did Colonel North introduce you to

Olmstead?

"A. Yes.

"Q. And?

"A. And I believe Albert Hakim was also at the meeting.

". . . .

"Q. Did North say anything with reference to Olmstead and this airstrip?

"A. Yes.

"Q. What did he say?

"A. He informed me that Olmstead had been at the location and had surveyed it, taken pictures, and dealt[] with the locals in the area.

"Q. And was it indicated at the meeting by Oliver North or anyone else that the permission of the Costa Rican Government had been obtained?

"A. Yes.

". . . .

"Q. Were you subsequently hired or did you generally agree to conduct the study?

"A. Yes.

"Q. And did you hire personnel to draw up a plan to build the airstrip?

"A. Yes.

"Q. And who was to pay you for the airstrip, and your work?

"A. General Secord stated that he would arrange for that payment.

"Q. And did you subsequently construct the airstrip through one of your subsidiaries, EAST?

"A. We supervised the construction of the airstrip.

"Q. Sir, could you estimate to the best of your ability what profit you obtained from working on this project?

"A. Yes.

"Q. And could you estimate how much profit you had obtained from this activity?

"A. The construction of the air strip?

"Q. Yes, sir.

"A. In terms of dollar amount?

"Q. Yes.

"A. I cannot estimate that. What do you mean by profit?

"Q. Well, you said you were making a profit on it.

"A. Correct.

"Q. [How] were you making a profit?

"A. Income exceeded expense.

"Q. That is my question. How much did the income exceed the expense by?

"(Discussion off the record.)

"(Whereupon, the reporter read the record as directed.)

"THE WITNESS: I do not know. However, gross receivables exceeded \$100,000 for construction of that airfield.

"Q. And that was money paid to you through General Secord?

"A. That was money paid to the company through General Secord."

North informs Castillo that Rafael Quintero will be arriving in Costa Rica. THE COSTA RICAN AIRSTRIP: CIA NON-AWARENESS

CASTILLO ACCOUNT:

Castillo testifying on why he did not relay word of the airstrip construction to his CIA superiors:

"Mr. Eggleston. You have indicated that there are a couple of reasons you didn't report. You said they were clearing a plot of land and there is nothing illegal about that. They weren't clearing a plot of land to establish an apple orchard, you knew they were going to establish an airfield there apparently under the direction or control of Colonel North, to resupply contras in the southern part of Nicaragua.

"That is correct, is it not?

"Mr. Castillo. Well, yes, it was correct that they were going to construct an airfield. How much Colonel North was involved in the decision making process, I don't know. He was connected to it. That it was an airfield to be used eventually for the contras, yes, that is true, but in and of itself, it wasn't necessarily an illegal or an intelligence activity, by my interpretation.

"Mr. Eggleston. And --

judgment call on it, but that is what I decided. I decided not to make it a matter of official record.

"Mr. Eggleston. You knew as well, though, that this was a 'hot area'. This was a hot area -- the Boland amendment legally, and you have indicated several times that it was a hot area politically[. Was part of the reason that you decided not to report on this [] because of the sensitive nature of the area -- so there will be nothing official reported about it?

"Mr. Castillo. I am not trying to avoid the question. I simply don't know what my thoughts were at that time. Probably if there was anything, it is that I assume -- I would have assumed that headquarters simply wouldn't want to have known about it.

". . . .

"Mr. Eggleston. Did you think the reason headquarters didn't want to know about it is because Colonel North was involved in establishing an airfield?

"Mr. Castillo. I can't speak for why I thought headquarters would not want to know about it. That is a conclusion that I reached. I think that was in my mind at that time."

(Castillo Testim., JHICI, 5/29/87, at 104-06.)

there were discussions at the RIG meetings that you attended about an alternative air base to use and that in connection with those discussions, Oliver North indicated or identified [redacted] that could be used to continue the flights; is that correct?

"[C/CATF.] That is correct. It was more early winter than fall, November, December.

"Mr. Carome. When did you become aware Felix Rodriguez, otherwise known as Max Gomez, was a key operator working on [redacted] project?

"[C/CATF.] I knew that Felix Rodriguez was in [redacted] in the fall, earlier in the fall of 1985, [redacted.] It was attendant to the discussions about arranging a transshipment facility that took place in November-December of 1985 that his name came up in the context of working in [redacted] as part of the transshipment operation.

"Mr. Carome. Would you please take a look at [C/CATF] Exhibit 15, the second page of that exhibit. This is an exhibit we looked at yesterday [see 85/08/29-250]. It is meetings [sic (minutes)] of a NHAO meeting dated October 1.

". . . .

"Mr. Carome. On page 2 there is a reference, it said Mr. Green said to call Max Gomez. Do you recall at that October 1 meeting there was a discussion of Max Gomez operating out of [redacted.]

"[C/CATF.] On October 1.

"Mr. Carome. That is correct. That is the date of these notes.

"[C/CATF.] I don't recall that, no, I don't. On October 1 I don't believe that the problem, to the best of my recollection, I don't believe the problem with [redacted] had come into full blow yet and I don't recall, as I testified in my deposition, a Mr. Green.

"Mr. Carome. When did you become aware that the team at [redacted] was dropping lethal, as well as non-lethal supplies to the Nicaraguan contras?

"[C/CATF.] Let me answer that in two parts. I would have understood that the team at [redacted] was transshipping lethal material from [redacted] or at least partial loads in small amounts in January of maybe late February, because we very much -- we have talked a lot about the 10 percent rule and whether or not partial loads could have been mixed in that transshipment and I believe members of the committee will recall those discussions.

"It would have been about that same time or maybe a little bit thereafter that I would have begun to see these flights were also dropping into Nicaragua.

"Now, I want to add that there was some [redacted] reporting that I have seen subsequently [redacted] which indicated that they were going to contract -- arrange for a contract for handling their resupply problem, and I don't recall at the time having linked that with [redacted] with the drops inside. I subsequently do, but I would say I really began to understand that the people who were handling the transshipment out of [redacted]

were also going to be doing other missions in January at some point in time.

"Mr. Carome. There is a reference, and I believe you have already referred to it, in this Exhibit 15, to a Mr. Green. Felix Rodriguez has testified that Mr. Green was a code name being used in the arrangements later in 1985 for a lethal drop to the contras. Do you recall the discussion at that October 1 meeting turning to the subject of a lethal drop being organized by Mr. Gomez?

"[C/CATF.] I don't recall any discussions within the context of NHAO, and that would be within the context of the RIG where we discussed lethal drops, and I don't recall a Mr. Green and I think it is very important to establish at this juncture because we are going to be moving into this that there are parts of this story that I will know and there are parts of this story that I don't know, and I kind of phase in and out of it and I will testify as we go along."

by McFarlane to the HPSCI after McFarlane's briefing of the Intelligence Committee a month earlier on September 10, 1985:

"Mr. NIELDS. And you helped prepare those answers to those questions, did you not?"

"Mr. NORTH. I am sure that I did."

"Mr. NIELDS. And if you look at the first page . . . of the answers, the second page of the exhibit, there is a question 3, and it says, 'When the CIA had to withdraw from their day-to-day contact with the rebels, it has been alleged in the New York Times that Colonel North tried to fill the void partly through helping facilitate the supplying of logistics help. Did Colonel North in his capacity as a staff member of the National Security Council use his influence to facilitate the movement of supplies either raised privately in this country or otherwise to the contras?'"

"And the answer reads as follows: 'Lieutenant Colonel North did not use his influence to facilitate the movement of supplies to the resistance.'"

"That is false, too, isn't it?"

"Mr. NORTH. Yes."

"Mr. NIELDS. Then if you go to the fifth page of the exhibit, there is a question No. 2, which is, 'General Singlaub has stated in the Washington Post that he would often talk to Colonel North and inform him what he was doing, and then state that if it was a dumb idea for North to send him a signal. Is that your impression of the relationship between Singlaub and Colonel North?"

"The answer is not a simple yes or no. The answer is, 'There is no official or unofficial relationship with any member of the NSC staff regarding fund raising for the Nicaraguan democratic opposition. This includes the alleged relationship with General Singlaub.'

"That is false, too, isn't it?

"Mr. NORTH. I don't know what the definition of an official or unofficial relationship is, but I certainly saw General Singlaub a lot related to support for the Nicaraguan resistance. I have testified to that.

"....

"Mr. NIELDS. Going back to page 2 again, . . . there is a question 2 and an answer 2. The question refers to newspaper allegations and the answer reads as follows: 'The allegation that Lieutenant Colonel North offered the resistance tactical advice and direction is, as I indicated in my briefing, patently untrue.'

"That wasn't true either, was it?

"Mr. NORTH. I never sat down in the battlefield and offered direct tactical advice, but I certainly did have a number of discussions with the resistance about military activities, yes, to include the broader strategy for the southern front and an Atlantic front and an internal front."

"Q. And what was the reaction of the Israelis when Ghorbanifar would raise a possibility of additional arms shipments?

"A. Well, it didn't exactly happen that way. He gave us long lists of missiles that he's like to have and I expressed an opinion that I thought that this was as good a time as any to get out of this whole business and that we ought to just stop talking about the hostages altogether.

". . . .

"Q. Did you feel that, by this point, what had been a two part proposal with arms exchanges for hostages being only one small part of the proposal, had now become a one part proposal which was solely arms for hostages?

"A. No, because the other part was there. The discussion of the political matters had, in fact, Ghorbanifar asking us for dates when we could start to meet with some of the Iranians and try to arrange the set-up of such meetings, where could we meet them and so forth and who would be present. So that was certainly there and indeed, when I said I thought that we ought to get out of his hostage business, Ghorbanifar endorsed it. I asked him, I said look, I'm not in a position to make a decision anyway, but what I propose to say to McFarlane is that I think it's a lousy idea, what do you think. He said, I think that that is correct and that if we continue with this, we shall all become hostages to the hostages." (Ledeen, Senate Dep., 6/19/87, at 81-84. There was no way to continue with the arms part of the arms for hostages without continuing with the hostage part. "Q. So you think he was prepared to abandon his efforts to obtain arms for Iran as of October 8? "A. All I can do is report to you what he said at the meeting. At the meeting, he said that he thought it was a mistake to continue with the hostages for the reasons stated. That we would find our hands tied and we would be unable to move on other matters because we would be locked into the hostage question. That proved to be an accurate forecast. He--there is sometimes a confusion between what Mr. Ghorbanifar believes and what he is being asked to transmit by his government and one should try to distinguish between those two. "Q. "Q. In whose office did you meet with him?

"A. We met in no one's office. We used an empty conference room on the third floor.

"Q. Why did you decide to meet with him there rather than at your home or some other place?

"A. I think because originally the intention was that Ollie would attend to at least part of the meeting and it would be more convenient for him just to walk down the hall rather than to go out of the building and have to go someplace else and then come back.

"Q. As far as you know, did Ollie meet with them at all when they were in the United States at this time?

"A. I think that Ollie met with Schwimmer at that time and he may have met Ghorbanifar. I just don't remember but I don't think so."

OWEN'S WEDDING PRESENT

OWEN ACCOUNT:

North, just back from Central America, gives Owen \$1,000 in traveler's checks as a wedding present. At the time, Calero has been short of money and has not fully paid Owen. North tells Owen, "We want you to have it." North does not explain who, but Owen assumes he includes Calero, since he had also invited Calero to his wedding. (Calero apparently did not go.)

Owen testified, "Maybe Adolfo Calero thought that would be a nice wedding present for me." (Owen Testim., JHICI, 5/19/87, at 53-54.)

correct? The arms sales from Israel to Iran?

"A. Yes.

"Q. Do you also recall a discussion with Mr. Schwimmer about the possibility that payments would have to be made to this senior Iranian official or other Iranian officials?

"A. Well, I would put it differently.

Schwimmer, Nimrodi, and I had a conversation in which we considered the possibility that at some time in the future, it might be necessary to provide money for a cooperative project with people like this senior Iranian official and/or others and that, in the event that that became necessary, it might be wise for us to have a separate account in which any money used for that project would be placed or through which it would pass so as not to confuse the two accounts for the arms sales on the one hand, and then this on the other.

"Q. What were these payments to be used for by [sic] these Iranian officials?

"A. Well, it wasn't clear but it was in the manner of a contingency account in the event that we wished to do it, so whether we wanted to provide things like communications gear for them, or weapons or ammunition, or airplane tickets to travel to meet with us from time to time, or hotels overseas to stay in if we were going to talk to them, or whatever it might be.

"Q. Or to give them money to be used for expenses they had in Iran?

"He provided us with considerable information about what was going on inside the country. And he said that he believed that with proper support and cooperation from the United States, that a significant degree of change could be achieved in Iran peacefully through elections.

"He thought that he and his people were sufficiently strong, that they could place their people in a series of key positions in the government, and that one way in which that could be helped would be little ways in which we could demonstrate that he had the support of the United States, since this would carry weight inside Iran and show his people that this was, in fact, the case.

"He offered to establish not only a close working relationship, but a secure communications channel. And he asked if we could provide him with secure communications. So we could be in regular contact with him so he would be sure what he did was in sync with what we thought it was desirable to do, and he could ask for advice, provide us with information and all those other things.

"At the conclusion of our conversation, he provided me with a document, a signed letter which expressed not only his willingness to cooperate in various ways in which he would cooperate, and the kinds of objectives that we might achieve together, but also the names of all the other Iranians who felt the same way, and for whom he spoke, and who would do this. "Q. . . . Was there any discussion of arms in that conversation?

"A. Yes. The discussion of arms in two contexts. He was vociferously opposed to what had been done in providing weapons to the Iranian regime over the course of the past couple of months, said that all we could achieve by sending arms to Iran was to strengthen the Khomeini regime, which was the opposite of what he thought we were about, and said that this was a terrible thing, and had cost them the possibility of achieving a significant advance in that period, since those people had been weakening, and the arms shipment had, in fact, strengthened them. NORTH'S CONTRA ACTIVITIES: PRIVATE FUND-RAISING

MILLER NOTE:

Handwritten note by Richard Miller records a "pitch" to be given by "Green" (alias for North) to Mrs. Newington to elicit a contribution for the Contras. The note states that "[you are] the most secure person we know in the U.S." and that "[w]e are asking you to take on a project that requires your kind of person." (Iran-Contra Report, at 94 [citing Committee Document RM 1042; see Miller Dep., 8/20/87, at 248-50]. On private fund-raising for the Contras, see generally 85/04/30-800; 85/08/01-410, -420. See also Hall Testim., JHICI, 6/8/87, at 205 [Fawn Hall identifies Green as a code name for North].)

That has been an area that has been kind of murky up because the President provided the authority in early August for Israel to undertake, to sell arms to Iran, and to then come to the United States for replenishment, to buy new ones.

"That didn't require then the Israelis to come back to us on each occasion and get new approval. It also had limitations on it, so that it just wasn't open-ended, but -- well, that is the way it was."

| | | | "As I recall, the Director of Central Intelligence was out of town, and in my discussions which followed with the MOO representatives, they specified a replenishment problem. In addition to solving the immediate problem of getting the Hawks, the original number of which was to be 120, moved from Israel through a European country and then on to Iran, there was the problem of replenishing the TOWs which had been shipped in August-September. |
| | | | "As I recall, I made a number of telephone calls to the Department of Defense, to my point of contact. I think it was at that point either Mr. Koch or General Powell [was] trying to ascertain the cost of a Hawk system, the cost of a TOW system. There was a rather protracted period of time in which all of this was worked out. |

THE 11/85 HAWK TRANSACTION: REPLENISHMENT
NORTH ACCOUNT:

North testified on what he knew of the arrangements to replenish the weapons sent to Iran from Israel:

"[M]y recollection is that we had made a commitment unbeknownst to me, and it was a confusing commitment. The Israelis expected to be able to, initially, the way they presented it, to have gratis given to them, 508 TOWs in replenishment for what they had shipped in August and September. And the same thing applied to the November Hawks.

"My introduction to this was a discussion with a senior Israeli official in New York, and it was not until January of 1986 that we came upon a way to actually replenish the Israeli stocks.

"Mr. McFarlane described one answer that he

"We had had very good meetings, and this was a social dinner that the President was the host for.

"But it was very clear to me that, as far as I was concerned, it was going to be a working dinner because we--while we had made headway and I thought we had things pretty well under--they weren't nailed down as to exactly what was going to happen the next morning, and we had a big negotiation going on about a statement, so that was what I was preparing myself for, how to make that into something productive, which it turned out to be.

"And this phone call came in kind of out of the blue, about a hostages, release and arms sales, to Iran.

"Mr. BELNICK. And did Mr. McFarlane tell you that it was then proposed that Israel would send an air shipment--through a European city--of some 100 Hawks to Iran?

"Secretary SHULTZ. Yes. That was--he described the structure of a deal in which a plane would go from I think someplace in . . . [a European country], as I remember, and it would be contingent on release of the hostages, a rather complex arrangement.

"Mr. BELNICK. But the burden of it was if the hostages came out, the weapons would go to Iran; if they didn't, the weapons wouldn't?

"Secretary SHULTZ. Exactly. It was a straight-out arms-for-hostages deal.

"Mr. BELNICK. What did you tell Mr. McFarlane?

"A. I learned that on November 18th, 1985 several things happened. One was a story about Ollie North stumbling on a warehouse in a certain country. And then a call from Bud McFarlane to the Secretary, or a conversation in which he said that the hostages, American hostages in Lebanon were going to be released on November 20th.

"Mr. NORTH. I have no recollection of it at all. Although we did see . . . large quantities of money which were being moved to take this process forward.

"I confess not to be able to remember how the one million dollar figure came up.

"Mr. NIELDS. Was the one million dollars to cover both the transporting of arms from the U.S. to Israel and from Israel to Iran or just one?

"Mr. NORTH. Well, as I said just a moment ago, it was at least the latter and may well have by this point in time included both.

"I simply don't recall.

"Mr. NIELDS. Now, our records reflect that one million dollars was actually deposited into Lake Resources on the 20th of November, which is also earlier than Mr. Second testified was the first time when he had any obligations whatever with respect to transporting merchandise. And I need to ask you this question, it is an important question.

"Was there any understanding or discussion that a million dollars would be deposited into the Lake Resources account for the benefit of the contras?

"Mr. NORTH. Not at that point, no. I do not recall a specific discussion of that until much later.

SECOND ACCOUNT:

Secord testified in his deposition that Thomas Clines and two local arms company employees were aware in November 1985 that the flights being arranged were to contain HAWK missiles.

The HAWKS were to be shipped from Israel to a European city where they would be unloaded, stored and then placed on a different airline for shipment on to Iran. Secord testified the foreign minister and prime minister of the European country were both informed of the cargo the planes would carry. Because the planes would be unloaded during the transshipment, Secord testified, the host country officials had to be informed of their contents. It might possibly lead to our getting some of our hostages out, and we were hopeful, but I would keep the President apprised of what was going on.

"Quite obviously, that was not the number-one topic on our minds, at least I put it out of my mind until at one point, on the margins of the meeting, McFarlane asked if he could talk to the President about a different subject. So we went off in a corner, as I recall, and he told the President that--it was a very convoluted arrangement in which a plane would go to a warehouse in . . . [a European country] or some other such spot, and would pick up planes--pick up arms there and fly them to Israel. They would then go to one or another city in Iran, and at the same time, they were making arrangements to try to get hostages out. It was a very complicated maneuver.

"And he said he would keep the President up on whether or not it had happened. We heard nothing more about it until after we got back from Geneva, in which he said that the thing apparently hadn't gone satisfactorily, the wrong shipment had been made, so on.

While Mr. McFarlane was in Geneva, I received a telephone call from Commander Thompson who was his military assistant and later mine, and said that Mr. McFarlane had called Colonel North to ask him to work on an Israeli problem that they were having with aircraft. |

Colonel North over to find out what the issue was, and I can't recall whether in that first meeting with Colonel North that it was clear that the Hawk missiles were involved, but it was my recollection--my recollection is that it was clear that some kind of weapons [was] involved.

"Mr. LIMAN. And do you recall, if you look at Exhibit [JMP] 17--

"Mr. POINDEXTER. I have it.

"Mr. LIMAN. And this is a PROF note . . . to you from Oliver North?

"Mr. POINDEXTER. Yes, it is.

"Mr. LIMAN. And it is November 20, 1985 PROF note in which Mr. North stated, 'The Israelis will deliver 80 modified Hawks.'

"He went on to say, and I am still quoting,

'There is a requirement for 40 additional weapons of the same nomenclature for a total requirement of 120.'

"Then he referred to the fact that as a result of this there was an expectation of the five hostages being released and that the only requirement for the United States was to provide replenishment of those Hawks.

"Do you recall that, sir?

"Mr. POINDEXTER. I do now.

"Mr. LIMAN. And you have looked at a lot of documents over the last month, and do you also recall that you got involved in dealing with the Defense Department at one point in seeking the reimbursement of the Hawks for the Israelis?

"Mr. POINDEXTER. Yes, Mr. Liman, that is correct.

"I would like to add one point here, and that is that as everybody can imagine, with the importance of the issues that are being discussed here, I have spent a lot of time since leaving the White House trying to reconstruct, to the best of my ability, what happened.

"And the committee staff and the White House, as I said, have recently made a significant number of documents available, and I have gone through many of these, so my recollections have been refreshed from what they were in November of 1986."

"Q. You do recall, because we went over it last time, that when McFarlane went over to the summit in Geneva you got pulled into that HAWK shipment?

"A. That's correct, from the standpoint that Commander Thompson called me and said that Mr. McFarlane had called Colonel North to ask him to work on an Israeli aircraft problem.

"Q. And we looked over some PROF notes that you received at that time. Were you told in November of '85 before McFarlane went to Geneva that he had been visited by Rabin?

"A. That Mr. McFarlane was visited by Rabin?

"Q. Yes. Just before he left for Geneva.

"Mr. NORTH. Yes.

"Mr. LIMAN. And the point I want to elicit is the Tower Board indicated that this started as a broad initiative and evolved during your period of management of it into a straight arms-for-hostages transaction, and is it fair to say that from the time of your active involvement in November, you found it as an arms-for-hostages transaction . . . , or you attempted to evolve it into something that was broader?

"Mr. NORTH. Again, I am not trying to pass the buck at all, Counsel. In the discussions I had[,] and the very first person to address this issue with me, I believe, was Mr. Ledeen, he clearly saw, envisioned the broader objectives even though that initial finding did not articulate that and I think that is probably because of the compartmented nature of the preparation of that initial finding, it is almost cyclical.

"You had an intent back in June-July-August whenever that all began, the expression of that intent, I think, is flawed in that November finding, and my effort was in January to get it back on track and that was certainly shared in the discussions I had with Director Casey, one of which was at his home in the preparation of that second finding."

"Mr. Eggleston. And this is a cable from [redacted] to you; is that correct?

"Mr. Clarridge. This is correct.

"Mr. Eggleston. Let me read to you from the first paragraph -- it says, 'At 1603 hours local, Copp,' which is Second, 'advised that [redacted] the Ministry of Foreign Affairs in principle opposed clearance and would recommend same to Minister.'

"Then if you go down to paragraph 2, it reads: 'Copp called back again while I was writing this message. I advised him above. He called White House and recommended authorization for [redacted] to pull Minister out of cabinet meeting. He said McFarlane was being pulled out of meeting with Pope. He said my instructions were to pull out all stops.'

"[Redacted.] As of the day that these messages are taking place, do you yet have any knowledge, have you been told what it is that is on the aircraft?

"Mr. Clarridge. I cannot recall specifically when I was told that there were sophisticated oil-drilling spare parts on the aircraft. I don't know whether it was by this time or later on in the day."

"Mr. Eggleston. Mr. Clarridge, let me ask you now, not directed to this initiative perhaps as much as perhaps just generally, is it fair to say that weapons require special handling on aircraft and airports? They require a different kind of handling than other forms of non-lethal cargo?

"Secretary SHULTZ. No, but I believe what happened was, as I now understand it--though this is all news to me since this came out--that the communications were via a non-State channel and that Ambassador Oakley, who was then our Ambassador-at-Large for Counterterrorism, was approached and asked to help on this and he authorized a cable to the charge about it.

"So there was that--the State Department was in the loop to that extent. Not in describing to Ambassador Oakley what was being shipped, but just that there was a sensitive shipment that they wanted to get cleared, as I understand it. You may want to talk to him about that.

"Mr. BELNICK. We have. If you look at Exhibit [GPS] 55, Mr. Secretary, you will see and the panel will see a copy of an affidavit from Ambassador Oakley in which he records what he was told at the time in November 1985 by Colonel North so that he would contact your embassy in the European country. You will see on the first page of that affidavit, that Colonel North told Ambassador Oakley that . . . he, Colonel North, had become aware of Israeli arms shipments to Iran, that he had discovered that relationship be[cause] somebody from his staff had tumbled to an arms warehouse in the European country while there to try to obtain arms for the Nicaraguan resistance.

OF HAWKS
At about 11:30 a.m. on Nov. 23, the senior CIA officer meets with Copp in a car in a hotel parking lot in the European city. He learns that Copp's real name is Secord, whom he believes had a former tie to the CIA. Secord tells the officer that the flight will involve HAWK missiles which will be shipped to Iran to secure the release of U.S. hostages.
The CIA officer returns to his office and sends two cables. The first, a situation report, mentions a meeting with Secord in the car but does

not set forth the substance of the meeting. In the second cable the CIA officer specifically sets forth the substance of the conversation with Second. The two cables are sent by private channel to Clarridge, the CIA European Division chief.

Clarridge testified in his deposition that he did not know the flights involved weapons for Iran. He believed, he testified, that they contained oil-drilling equipment. He denied, as well, receiving the second cable.

The DCM, who had worked closely with the senior CIA officer between Nov. 22 and 25, testified at his deposition that he had read many of the cables going out to Clarridge from the officer at the time. The DCM testified he recalled either having read the cable informing Clarridge the flight involved HAWKS, or having been told by the senior CIA officer that he had sent a cable with the information.

The CIA communicator on duty at the time sending cables from the European city also recalled that he sent a cable to headquarters with information about missiles. (JHICI, 6/24/87, at 266-69 [Eggleston summary].)

"Mr. NORTH. I do not recall exactly what I discussed with Mr. Clarridge. I know there was a point in time where he certainly did become aware, and it may be through . . . intelligence, because the intelligence showed what was being moved, and I did at some point along there confirm to him that it was not oil drilling equipment but that it was Hawks, as was very obvious to almost everybody out there at that point, because they were reading the same . . . intelligence that I was.

"When I say that point, I don't know exactly what point it is. But I did at some point confirm to him that that's what was taking place, and that -- and it may have been after the fact, I am not saying that it was before the fact, and at that point Mr. McMahon was very upset with me.

"Mr. NIELDS. Now, at what point was Mr. McMahon very upset with you?

"Mr. NORTH. As I recall, it was after the pilots returned from their mission or in which [sic] he saw a part of the . . . intelligence. And I don't recall the specific timing, but it was at that point that we began to work on the finding with Mr. Sporkin, I think."

"Mr. NIELDS. In other words, you are saying that you told Mr. Clarridge what the real cargo was prior to the time the Deputy Director got angry and insisted on a finding?

"Mr. NORTH. I am not saying that for sure. I am saying that is the way it may well have happened. I do recall, although I do not recall the time and date, confirming to Mr. Clarridge when asked, 'The cargo is not oil drilling equipment, the cargo is Hawks.'

"Okay. Now, I cannot tell you, Mr. Nields, here at this point, a good while after the fact, when that point was.

GEORGE ACCOUNT, Part 1:

Clair George, Deputy Director for Operations of the CIA, testified on his knowledge of the events of the 11/85 HAWK transaction:

"Mr. Kerr. Moving ahead into November, there is an incident that we have all heard about that occurred when the agency was . . . asked to provide some air support to Colonel North. Let me ask you to focus on that. We are now [at] the 22nd, 23rd, 24th of November 1985. Your testimony usually picks up on that Monday, the 25th, but bring us into focus on when you learned of this incident.

"Mr. George. I left Washington for a weekend that weekend. [Sic.] I left Thursday morning and came back Sunday afternoon. I went into the office on Monday morning and John McMahon was in my deputy's office, my deputy was Ed Juchniewicz and John McMahon was visibly and outspokenly disturbed. I don't remember how I put it all together, but I finally got the following picture. Over that weekend, Colonel North had called the chief of my European division and said that it was critical to arrange for an Israeli plane to land [redacted.] We had sent cables to [redacted] and [redacted.] This we now know was General Second at the time. Our [redacted] stayed up all night -- it was a charge, there was great confusion going to a foreign government at night and getting special permission for a plane from Israel to land is not easy, no matter who you are. John McMahon

said to me that Monday morning -- I heard him say to Ed Juchniewicz, and I do remember this, not only did you send the cables, but you let the goddamned airplane go to Tehran. Now we know the story I am telling. I put a cable package -- John said get me those damned cables and I put a cable package together with him, my secretary and I, and delivered it to him, I am sure that very day.

"Mr. Kerr. Let me take you back. You would not have been in the office that weekend, correct?

"Mr. George. I was in the Hilton Hotel in Pittsburgh, Pennsylvania.

"Mr. Kerr. And no one contacted you in the Hilton Hotel in Pittsburgh about this matter?

"Mr. George. No.

"Mr. Kerr. In terms of what happened Monday morning, you come in and it becomes apparent to you that Mr. McMahon is disturbed?

"Mr. George. As William Safire said that was the famous through-the-overhead weekend.

"Mr. Kerr. Did you, as part of the task that you were given at that point, have a meeting with Mr. Clarridge?

"Mr. George. I talked to Dewey several times during that day, I said to Dewey, 'Bring me the damned cables', I said to my secretary, 'Dig up what we have here, get me a package of these things. I've got to get them to McMahon.['] I am sure I talked to Dewey more than once.

"Mr. Kerr. Do you recall having a meeting of Clarridge and yourself with Mr. McMahon that day?

"Mr. George. I don't, but we could have certainly.

"Mr. Kerr. With regard to the cable traffic, my assumption is that you tried to get as complete a collection of cables as you could?"

"Mr. George. It was simple. There were cables sent out from the European Division to [redacted] dealing with a flight that was going to originate in Israel and whether I knew whether it was going to Tehran or not, I certainly learned quickly, so it is not a complicated problem to find that traffic and put it together. There is not that much of it."

"Mr. Kerr. Did it come to your attention from the numbers or otherwise that there were cables in the sequence missing?

"Mr. George. No, sir.

"Mr. Kerr. You had your staff do that?

"Mr. George. Yes.

"Mr. Kerr. No one told you there was a cable missing?

"Mr. George. Among us, it would be my secretary would say, 'All right, Clair[], we have this little pile of things here in a manila envelope, this is it.' She wouldn't, nor would I have ever expected her to say, ['Redacted] is not there', and so there was no, to me, that Monday any such discussion.

"Mr. Kerr. So to the best of your knowledge, you didn't have an awareness of a missing cable?

"Mr. George. I did not that day.

"Mr. Kerr. And until the recent events occurred, did it come to your attention that there were [redacted] cables missing at that time?

"Mr. George. No. I can't remember, so many things have been going on in the last few months, but, no, there never was an issue that there was a cable missing.

"Mr. Kerr. In terms of the cables, they were coming in on the privacy channel?

"Mr. George. They were coming in on what we call a privacy channel, a variety of links we have established, I have one, the Director has one, the Deputy Director has one and each of my geographic division chiefs had one. The primary purpose of this is to handle extremely sensitive personnel matters, of which we have many, as people have serious problems abroad.

"The way it works is, in this case, it would be Mr. Clarridge's privacy channel in Europe. I get a copy of every privacy channel sent out of the Directorate. You cannot communicate with your man overseas without my receiving a copy of it in the privacy channel.

"Therefore, if the cable -- I have discussed this on many occasions -- if the cable went in and out of the privacy channel, I should have received a copy. The only person who can cable in and out of the building without any other distribution, other than the Office of Communications, is the Director himself.

"Mr. Kerr. You are familiar with the testimony given by [redacted?]

I suppose three times in the last 20 years I have seen a cable eaten alive by the relay station [redacted]. The odds are so high, I am afraid we would be foolish to think that happened. A cable could have been sent in a nonprivacy channel. [Redacted] swears the traffic was in privacy channel, he could have put a slug, a signal at the top of the cable which would have sent it somewhere else, all copies then to a single person. correct?

"Mr. George. No.

"Mr. Kerr. The committee has heard testimony on the description of the cargo that was carried by the CIA's proprietary. You will recall the description that was utilized at the time was oil drilling equipment.

"The committee has heard testimony from Don Regan, for example, that he knew that that was a cover story, that there was military cargo being carried by the proprietary. People like Charley Allen, for example, have testified in deposition that he was suspicious of the oil equipment cover story that weekend and by the evening, early morning hours of the 26th, [redacted] which suggested that military equipment had been carried.

"The agency's lawyer, Mr. Sporkin, said that on the 25th of November, he learned that the proprietary had carried military equipment. You would have known, isn't it correct, on Monday or Tuesday the 25th and 26th of November that the proprietary had, in fact, carried military equipment to Tehran?

"Mr. George. That is not my recollection. My recollection was that at that moment that week there was confusion as to what that plane had carried, but the story being given to me as I returned was it was carrying non-lethal equipment, oil drilling equipment.

"Mr. Kerr. That story would have been given to you first and foremost by Mr. Clarridge?

would have probably been given to me first by my own personal staff in my office. When I am running around, as we discussed yesterday, collecting the cables from that weekend for Mr. McMahon, as I am doing this, I am sure I am saying 'What is it? Why did it happen? Where? Why and what?'

POINDEXTER DEPOSITION ACCOUNT:

"A. . . . Very frankly, in November of 1985, both Colonel North and I felt that this whole operation was screwed up.

"Q. What operation?

"A. The Iranian business; and that's one of the reasons that in December of 1985, when I took over, I wanted to get the whole thing on a much more organized basis. I wanted to get the CIA formally involved because of their expertise in logistics; and I wanted to get the thing on paper as to what our objectives were and exactly what the President approved, because in November of '85, I was very confused as to what had been approved and what hadn't been approved and frankly thought that it had been run in a very slipshod manner."
